Contents

This module equips students with natural sciences-specific language skills that will allow them to communicate in the target language, both at university and in the workplace.

Intended learning outcomes

Students gain natural sciences-specific communication skills (written and oral) in the target language. They develop advanced subject-specific language skills - including subject-specific terminology and structures - that will allow them to communicate about selected topics in the natural sciences in corresponding situations.

Courses

This module has 3 components; information on courses listed separately for each component.
