Content and Objectives of the Programme

Graduates acquire a professional and scientific qualification via a framework of multifaceted and variable curricular. This enables them to respond to the demands of the labour market in different professional fields of pedagogical work: schools, extracurricular youth work, adult learning and early childhood education. They are able to reflect different pedagogical theories in their respective systematic, historical and socio-cultural contexts and are proficient in the design and execution of qualitative and quantitative research projects. In addition to this graduates possess the ability to make reference to socio-political discourses. They demonstrate outstanding ability to become acquainted with the complexity of different thematic fields and to methodically conceive and organize them in a way that enables the creation of didactical arrangements of teaching and learning. This acquired professional knowledge, competences and methodologies qualifies graduates for scientific work and for the critical reflection of scientific knowledge/results at a high academic level.

Abbreviations used

Course types: **E** = field trip, **K** = colloquium, **O** = conversatorium, **P** = placement/lab course, **R** = project, **S** = seminar, **T** = tutorial, **Ü** = exercise, **V** = lecture

Term: **SS** = summer semester, **WS** = winter semester

Methods of grading: **NUM** = numerical grade, **B/NB** = (not) successfully completed

Regulations: **(L)ASPO** = general academic and examination regulations (for teaching-degree programmes), **FSB** = subject-specific provisions, **SFB** = list of modules

Other: **A** = thesis, **LV** = course(s), **PL** = assessment(s), **TN** = participants, **VL** = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

ASPO2007

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

16-Apr-2009 (2009-35)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

Compulsory Courses

(60 ECTS credits)

Module title		Abbreviation
Introduction to pedagogy		o6-GP1-082-m01
Module coordinator		Module offered by
holder of the Chair of Systematic Educational Science		Chair of Systematic Educational Science
ECTS	Method of grading	Only after succ. compl. of module(s)
15	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Basic concepts and processes of pedagogy, basic knowledge about pedagogy regarding scientific theory and history of science, knowledge of selected eras of the history of pedagogy, study techniques, scientific knowledge and work.		
Intended learning outcomes		
Professional skills: The module introduces basic questions of pedagogical educational sciences. The students have basic and orientational knowledge of the structure of the subject pedagogy as well as its history and pedagogical forms of knowledge. They are able to find theoretical explanations for pedagogical concepts and know about their historical roots. Self- and social competence: By practising selected study techniques, the students become acquainted with scientific understanding in pedagogy and with the demands on scientific work.		
Courses (type, number of weekly contact hours, language – if other than German)		
This module comprises 2 module components. Information on courses will be listed separately for each module component. <ul style="list-style-type: none"> • o6-GP1-1-082: V + S + Ü (no information on SWS (weekly contact hours) and course language available) • o6-GP1-2-082: S (no information on SWS (weekly contact hours) and course language available) 		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.		
Assessment in module component o6-GP1-1-082: Foundations of pedagogy Foundations of pedagogy Foundations of pedagogy <ul style="list-style-type: none"> • 10 ECTS, Method of grading: numerical grade • a) written examination (120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) 		
Assessment in module component o6-GP1-2-082: Historical education <ul style="list-style-type: none"> • 5 ECTS, Method of grading: numerical grade • a) term paper (approx. 20 pages) or b) written examination (approx. 120 minutes) or c) presentation (approx. 35 minutes) with written elaboration (approx. 15 pages), weighted 1:1

Contents		
In this module we study the epistemological, methodological and methodical principles of empiric educational research while focusing on teaching qualitative and quantitative research methods in a practice-oriented manner.		
Intended learning outcomes		
After successfully completing this module, the students are able to independently plan and carry out every single step of qualitative and/or quantitative research projects.		
Courses (type, number of weekly contact hours, language – if other than German)		
V + V + R + S (no information on SWS (weekly contact hours) and course language available)

Contents		
In this module we discuss theories, methods and findings of empirical educational research while focusing on competence diagnostics and evaluation research. We will apply these techniques as part of service learning projects.		
Intended learning outcomes		
The students acquire basic knowledge about educational research as evaluation research and about principles and application fields of competence diagnostics. Furthermore, they learn to implement evaluation studies.		
Courses (type, number of weekly contact hours, language – if other than German)		
V + Ü + Ü + R + S (no information on SWS (weekly contact hours) and course language available)

Contents		
Basic problems of systematic pedagogy, basic problems of schooling and education theory, basic philosophical questions of education and schooling, basic questions of pedagogy regarding standards, actions, culture and scientific theory.		
Intended learning outcomes		
The students are able to classify and evaluate different theories of pedagogy in a methodical, historical and sociocultural context. They know about the principles of standards, actions, culture and scientific theory of pedagogy and are able to explain them. They gain a general perspective on pedagogy and develop awareness of the problems of pedagogical stipulations and measures. Furthermore, the students are able to debate philosophical and anthropological requirements of pedagogical theories, discourses and actions. They are able to lead arguments on the basis of theories.		
Courses (type, number of weekly contact hours, language — if other than German)

Approaches to and results of childhood studies, education processes, infantile forms of expression.		
Intended learning outcomes		
The students know results of childhood studies that are relevant to elementary education and have knowledge of cognitive, social, physical, emotional and aesthetic education processes. They know infantile forms of expression and can evaluate their meaning for child development. Therefore, they are able to understand and support development and education processes of children in a pedagogical manner.		
Courses (type, number of weekly contact hours, language — if other than German)

Educational guidance and learning guidance in scholastic and extracurricular youth education as well as individual and institutional evaluation, work placement.		
Intended learning outcomes		
Basic knowledge of and insights into theories and proceedings of individual performance evaluation as well as evaluation of institutions of scholastic and extracurricular youth education, insight into professional guidance concepts. Furthermore, the students acquire practical orientational knowledge and continue learning on their own authority. They especially focus on gaining basic insights into institutions/organisations and on evaluating their own professional self-perception and ethics.		
Courses (type, number of weekly contact hours, language – if other than German)

Contents		
Work placements in pedagogical fields in order to acquire and advance professional knowledge. The process of continuing learning on one's own authority is critically evaluated in the subsequent course.		
Intended learning outcomes		
The students acquire professional knowledge and continue learning on their own authority. In doing so, personal and social competencies are combined with the acquisition of professional knowledge. The students also acquire basic insights into and knowledge of institutions/organisations. The practical experience also serves as a possibility for the students to evaluate their own professional self-perception and ethics. In the subsequent seminar, the students learn to critically evaluate their self-perception in view of the relations between theory and practice in confrontation with justified foreign interpretations.		
Courses (type, number of weekly contact hours, language — if other than German)		
P (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
A prerequisite for participation in this module was already met by having written a short report in module o6-POW19-1. Assessment in the present module will therefore take the form of: a) placement report (approx. 15 pages) by institution where the placement was completed or b) supervision conversation (approx. 15 minutes) at CSC Pädagogik (Career Service Centre Pedagogy). There is a restricted number of places. Places will be allocated by lot.
