Abbreviations used

Course types: E = field trip, K = colloquium, O = conversatorium, P = placement/lab course, R = project, S = seminar, T = tutorial, Ü = exercise, V = lecture

Term: SS = summer semester, WS = winter semester

Methods of grading: NUM = numerical grade, B/NB = (not) successfully completed

Regulations: (L)ASPO = general academic and examination regulations (for teaching-degree programmes), FSB = subject-specific provisions, SFB = list of modules

Other: A = thesis, LV = course(s), PL = assessment(s), TN = participants, VL = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2009

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

23-May-2013 (2012-55)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.
Thesis
(10 ECTS credits)

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination). In accordance with the provisions of Section 29 LPO I, students studying for a teaching degree Sonderpädagogik may write this thesis in the subject they selected as sonderpädagogische Fachrichtung (special education specialization). Pursuant to Section 29 Subsection 1 Sentence 2 LPO I, students may also choose to write an interdisciplinary thesis.

### Contents
Independent scientific examination of a relevant topic of Education for People with Learning Disabilities. The guidelines of writing the Hausarbeit (thesis) according to § 29 LPO I are laid down in § 23 LASPO.

### Intended learning outcomes
Self- and social competence: By writing the Hausarbeit (thesis), the students have shown their ability to independently work on a topic of Education for People with Learning Disabilities. Methodological competence: The students are able to work on a question pertaining Education for People with Learning Disabilities according to scientific methods and to professionally discuss and present scientific findings and results. Subject and professional competence: By writing the Hausarbeit (thesis), the students have proved that they have advanced their subject and professional competence in a selected area of Education for People with Learning Disabilities.

**Contents**

Based on the subject area of Special Education, this module shows the connections between its history, theories, institutions and disciplines. Furthermore, it gives an overview of the various and complex fields of action of preschool, school and extracurricular special educational practice.

**Intended learning outcomes**

This module provides an overview of the theoretical knowledge of the degree subject. Knowledge regarding special educational practice on different levels.

**Courses** (type, number of weekly contact hours, language — if other than German)

V + V (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

written examination (approx. 60 minutes)

Contents
We discuss early theoretical concepts and their development or modification (for example Georgens/Deinhardt) in the context of current theories (for example WHO, inclusion) as well as their effects on scientific research. We examine society’s attitude towards disabilities and the development of individual and social identity in the context of disabilities (possibly in the context of specific types of disability). Furthermore, we talk about possibilities of social empathy and ways of improvement as well as aspects of attitude change.

Intended learning outcomes
Advanced knowledge of specific theoretical concepts, reflection competence in the context of disabilities and society, increasing problem awareness in the context of disabilities (possibly with a specific focus).

Courses (type, number of weekly contact hours, language — if other than German)
This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 06-I-SoWiB-1-101: S (no information on SWS (weekly contact hours) and course language available)
- 06-I-SoWiB-2-092: S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 06-I-SoWiB-1-101: Theories of Special Education
- 2 ECTS, Method of grading: numerical grade
  - a) written examination (approx. 45 minutes) or b) presentation (approx. 15 minutes) with written elaboration (approx. 5 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 10 minutes) or e) oral examination in groups (groups of 6, approx. 10 minutes per candidate) or f) term paper (approx. 10 pages) or g) written examination (approx. 20 minutes) and presentation (approx. 20 minutes). The grade of the written examination alone constitutes the grade of the module component.

Assessment in module component 06-I-SoWiB-2-092: Sociology of disability
- 3 ECTS, Method of grading: numerical grade
  - a) written examination (approx. 60 minutes) or b) presentation (approx. 30 minutes) with written elaboration (minimum 10 pages)

Contents
Special Education as an academic discipline; subject and purpose of science and scientificty, scientific methods and systems, central and selected scientific-theoretical theories and methods of knowledge acquisition (especially: empirical-analytical approach, critical rationalism, phenomenology, hermeneutics, critical theory, constructivism and systems theory) as well as principles of scientific work -- also based on specific problems and topics of special educational theory, empirical research and practice.

Intended learning outcomes
The students are able to examine special educational problems in view of different scientific positions and perspectives (professional and methodological competence). They have advanced their basic knowledge of scientific theory on their own or in small groups (social, methodological and professional competence). By applying different learning techniques, the students extend their knowledge of scientific theory and learn to conduct systematic and methodological research; they are able to independently conduct and evaluate small scientific projects (methodological, social and self-competence).

Courses
V + S (no information on SWS (weekly contact hours) and course language available)

Method of assessment
a) written examination (approx. 60 minutes) or b) presentation (approx. 20 minutes) with written elaboration (approx. 10 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 15 minutes) or e) oral examination in groups (groups of 4, approx. 15 minutes per candidate) or f) term paper (approx. 10 pages) or g) written examination (approx. 30 minutes) and presentation (approx. 20 minutes). The grade of the written examination alone constitutes the grade of the module component.

Contents
Detailed examination of special educational fields of action in the context of developmental delays and learning disabilities (e.g. early interdisciplinary intervention); preschool education, schooling and support; forms of organisation and support in school; preparation for career decision making in school; fostering of occupational maturity; after-school measures for vocational preparation, education and support.

Intended learning outcomes
Profound knowledge of the professional diversity of special educational action; competencies regarding prevention and intervention in the course of development/life of (small) children and juveniles with developmental delays and learning disabilities, especially regarding different fields of action and specific aspects; extension of the students' understanding of their own professional role

Courses
This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 06-L-SHF-1-102: S (no information on SWS (weekly contact hours) and course language available)
- 06-L-SHF-2-102: S (no information on SWS (weekly contact hours) and course language available)

Method of assessment
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 06-L-SHF-1-102: Fields of activity; action in the area of special needs - prevention
- 2 ECTS, Method of grading: numerical grade
  - a) written examination (approx. 45 minutes) or b) presentation (approx. 15 minutes) with written elaboration (approx. 5 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 10 minutes) or e) oral examination in groups (groups of 6, 10 minutes per candidate) or f) term paper (approx. 10 pages)

Assessment in module component 06-L-SHF-2-102: Fields of activity; action in the area of special needs - compensation
- 3 ECTS, Method of grading: numerical grade
  - a) written examination (approx. 45 minutes) or b) presentation (approx. 15 minutes) with written elaboration (approx. 5 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 10 minutes) or e) oral examination in groups (groups of 6, 10 minutes per candidate) or f) term paper (approx. 10 pages)

Managing Director of the Institute of Special Education

### Module offered by
Institute of Special Education

### ECTS
5

### Method of grading
Only after succ. compl. of module(s)

### Numerical grade
--

### Duration
1 semester

### Module level
undergraduate

### Other prerequisites
Admission prerequisite to assessment: regular attendance of seminar/seminars (minimum 80% of sessions offered).

### Contents
Communication theories, interaction and group dynamics, psychological basics of special educational counselling, elements of conversation techniques, counselling and cooperation, elements of conversation techniques when talking to people that have difficulties with verbal expression, collegial counselling and supervision, counselling concepts (e.g. cooperative, solution-oriented, psychology of learning, systemic ...), methods of cooperation, counselling in crisis situations, counselling in the course of education and life planning.

### Intended learning outcomes
The students know basic aspects of human communication, conversation techniques, counselling and cooperation between the participants in the process of education and support, also especially regarding people that have difficulties with verbal expression. They acquire action and conversation competencies and are able to apply and observe conversation techniques, analyse conversation and counselling situations and develop proposals for continuation. They become acquainted with strategies to facilitate individual education and life planning and to overcome crisis situations of pedagogical importance.

### Contents

Thematisation of the so-called overlap (overlapping area of learning disabilities and behavioural disorders); abnormal learning and social behaviour, i.e. phenomena such as addiction, juvenile delinquency, right-wing extremism; deviance behaviour in view of social values and standards; migrant background and cultural differences (e.g. shame/guilt cultures, comparison of values); deviance behaviour and learning disabilities

### Intended learning outcomes

Professional competence regarding socially relevant deviance behaviour as well as its causes, prevalences and forms; knowledge of the correlations between socially relevant deviance phenomena and social discrimination; professional competence and awareness regarding cross-cultural analyses in the context of migration; methodological competence regarding prevention and intervention in specific areas.

### Courses

**Contents**

Basic general didactic approaches and their reassessment in the context of learning disabilities. Historical and current didactic models and teaching concepts for organising classes for pupils with learning disabilities. Principles and forms of teaching pupils with learning disabilities. Goals of schooling and education, curricula. Teaching heterogeneous or inclusive groups.

**Intended learning outcomes**

Basic knowledge of didactics and teaching concepts for pupils with learning disabilities: Basic reflection competencies in view of various teaching/learning situations in class. Methodological competence: Evaluation of various didactic concepts in view of their history of theory as well as their importance for current questions of schooling, especially in the support focus area of learning.

holder of the Chair of Special Education I

Module offered by

LA Sonderpädagogik

ECTS

5

Method of grading

Only after succ. compl. of module(s)

numeric grade

Duration

1 semester

Module level

undergraduate

Other prerequisites

--

Contents

Principles of teaching and learning research in the context of learning disabilities/disabilities; overview of research results regarding their relevance for learning disabilities (e.g. memory research; educational research/methodological research; inclusion research; media research); the relevance of external and internal influencing factors for learning at school; possibilities for influencing preschool and school factors to improve learning effectiveness with due regard to complicated learning situations

Intended learning outcomes

Advanced (disability-specific) knowledge of research results regarding learning in school; methodological competence regarding teaching and learning research; advanced knowledge of influencing factors relevant for learning as well as their way of influencing (intervention competence).

Courses

This module comprises 2 module components. Information on courses will be listed separately for each module component.

• 06-L-FoE-1-092: V (no information on SWS (weekly contact hours) and course language available)
• 06-L-FoE-2-092: S (no information on SWS (weekly contact hours) and course language available)

Method of assessment

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 06-L-FoE-1-092: Introduction to research of learning processes

• 2 ECTS, Method of grading: numerical grade
• written examination (approx. 60 minutes)

Assessment in module component 06-L-FoE-2-092: Scientific working and influencing factors on learning processes

• 3 ECTS, Method of grading: numerical grade
• a) presentation (approx. 20 minutes) with written elaboration (approx. 10 pages) or b) written examination (approx. 45 minutes)

Allocation of places

### Contents

Principles of planning classes; conceptualising own classes; problems regarding school laws and school practice; institutional questions, exemplary connections between theory and practice, questions of applying general and subject didactics.

### Intended learning outcomes

**Self- and social competence:** The students are able to discuss and evaluate their own and other students’ teaching plans and attempts in a methodological and critical manner. They make own teaching attempts to test themselves as teachers and therefore develop pedagogical competencies and learn to critically evaluate their own pedagogical actions. **Methodological competence:** The students are able to independently plan long-term or medium-term lesson stages and to plan, carry out and critically evaluate classes according to technical, subject-didactic, general and special educational criteria, especially criteria of Education for People with Learning Disabilities. **Subject and professional competence:** In the lectures on didactics, the students have acquired knowledge of general didactics, instructional psychology and didactic approaches and methods of Education for People with Learning Disabilities. They utilize these competencies to plan, conduct and evaluate teaching attempts.

Contents

Selected teaching concepts in the context of learning disabilities (e.g. cooperative learning, autonomous work-EVA, discovery learning etc.); selected teaching principles in the context of learning disabilities (e.g. differentiation, structuring, activation, motivation etc.); specific subject-didactic aspects for teaching in the context of learning disabilities (e.g. in Maths, German, Science and Social Studies etc.)

Intended learning outcomes

Advanced knowledge of teaching and learning processes as well as competencies in organising and guiding learning processes for pupils with learning difficulties; advanced methodological competence in selecting different concepts and principles that are suitable for the respective situation; profound knowledge of exemplary subject-didactic principles of schooling and education regarding the special requirements of pupils with learning difficulties, ability to evaluate and adapt to individual learning support; advanced principles of intervention for specific learning difficulties (e.g. dyslexia, dyscalculia etc.).

Courses

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 06-L-SpDid-1-101: S (no information on SWS (weekly contact hours) and course language available)
- 06-L-SpDid-2-101: S (no information on SWS (weekly contact hours) and course language available)

Method of assessment

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 06-L-SpDid-1-101: Teaching concepts and principles for teaching with learning disabilities

- 2 ECTS, Method of grading: numerical grade
- a) written examination (approx. 45 minutes) or b) presentation (approx. 15 minutes) with written elaboration (approx. 5 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 10 minutes) or e) oral examination in groups (groups of 6, 10 minutes per candidate) or f) term paper (approx. 10 pages)

Assessment in module component 06-L-SpDid-2-101: Specific aspects of teaching with learning disabilities

- 3 ECTS, Method of grading: numerical grade
- a) written examination (approx. 45 minutes) or b) presentation (approx. 15 minutes) with written elaboration (approx. 5 pages) or c) presentation (approx. 30 minutes) or d) oral examination of one candidate each (approx. 10 minutes) or e) oral examination in groups (groups of 6, 10 minutes per candidate) or f) term paper (approx. 10 pages)

### Contents

Phenomena, terminology, criteria and norms, classification, epidemiology, institutions, historical aspects, legal basics, education and education difficulties, principles of didactics and teaching, basic explanatory perspectives, central influencing factors of behavioural disorders (especially aspects of family, school or society).

### Intended learning outcomes

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders (professional competence, self-competence). The students conduct independent and extensive research on their own and in groups to advance their basic knowledge (professional competence, social competence, methodological competence). By acquiring differentiated basic knowledge, the students gain first competencies in dealing with behavioural disorders (self-competence).

**Contents**

Basic perspectives for the explanation of behavioural disorders; key and selected psychological and sociological approaches to the explanation of behavioural disorders in view of medico-biological aspects; key and selected phenomena in the context of behavioural disorders; introduction to scientific work.

**Intended learning outcomes**

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders, also in view of specific explanation concepts and specific selected problems (professional competence, self-competence). This knowledge enables them to classify and understand behavioural disorders in children and juveniles and to develop first ideas for dealing with behavioural disorders (professional competence, self-competence, methodological competence). The students have basic knowledge and skills in acquiring, selecting and processing information in the context of scientific work; they can apply their knowledge and skills to the utilization of study group resources (professional competence, methodological competence, social competence).

### Contents

Knowledge of the historical development of Speech and Language Pathology; advanced knowledge of the pre-conditions of language and speech; principles of language acquisition and theories; introduction to the main clinical pictures of language and speech in the context of learning disabilities and behavioural abnormalities

### Intended learning outcomes

Self- and social competence: The students concentrate on studying contents of Speech and Language Pathology and neighbouring disciplines. Methodological competence: The students methodically acquire professional knowledge of Speech and Language Pathology and neighbouring disciplines and critically evaluate these disciplines in view of their application possibilities and requirements in theory and practice. Subject and professional competence: The students acquire indispensable basic knowledge of theory construction in Speech and Language Pathology, which is always interdisciplinary. They especially learn about pronunciation (respiration, phonation, articulation) and forms of dysarthria relevant to Speech and Language Pathology. Based on these principles, the students acquire knowledge of speech disorders in the context of learning disabilities and behavioural abnormalities.

Course-related Teaching Placement in Education for People with Learning Disabilities

(6 ECTS credits)

Students studying for a teaching degree in special education must complete placements pursuant to Section 93 Subsection 1 Nos. 4 and 5 LPO I (examination regulations for teaching-degree programmes). Students who successfully completed the respective modules are awarded ECTS credits that, pursuant to Section 22 Subsection 2 No. 5 Letter f) LPO I (examination regulations for teaching-degree programmes), are a prerequisite for admission to the Erste Staatsprüfung (First State Examination).

</tr>
</tbody>
</table>

Contents
The students are introduced to school practice of the individual support focus areas of special-needs schools as well as to practice and special educational organisation of the individual subjects at an early stage. After a period of classroom observation, the students plan their own classes, implement special educational support measures and make multiple teaching attempts. Furthermore, they take on the following tasks: Knowledge of special educational tasks and goals of the curriculum for the individual grades of the respective form of special-needs school including support in preschool institutions; mobile special education assistance (msH) and mobile special education services (MSD), classroom observations regarding different approaches to achieve learning goals as well as regarding media use and possibilities of monitoring learning progress, determination of special educational needs of individual children and formulation of diagnosis-oriented education plans; knowledge of possibilities of individual support in the context of pedagogy and psychology.

Intended learning outcomes
Self- and social competence: The students are able to discuss and evaluate their own and other students' teaching plans and attempts in a methodological and critical manner. They make own teaching attempts to test themselves as teachers and therefore develop pedagogical competencies and learn to critically evaluate their own pedagogical actions. Methodological competence: The students are able to independently plan long-term or medium-term lesson stages and to plan, carry out and critically evaluate classes according to technical, subject-didactic, general and special educational criteria, especially criteria of Education for People with Learning Disabilities. Subject and professional competence: In the lectures on didactics, the students have acquired knowledge of general didactics, instructional psychology and didactic approaches and methods of Education for People with Learning Disabilities. They utilize these competencies to plan, conduct and evaluate teaching attempts.

### Contents
- Students gain an insight into cultural-scientific research and topic areas that are defined by the determinants tradition and modernity as well as by space and time.
- Overview of research approaches and theoretical positions of cultural historical work.
- Tradition situations, tradition carriers and modalities as well as phenomena and factors of the cultural change will be covered.
- Students will be provided with approaches and techniques of the cultural analysis.

### Intended learning outcomes
- Students develop an understanding of historical and cultural contexts.
- The module provides students with historico-cultural knowledge.
- They gain insights into positions and research fields of the historico-cultural work.
- They are able to classify historical cultural heritage, cultural bodies and cultural mediators in time and space.
- The students are able to reflect the use of cultural analysis critically.

### Courses
 Ü (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

**Contents**

Overview of different topics of Science and Social Studies; experiments in Science and Social Studies; detailed insights into a selected topic area; inclusive learning in heterogeneous groups; knowledge of the corresponding didactic means; project offers for school groups

**Intended learning outcomes**

Subject and professional competence in teaching science and social studies to children with and without special educational needs; organisation of learning processes for heterogeneous groups; competencies in using didactic means; organisation and implementation of project offers

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) presentation (approx. 30 minutes) with written elaboration (approx. 10 pages) or b) presentation (approx. 30 minutes) with contribution to project

**Allocation of places**

Number of places: maximum 15. Places will be allocated by lot with students of Sonderpädagogik (Special Education) (both Bachelor’s and teaching degree subjects) being given preferential consideration.

## Contents

Learning in heterogeneous groups; realisation possibilities in fields of action in the context of school; conflict area subject didactics - special educational needs. Analysis and structuring of teaching materials; creating teaching materials; combining theoretical considerations and practical exercises; different forms of open learning for individual and differentiated learning

## Intended learning outcomes

Professional competence: The students know possibilities and materials for individualised and differentiated classes. They are able to analyse and organise school and preschool learning areas. They know organisation forms and pedagogical implications of learning in heterogeneous groups. Social competence: The students are able to work in teams, share responsibilities and discuss the presentation of results. Self-competence: The students are able to transfer results of scientific work to school processes, evaluate the use of means in school and evaluate or create learning materials. They are able to present and defend their own work results.

## Courses

(type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)
