Content and Objectives of the Programme

Graduates acquire a professional and scientific qualification via a framework of multifaceted and variable curricular. This enables them to respond to the demands of the labour market in different professional fields of pedagogical work: schools, extracurricular youth work, adult learning and early childhood education. They are able to reflect different pedagogical theories in their respective systematic, historical and socio-cultural contexts and are proficient in the design and execution of qualitative and quantitative research projects. In addition to this graduates possess the ability to make reference to socio-political discourses. They demonstrate outstanding ability to become acquainted with the complexity of different thematic fields and to methodically conceive and organize them in a way that enables the creation of didactical arrangements of teaching and learning. This acquired professional knowledge, competences and methodologies qualifies graduates for scientific work and for the critical reflection of scientific knowledge/results at a high academic level.
**Abbreviations used**

Course types: E = field trip, K = colloquium, O = conversatorium, P = placement/lab course, R = project, S = seminar, T = tutorial, Ü = exercise, V = lecture

Term: SS = summer semester, WS = winter semester

Methods of grading: NUM = numerical grade, B/NB = (not) successfully completed

Regulations: (L)ASPO = general academic and examination regulations (for teaching-degree programmes), FSB = subject-specific provisions, SFB = list of modules

Other: A = thesis, LV = course(s), PL = assessment(s), TN = participants, VL = prerequisite(s)

**Conventions**

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

**Notes**

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

**In accordance with**

the general regulations governing the degree subject described in this module catalogue:

ASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

22-Jul-2015 (2015-44)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

**Contents**

Basic concepts and processes of educational sciences, scientific knowledge and work, study techniques.

**Intended learning outcomes**

Professional skills: The module introduces basic questions of educational sciences. The students have basic and orientational knowledge of the structure of the subject and the meaning of the concept of education. They are able to find theoretical explanations for concepts of educational sciences. Self- and social competence: By practising selected study techniques, the students become acquainted with scientific understanding in educational sciences and with the demands on scientific work.

**Courses** (type, number of weekly contact hours, language — if other than German)

### Contents

In this module we study selected methods and epistemological principles of systematic educational sciences while focusing on the development of non-empirical approaches to the topic.

### Intended learning outcomes

The students are able to independently plan and conduct research projects.

### Contents

In this module we study the epistemological, methodological and methodical principles of empiric educational research while focusing on teaching qualitative and quantitative research methods in a practice-oriented manner.

### Intended learning outcomes

After successfully completing this module, the students are able to independently plan and carry out every single step of qualitative and/or quantitative research projects.

Attendance is considered regular if students missed a maximum of two sessions of courses with 2 weekly contact hours or a maximum of four sessions of courses with 4 weekly contact hours. Block courses: Students must not be absent for more than 20% of class time. Students who did not regularly attend the courses of the module must not be admitted to assessment.</td>
</tr>
</tbody>
</table>

**Contents**

In this module we discuss theories, methods and findings of empiric educational research. In doing so, we focus on competence diagnostics and evaluation research and apply them as part of service learning projects.

**Intended learning outcomes**

The students acquire basic knowledge about educational research as evaluation research and about principles and application fields of competence diagnostics. Furthermore, they learn to implement evaluation studies.

Contents
Basic problems of systematic pedagogy, theory models and basic questions of pedagogy regarding standards, actions, culture and scientific theory; basic philosophical questions of schooling and education.

Intended learning outcomes
The students are able to classify and evaluate different theories of pedagogy in a methodical, historical and sociocultural context. They know about the principles of standards, actions, culture and scientific theory of pedagogy and are able to explain them. They gain a general perspective on pedagogy and develop awareness of the problems of pedagogical stipulations and measures. Furthermore, the students are able to debate philosophical requirements of pedagogical theories, discourses and actions. They are able to lead arguments on the basis of theories.

### Contents

Explicit and implicit ideas of man that are requirements for the understanding of schooling and education: Anthropological approaches and their sociocultural connections.

### Intended learning outcomes

The students gain insights into the connections between the conception of man and education concepts as well as their position in the respective cultural and social context. They acquire a reflective awareness of the possibilities and limits of schooling and education.

Thesis
(10 ECTS credits)
Module title: Bachelor-thesis in pedagogics
Abbreviation: 06-PÄD-BA-152-m01

Module coordinator: Managing Director of the Institute of Pedagogy
Module offered by: Institute of Pedagogy

ECTS: 10
Method of grading: numerical grade
Only after succ. compl. of module(s): --

Duration: undergraduate
Other prerequisites: --

Contents:
The students choose contents from the field of the Bachelor’s degree programme of Pedagogy upon consultation with the thesis supervisor. After approving, the examination committee informs the students about their appointed topics.

Intended learning outcomes:
The students are able to independently and scientifically examine a question from pedagogy within a predetermined processing period.

Courses:
No courses assigned to module

Method of assessment:
Bachelor's thesis (approx. 30 to 50 pages)
Registration on a continuous basis as agreed upon with supervisor.

Allocation of places:
--

Additional information:
Time to complete: 10 weeks.

Referred to in LPO I (examination regulations for teaching-degree programmes):
--
Key Skills Area
(ECTS credits)

In the two degree subjects, students must achieve a total of 20 ECTS credits in the area of transferable skills. Of these, a total of 5 ECTS credits must be achieved in the two subjects in the area of general transferable skills and a total of 15 ECTS credits (no less than 5 ECTS credits per subject) must be achieved in the two subjects in the area of subject-specific transferable skills.
**General Key Skills**

(0-5 ECTS credits)

Students must take modules offered as part of the pool of general transferable skills (ASQ) of the University of Würzburg.
Subject-specific Key Skills
(5-10 ECTS credits)
subject-specific key skills, Compulsory Courses
(5 ECTS credits)

Contents

Work placements in pedagogical fields in order to acquire and advance professional knowledge.

Intended learning outcomes

The students acquire professional knowledge and continue learning on their own authority. They acquire general professional competencies and advance their personal and social competencies. They gain knowledge of and insights into institutions/organisations and fields of action during the work placement. Furthermore, the practical experience also serves as a possibility for the students to evaluate their own professional self-perception and ethics.

Courses (type, number of weekly contact hours, language — if other than German)

P (0)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

Proof of having completed placement (1 to 2 pages)

Allocation of places
