## Contents

The aim of the module is to improve the students' presentation skills. Especially multimedia aspects such as mastering presentation software, properly editing and integrating video footage and recording audio files will play an important role.

## Intended learning outcomes

The students have basic skills in using technology and software to create and give multimedia-supported presentations. Furthermore, they know how to give professional, multimedia-supported presentations and are able to create a proper handout.

## Method of assessment

Presentation (30 to 40 minutes) with written elaboration (approx. 2 pages)

## Allocation of places

Max. 15 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. (2) The remaining places will be allocated by lot. (3) A waiting list will be maintained and places re-allocated by lot as they become available.
