<b>Contents</b>		
This modul provides the chance to become acquainted with different international educational systems. With excursions into other European as well as non-European countries an international and intercultural exchange between educational systems takes place. This can cover a system as a whole on a political level as well as individual sections on the level of specific educational institutions. Subject of this are educational as well as extra- and pre-school institutions. Apart from structural questions, content-related fields of duty as well as general moral values and cultural norms of an educational system or individual fields of education will be dealt with.		
<b>Intended learning outcomes</b>		
Students are acquainted with different international educational systems or individual fields of education of a broader system, know how to describe them structurally and classify them in reference to their content, and are able to relate their objectives to their fields of duty. International educational institutions and systems can be placed correctly into their wider context of respective national and cultural values and norms.
