Contents		
<p>In this course we study basic contents, questions and issues of the didactic fields "creating movement", "playing with and against each other" and "promoting health" by evaluating our own practical experiences. We specify these fields by studying central aspects of the integration of movement-oriented topics into school life. These aspects include ways to implement such topics as well as possibilities to organise and differentiate curricular and extra-curricular sports. The students extend their knowledge about movement pedagogy by studying the development of balance and coordination skills. The module components "Creating Movement" and "Playing with and Against Each Other" each contain specific aspects of "Promoting Health".</p>		
Intended learning outcomes		
<p>The students acquire basic skills in the three afore-mentioned didactic fields. They are familiar with the essential criteria of planning, conducting and evaluating coordination training processes in sports and they know the application fields of various pieces of sports equipment as well as equipment set-ups that aid in improving balance. They become acquainted with the peculiarities of infantile motoric play and with various organisation forms and differentiation possibilities of the integration of movement-oriented topics into school life. Furthermore, they learn about health maintenance and possibilities of health promotion in the context of working out and exercising.</p>

Thesis

(10 ECTS credits)

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination). In accordance with the provisions of Section 29 LPO I, students studying for a teaching degree Hauptschule may write this thesis in the subject Didaktik einer Fächergruppe der Hauptschule (Didactics of a Group of Subjects of Hauptschule), in the subject they selected as Unterrichtsfach (subject studied with a focus on the scientific discipline) or in the subject Erziehungswissenschaften (Educational Science). Pursuant to Section 29 Sub-section 1 Sentence 2 LPO I, students may also choose to write an interdisciplinary thesis.
