Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

30-Jul-2025 (2025-67)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

Internship in school

(4 ECTS credits)

The subject-specific teaching internship accompanying the course of study in accordance with Art. 34 (1) No. 4 LPO I does not refer to a subject that constitutes an extension of the course of study, nor to the subject of psychology with a focus on school psychology.

If the course of study for teaching at elementary schools, middle schools, or secondary schools is expanded to include a degree in psychology with a focus on school psychology, the degree in psychology with a focus on school psychology replaces the degree in a teaching subject (Art. 14 No. 4, 15 No. 4, 16 No. 3 BayLBG). As part of the teacher training program for secondary schools, the subject-specific teaching internship must be completed in the remaining teaching subject. The following rule applies to the teacher training program for elementary schools and middle schools: Due to the elimination of the (single) teaching subject, the subject-specific teaching internship must be completed in one of the teaching subjects chosen as part of elementary school teaching or the teaching subjects of a subject group at the middle school. The modules of the subject-specific teaching internship and the accompanying course are regulated in the subject-specific provisions of the respective teaching subject, unless the subject in question is offered exclusively as a teaching subject. In the latter case, the module of the subject-specific teaching internship is regulated in the subject-specific provisions of the respective teaching subject, provided that the subject-specific teaching internship is offered in the subject in question.

If psychology with a focus on school psychology is chosen as part of the subject combination for the teaching degree program for secondary schools (Art. 11 No. 2 BayLBG), the subject-specific teaching internship must be completed in the remaining subject of the subject combination that is studied in depth. If the course of study for teaching at secondary schools is extended by studying psychology with a focus on school psychology (Art. 17 No. 3 BayLBG), the subject-specific teaching internship must be completed in one of the two subjects studied in depth in the subject combination.

Freier Bereich (general as well as subject-specific electives)

(0-10 ECTS credits)

Teaching degree students must take modules worth a total of 15 ECTS credits in the area Freier Bereich (general as well as subject-specific electives) (Section 9 LASPO (general academic and examination regulations for teaching-degree programmes)). To achieve the required number of ECTS credits, students may take any modules from the areas below.

In the case of extending the course of study for teaching at primary schools and secondary schools with psychology and a focus on school psychology, notwithstanding § 9 LASPO in conjunction with § 22 (2) No. 1 letter h) LPO I, modules totaling 10 ECTS credits must be completed within the framework of the area "Freier Bereich" (§ 22 (4) sentence 1 no. 2 LPO I).

Freier Bereich (general as well as subject-specific electives) -- open for all teaching degree students irrespective of their subject combinations: For additional courses that are open to all teaching degree students irrespective of their subject combinations (fächerübergreifendes Zusatzangebot), please refer to the respective Annex of the "Ergänzende Bestimmungen für den "Freien Bereich" im Rahmen des Studiums für ein Lehramt" (Supplementary Provisions on the Area "Freier Bereich" in Teaching-Degree Programmes).

Hausarbeit (thesis)

(10 ECTS credits)

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination).

In the case of a double major or extension with psychology with a focus on school psychology—with the exception of the extension of studies for teaching at secondary schools in accordance with Art. 17 No. 3 BayLBG and the subsequent extension in accordance with Art. 23 BayLBG—the written thesis must be completed in this subject. Furthermore, the written thesis may not be written in a subject or subject area that has only been chosen as part of an extension (Section 29 (1) sentences 3 and 4 LPO I).
