<p>This course is designed to meet the training needs of foreign students in the area of reading comprehension at the general science level.</p> <p>In the course, reading strategies are introduced and trained to help students understand the texts they are working on at different levels:</p> <ul style="list-style-type: none"> • Global level: this level is about recognizing the theme of the text. • Level of text structure: in this phase, the aim is to understand the structure of the text, the content of the individual sections of meaning and the argumentative strand. • Level of selected passages: This phase is about looking for specific information in the text and understanding it in detail, depending on the cognitive interest. • Formal-linguistic level: This level offers assistance to weaker readers by clarifying again some references made in the text during the course. <p>The strategies introduced in the course offer assistance in the study of difficult texts. They refer to</p> <ul style="list-style-type: none"> • the structure and composition of texts and • the function of selected grammatical structures in connection with the comprehension of texts. <p>The course is divided into three modules: Module I: Language & Culture Module II: Business & Law Module III: Science & Technology</p>		
Intended learning outcomes		
<p>In this course, students learn how to deal with longer and more argumentatively complex general science texts at level C1 of the Council of Europe's Common European Framework of Reference for Languages, working with several texts on current topics that introduce a new area of knowledge. You will learn strategies to help you understand the texts and extract as much information as possible.</p> <p>To achieve this goal, students practice strategies for accessing academic texts. This means they answer questions about various texts and solve tasks designed to analyze what they read, identify content, and deal with grammatical aspects of texts.</p>
