Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

ASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

24-Mar-2020 (2020-30)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

| Information literacy in an academic context: search strategies, resources, reference management, copyright, etc. | | |
| Intended learning outcomes | | |
| Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline(s) and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their papers. | | |

| Contents | | | |
| Basic concepts (measurement, scale levels), univariate statistics (frequencies, measures of central tendency, measures of dispersion), basics of inferential statistics, bivariate statistics (cross-tabulation, correlation, t-test), analysis of variance, OLS regression | | | |
| Intended learning outcomes | | | |
| The students know the most important measures of statistics. They are able to apply these measures adequately to empirical questions, calculate them in the right way and interpret them correctly. They know the assets and drawbacks of the measures covered by the course. They can apply a statistical program to deal with the contents covered by the course. | | | |
