<b>Contents</b>		
<p>Based on a number of working steps, students' own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).</p>		
<b>Intended learning outcomes</b>		
<p>The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.</p>
