As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/ or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or school social work and gives the students the opportunity to participate in the concrete pedagogical work with a professional focus on "projects", or to bring their own small projects to fruition.

Intended learning outcomes

The students have gained an insight into the diverse task areas of a teacher at the elvel of lower secondary education. They are experienced in carrying out projects of social school work and are able to use those as a basis for the development of their own pedagogical projects. They have furthered their own methodic competence and are able to use it purposefully, reflect upon it critically and broaden it independently.
