<p>With the help of different methods, this course offers the chance to optimize the speaker's active vocabulary and language skills. In doing so, occasions and situations for speaking are generated in which the students interactively talk, discuss and negotiate with each other. Potential language barriers, personal inhibitions thresholds or negatively connoted situations will be reduced and canceled out with mutual sympathy and understanding. Thus, a feeling for the language, language skills, and a confident readiness of speech will emerge.</p>		
Intended learning outcomes		
<p>Students have activated their vocabulary and can use it appropriately. They can use the English language correctly and eloquently and they actively communicate freely without inhibitions in different situations. With the help of varied methods students can learn on their own initiative and further train their communicative and language competences.</p>
