Contents		
<p>This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on developing students' natural sciences-specific communication skills in the target language (written skills in particular) and equips them with country-specific intercultural skills.</p>		
Intended learning outcomes		
<p>Students gain sound written, natural sciences-specific communication skills in the target language. They develop advanced natural sciences-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in scientific terminology. They are able to understand scientific texts as well as to critically evaluate and correct their own texts. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.</p>
