Content and Objectives of the Programme

Graduates acquire a professional and scientific qualification via a framework a of multifaceted and variable curricular. This enables them to respond to the demands of the labour market in different professional fields of pedagogical work: schools, extracurricular youth work, adult learning and early childhood education.

They are able to reflect different pedagogical theories in their respective systematic, historical and socio-cultural contexts and are proficient in the design and execution of qualitative and quantitative research projects. In addition to this graduates possess the ability to make reference to socio-political discourses. They demonstrate outstanding ability to become acquainted with the complexity of different thematic fields and to methodically conceive and organize them in a way that enables the creation of didactical arrangements of teaching and learning.

This acquired professional knowledge, competences and methodologies qualifies graduates for scientific work and for the critical reflection of scientific knowledge/results at a high academic level.
