Content and Objectives of the Programme

The Additional Qualification in Special Education for Vocational Teachers can be studied at the Faculty of Human Sciences of JMU and is designed for holders of a teaching degree for vocational schools who are or were teaching at vocational schools. Studying the Additional Qualification in Special Education for Vocational Teachers, students

1. explore selected issues in special needs education and reflect upon them critically in the context of their own classroom practice,
2. become familiar with some of the fields of conditions of, and approaches to explaining, different types of emotional and behavioural disorders and learning disabilities as well as with the actions that need to be taken by special education teachers to respond to them,
3. analyse teaching and learning processes taking place in vocational schools in a reflective manner, taking into account abnormalities in behaviour, experience and learning as a basis for making plans for responding to the special educational needs of learners,
4. develop their repertoire of teaching methods, taking into account different issues in special education,
5. become familiar with different approaches to teaching within an inclusive classroom in vocational schools and learn what conditions must be met for inclusive teaching to be successful as well as how to design classes that allow learners with and without special educational needs to learn together,
6. explore, in a manner that is both theory-based and practice-oriented, different types of support and guidance that special education teachers can provide to young people in different job responsibility areas.

A distinctive feature of the Additional Qualification in Special Education for Vocational Teachers is that it uses a project-based learning approach, which encourages students to constantly reflect upon their own classroom practice in a critical manner with the help of special education as an academic discipline and enables them to help make vocational schools more inclusive. Holders of the Additional Qualification in Special Education are particularly well qualified for working as teachers at vocational schools.

Abbreviations used

Course types: **E** = field trip, **K** = colloquium, **O** = conversatorium, **P** = placement/lab course, **R** = project, **S** = seminar, **T** = tutorial, **Ü** = exercise, **V** = lecture

Term: **SS** = summer semester, **WS** = winter semester

Methods of grading: **NUM** = numerical grade, **B/NB** = (not) successfully completed

Regulations: **(L)ASPO** = general academic and examination regulations (for teaching-degree programmes), **FSB** = subject-specific provisions, **SFB** = list of modules

Other: **A** = thesis, **LV** = course(s), **PL** = assessment(s), **TN** = participants, **VL** = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

ASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

08-Mar-2017 (2017-4)

01-Jun-2017 (2017-36)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.
