Abbreviations used

Course types: E = field trip, K = colloquium, O = conversatorium, P = placement/lab course, R = project, S = seminar, T = tutorial, Ü = exercise, V = lecture

Term: SS = summer semester, WS = winter semester

Methods of grading: NUM = numerical grade, B/NB = (not) successfully completed

Regulations: (L)ASPO = general academic and examination regulations (for teaching-degree programmes), FSB = subject-specific provisions, SFB = list of modules

Other: A = thesis, LV = course(s), PL = assessment(s), TN = participants, VL = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

**Contents**

Basic concepts and processes of educational sciences.

**Intended learning outcomes**

Professional skills: The module introduces basic questions of educational sciences. The students have basic and orientational knowledge of the structure of the subject and the meaning of the concept of education. They are able to find theoretical explanations for concepts of educational sciences.

**Courses** (type, number of weekly contact hours, language — if other than German)

V (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) or c) presentation (15 to 30 minutes) and written elaboration (10 to 15 pages) or d) term paper (15 to 20 pages)

**Contents**

Didactic concepts and theories of education, media-didactic concepts with a special focus on the deployment of digital media in classes, planning and creating learning environments whilst taking into account the subject and the target group as well as the requirements of inclusive education; theory of school as a institution and organisation that has been shaped and has to be shaped; results of empirical school and classroom research; concepts of diagnosing, evaluating and promoting performance, concepts of norm determination and quality management; education, schooling, promotion and counselling in school and classes.

**Intended learning outcomes**

After successfully completing this module, the students are able to characterise and evaluate theories of school and classes as well as concepts and theories of schooling and education in view of different aspects and criteria. They can analyse teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology and schooling/education situations. In addition, they are able to create their own offers based on theories. They are able to outline processes of norm determination, diagnosis, learning promotion, evaluation and quality management and can evaluate their meaning for the development of school. Furthermore, the students are able to evaluate their own role as a teacher in view of different tasks regarding professional aspects.

**Contents**
Exemplary and close examination of the subject areas of School Pedagogics in view of didactic concepts and theories of education, media-didactic concepts with a special focus on the deployment of digital media in classes, planning and creating learning environments whilst taking into account the subject and the target group as well as the requirements of inclusive education; theory of school as a institution and organisation that has been shaped and has to be shaped; results of empirical school and classroom research; concepts of diagnosing, evaluating and promoting performance; education, schooling, promotion and counselling in school and classes.

**Intended learning outcomes**
After successfully completing this module, the students are able to characterise and evaluate theories of school and classes as well as concepts and theories of schooling and education in view of different aspects and criteria in a differentiated manner. These theories and concepts are chosen depending on the focal content. They can analyse teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology and schooling/education situations. Furthermore, they are able to create their own offers based on theories. They are able to outline various processes of norm determination, diagnosis, learning promotion, evaluation and quality management and to evaluate their meaning for the development of school. Furthermore, the students are able to evaluate their own role as a teacher in view of different tasks regarding professional aspects.

**Contents**

Concepts and theories of planning and conducting classes; methods of classroom observation, discussion and reflection of own teaching plans and attempts in Förderschule; concepts and theories of analysing and evaluating classes; teaching as a profession

**Intended learning outcomes**

After successfully completing this module, the students are able to characterise and evaluate concepts and theories of planning and conducting classes in view of different aspects and criteria. They can analyse and evaluate teaching and learning offers and examples in view of different aspects. They are able to create own teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology. Furthermore, they can conduct and evaluate selected parts of their own teaching concepts in view of different aspects.

**Courses** (type, number of weekly contact hours, language — if other than German)

V (2)

Course type: V instead of S and/or supplemented by T

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) report on practical course (approx. 5 pages) or b) portfolio (approx. 15 pages) or c) presentation (approx. 10 minutes) and written elaboration (approx. 5 pages) or d) written examination (approx. 30 minutes) or e) oral examination of one candidate each (approx. 5 minutes)

**Additional information**

Assessment will have reference to tasks completed and experiences made during the placement. The accompanying course can only be attended in one of the two subject semesters in which students are simultaneously completing their teaching placements. The lecture will be offered in each of the two placement semesters; students are free to choose in which one of the two semesters they wish to attend the lecture provided they can secure a place.

### Contents

Basic learning processes (theories and principles of human learning including cognitive learning processes); memory, knowledge acquisition (models of memory and requirements of memorising and knowledge building); thinking, problem solving (thinking processes and their principles, also during problem solving); instruction, quality of classes (specific measures and requirements of improving classes) / social interaction and communication (teacher-student and student-student interaction, intercultural learning); social structures and processes in small groups (school class, work group, teaching staff, family); social attitudes, social cognition and subjective theories in teachers and students as well as their modification; social conflicts and their resolution.

### Intended learning outcomes

Advanced methodological knowledge gives the students a better understanding of psychological literature. Knowledge of Psychology of Learning, Memory, Thinking and Knowledge facilitates better teaching on the one hand and efficient help for better learning on the other hand. Advanced knowledge of Social Psychology improves the students’ sympathy for pupils and their dependency on group, family and society; therefore, the students have the knowledge necessary for controlling social phenomena in class and for promoting a supportive social atmosphere in class.

| Duration | Module level | | |
|----------|--------------|-------------------|
| 1 semester | undergraduate | Prerequisite for admission to assessment: 8 written exercises (approx. 1 page) as specified by vhb. |

**Contents**

Cognitive (intelligence, talent, creativity), emotional (eagerness to learn, anxiety) and motivational (motivation through curiosity, learning and performance motivation, interest, self-concept) requirements of learning; professional development of teachers / psychological principles and quality criteria; measuring of school performance, grading and assessment of training success; questioning, assessment, observation and test methods; diagnostics of school readiness for different types of school; methods of school related evaluation

**Intended learning outcomes**

The students are able to identify, classify and explain the development of the performance and personality structure of pupils as well as the corresponding differences between pupils including the different manifestations of different talents. They acquire knowledge of the individual emotional-motivational and cognitive requirements for the development and improvement of the pupils' performance. They are able to theoretically analyse, if necessary alter and practically apply conventional and psychological scientific methods for the assessment of performance.

**Additional information**

The module may be offered online by Virtuelle Hochschule Bayern (vhb).

**Referred to in LPO I** (examination regulations for teaching-degree programmes)

§ 32 I Nr. 1 b) cc)
Additive Modul
(4 ECTS credits)

Students studying for a teaching degree Grundschule, Mittelschule, Realschule, or Gymnasium must complete a practical training in didactics and teaching methodology (studienbegleitendes fachdidaktisches Praktikum) pursuant to Section 34 Subsection 1 No. 4 LPO I (examination regulations for teaching-degree programmes) and must attend the accompanying tutorial. Students studying for a teaching degree Grundschule or Mittelschule must complete the respective courses in the subject they selected as Unterrichtsfach (subject studied with a focus on the scientific discipline), students studying for a teaching degree Realschule or Gymnasium must complete the respective courses in one of the subjects they selected as Unterrichtsfach or vertieft studiertes Fach (subject studied with a focus on the scientific discipline). Details on the practical training in didactics and teaching methodology as well as the accompanying tutorial are set out in the FSB (subject-specific provisions) and SFB (list of modules) of the respective subjects. Students studying for a teaching degree in special education will not have to complete a practical training in didactics and teaching methodology. Instead they will have to complete an ancillary module (Additiv-Modul). Details on ancillary modules are set out in the FSB (subject-specific provisions) and SFB (list of modules) of the respective specialisation in special education.

### Contents

Types of intensive special educational needs, e.g. autism, profound multiple disabilities, challenging behaviour. Pedagogical principles, didactic implications and therapeutic interventions in the field of working with people with intensive special educational needs.

### Intended learning outcomes

The students have knowledge of education and schooling for people with intensive special educational needs as well as specific pedagogical, didactic and therapeutic approaches. They know methods of providing the pupils with specific education offers in class. Furthermore, they know ways of dealing with extraordinary pedagogical and human challenges.

### Courses

**Contents**

Basic principles of Education for People with Physical and Complex Disabilities in extracurricular fields of action; possibilities of participation as well as possible disorders; institutional structures; specific requirements in the following fields (exemplary selection) including current research results: Early intervention, work, occupation, profession, living, partnership and sexuality, recreational activities, self-help groups.

**Intended learning outcomes**

The participants have basic knowledge of the offers of Education for People with Physical and Complex Disabilities in extracurricular fields of action. They are able to depict and critically analyse the leading principles and the given institutional structures. They can critically analyse research projects and their methods and are able to refine and test them in individual fields of action.

Module title

Emotional and behavioral disorders: project in educational science and psychology - additive

Abbreviation

06-V-ProjPPA-152-m01

Module coordinator

holder of the Chair of Special Education V

Module offered by

ECTS

Method of grading

4

Numerical grade

Only after succ. compl. of module(s)

Duration

Module level

1 semester

Graduate

Other prerequisites

Simultaneous completion of module 06-V-ProjPPA is mandatory.

Contents

The students collect information on the basic as well as issue-specific state of research and theory of a selected topic of pedagogy and/or psychology in the context of behavioural disorders. They examine this topic on the basis of specific goals and questions while acquiring the corresponding methods. This might result in an empirical study, the development of a theory-oriented concept, the development of a pedagogical or therapeutic pedagogical concept, an exemplary, evaluation-based application in class, the writing of a reader or journal article etc. A cooperation with a practice institution is also possible. The contents of the module are related to the module 06-V-ProjPPH.

Intended learning outcomes

The students know and are able to apply approaches to scientific questions (professional and methodological competence); they have advanced problem-specific knowledge of pedagogical questions and psychological perspectives regarding behavioural disorders (professional competence); they know possibilities of theoretical and empirical data research (methodological competence); they are able to review complex problems in group work whilst sticking to a self-developed work plan in a target-oriented manner (social competence); they independently execute a complex task over a longer period of time with a high level of self-learning (self-competence).

Courses

(type, number of weekly contact hours, language — if other than German)

### Module coordinator

holder of the Chair of Special Education IV

### Module offered by

Chair of Special Education IV: Education for People with Developmental and Intellectual Disabilities

### Contents

The module addresses profound and multiple disabilities targeting profound and severe intellectual disabilities, additional sensory, physically, and/or psychiatric disorders. It further discusses pedagogical principles, didactical implications and (therapeutic) interventions.

### Intended learning outcomes

The students acquire knowledge for teaching people with profound and multiple learning disabilities. Thereby, they learn about pedagogical, didactical, therapeutic, and further interdisciplinary approaches. The students know specific pedagogical, and interdisciplinary ways to facilitate learning and can reflect on them critically. Furthermore, they know ways of dealing with extraordinary pedagogical and human challenges, professionals might face.

### Contents

For a selected topic of pedagogy and/or psychology students review the state of research and theory, develop and examine their own research questions and report their results. This might result in an empirical study, the development of a theory-oriented concept, the development of a pedagogical or therapeutic-pedagogical concept, an exemplary, evaluation-based application in class, the writing of a reader or journal article etc. A cooperation with an institution in the field is also possible. The contents of the module are related to the module 06-V-ProjPPA.

### Intended learning outcomes

The students know and are able to apply approaches to scientific questions (professional and methodological competence); they have advanced problem-specific knowledge of pedagogical questions and psychological perspectives regarding behavioural disorders (professional competence); they know possibilities of theoretical and empirical data research (methodological competence); they are able to review complex problems in group work whilst sticking to a self-developed work plan in a target-oriented manner (social competence); they independently execute a complex task over a longer period of time with a high level of self-learning (self-competence).

**Contents**

Current topics in Speech and Language Pathology as an applied special education science

**Intended learning outcomes**

Self- and social competence: The students have acquired subject-specific knowledge of various disciplines (especially Speech and Language Pathology) and are able to critically evaluate models and theories of this discipline. The students have worked in groups to advance their knowledge of the module's basic topics. In doing so, they have deepened their knowledge and have learned to discuss relevant aspects in the seminar.

Methodological competence: The students methodically acquire professional knowledge and critically evaluate this knowledge in view of their application possibilities and requirements in theory and practice.

Subject and professional competence: The students acquire indispensable basic knowledge of theory construction in Speech and Language Pathology, which is always interdisciplinary.

**Contents**

Introduction to the characteristics of political systems and central categories of comparative systems analysis.

**Intended learning outcomes**

The student has basic knowledge of the construction principles of political systems. He/she masters the application of the system comparison framework to concrete case studies.

**Courses**

(type, number of weekly contact hours, language — if other than German)

V (2) + Ü (1)

Module taught in: German and/or English

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 60 minutes) or b) written examination (approx. 90 minutes) or c) oral examination of one candidate each (approx. 30 minutes) or d) term paper (approx. 15 pages)

Language of assessment: German and/or English

**Allocation of places**

50 places. There are no restrictions with regard to available places for students of the degree subjects Political and Social Studies (Bachelor's, 180, 120, 75, 60 ECTS credits) as well as Social Studies (Unterrichtsfach (subject studied with a focus on the scientific discipline) teaching degree Grundschule, Unterrichtsfach teaching degree Mittelschule, Didaktikfach (subject studied with a focus on teaching methodology) Didaktik der Grundschule (Didactics for Grundschule), Didaktikfach Didaktiken einer Fächergruppe der Mittelschule (Didactics of a Group of Subjects of Mittelschule), vertieft studiertes Fach (subject studied with a focus on the scientific discipline) teaching degree Gymnasium). The number specified is the total number of places that will be allocated to students of other degree subjects in the SFB (list of modules) of which this module is listed. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

Module taught in: German and/or English

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

- a) written examination (approx. 60 minutes) or b) written examination (approx. 90 minutes) or c) oral examination of one candidate each (approx. 30 minutes) or d) term paper (approx. 15 pages)

Language of assessment: German and/or English

### Allocation of places

10 places. There are no restrictions with regard to available places for students of the degree subjects Political and Social Studies (Bachelor’s, 180, 120, 75, 60 ECTS credits) as well as Social Studies (Unterrichtsfach (subject studied with a focus on the scientific discipline) teaching degree Grundschule, Unterrichtsfach teaching degree Mittelschule, Didaktikfach (subject studied with a focus on teaching methodology) Didaktik der Grundschule (Didactics for Grundschule), Didaktikfach Didaktiken einer Fächergruppe der Mittelschule (Didactics of a Group of Subjects of Mittelschule), vertieft studiertes Fach (subject studied with a focus on the scientific discipline) teaching degree Gymnasium). The number specified is the total number of places that will be allocated to students of other degree subjects in the SFB (list of modules) of which this module is listed. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

This module gives an overall introduction to the cultural research area from the point of view of European Ethnology / Cultural Anthropology. On the one hand, the module provides subject-specific background knowledge from a students’ field of experience, that can be practically used. On the other hand, subject-specific basics of scientific / academic methods will be taught.

**Intended learning outcomes**

Students gain insights into positions and research areas of European Ethnology / Cultural Anthropology. Ability to incorporate with historical and present subject areas as well as their transfer into university context.

**Courses** (type, number of weekly contact hours, language — if other than German)

- Ü (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

- written examination (approx. 90 minutes)

**Allocation of places**

50 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

This module provides an advanced insight into the research of everyday and popular culture from the view of European Ethnology / Cultural Anthropology. Specific everyday and popular cultures of history and present age will be examined, whilst taking local conditions into account. To that end, in addition to the basic introduction, students have to register for another advanced seminar to fully complete this module.

**Intended learning outcomes**

The module provides students with skills of cultural analysis in theory and practice. They acquire the ability to research and mediate the results independently with subject-specific background knowledge of European Ethnology / Cultural Anthropology. They are able to observe daily cultural phenomena critically and to classify them into major historico-cultural developments.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

Theological interpretations of key concepts in ethics (including, but not limited to, love, power, justice, and freedom) on the basis of a broad range of topics (ecology, bioethics, the media and data protection, war and peace, inclusion, religious diversity, etc.).

**Intended learning outcomes**

At the end of course, students will have become familiar with theological positions on issues in ethics. They will be able to situate them within cultural and historical contexts, assess their relevance to current debates, and reflect upon the relevance they have to their own theological discussions.

### Contents

Religious education in the context of general educational processes within the educational and human sciences.

### Intended learning outcomes

At the end of the course, students will be able to describe the connection between religious education and pedagogy in the context of selected topics. They will also be able to describe the characteristics of the subject in the context of the educational and human sciences, applying criteria for evaluation.

**Contents**

An awareness of the correlation between the areas of aesthetics, culture, and religion with special attention to their individual nature and with an understanding of current questions and problems and, in particular, of how they appear in the media.

**Intended learning outcomes**

At the end of the course, students will have developed cultural-hermeneutic skills and techniques. They will be able to decipher everyday phenomena, societal processes of self-interpretation, ethical discourses, or works of art from various art disciplines in the context of theological or ethical theories. They will be able to develop balanced judgements and interrelate them with other phenomena.

Contents

The relationship between religion, culture, and society in plural and multicultural contexts. Analysis of faith, religion, and theology and how they impact upon culture and society. Discussion of some aspects of religious education in the context of today's secular society. An introduction to patterns and forms of theological/religious argument used in discourses in society and discussion of the importance of intercultural and interreligious dialogue.

Intended learning outcomes

At the end of the course, students will have become familiar with religion as a socio-anthropological reality as well as with the relevance and power of religion to shape society and culture in plural and multicultural contexts. They will be familiar with patterns and forms of theological/religious argument and will have developed an awareness of the importance of intercultural and interreligious dialogue. Students will be able to identify religious phenomena and forms of expression of religion in a cultural and social context as well as to critically reflect upon them.

**Referred to in LPO I** (examination regulations for teaching-degree programmes)

§ 32 I Nr. 1 c)
Freier Bereich (general as well as subject-specific electives) (0-15 ECTS credits)

Teaching degree students must take modules worth a total of 15 ECTS credits in the area Freier Bereich (general as well as subject-specific electives) (Section 9 LASPO (general academic and examination regulations for teaching-degree programmes)). To achieve the required number of ECTS credits, students may take any modules from the areas below.

Freier Bereich (general as well as subject-specific electives) -- open for all teaching degree students irrespective of their subject combinations: For additional courses that are open to all teaching degree students irrespective of their subject combinations (fächerübergreifendes Zusatzangebot), please refer to the respective Annex of the "Ergänzende Bestimmungen für den "Freien Bereich" im Rahmen des Studiums für ein Lehramt" (Supplementary Provisions on the Area "Freier Bereich" in Teaching-Degree Programmes).

Freier Bereich (general as well as subject-specific electives) -- subject specific (teaching degree Grundschule (LA GS), teaching degree Mittelschule (LA MS), teaching degree Realschule (LA RS) or teaching degree special education (LA SoP)).

**Contents**

Types, development and identification of intellectual giftedness and its typical manifestations, including the resulting advantages and disadvantages in school life. Necessity and measures of special support for highly gifted children in primary education.

**Intended learning outcomes**

The students have knowledge of intellectual giftedness in children as well as the forms, development and possibilities of identification. They know the capabilities and limits of highly gifted children in primary education as well as the possible developmental problems of these children. They know school and extracurricular measures for the promotion of highly gifted pupils as well as the possibilities of psychological counselling.

Module title: Psychological Grounded Programs for the Modification of Behavioral Disorders

Abbreviation: 06-Psy-ProgAuff-152-m01

Module coordinator: holder of the Professorship of Educational Psychology

Module offered by: Institute of Psychology

ECTS: 3

Method of grading: Only after succ. compl. of module(s)

Duration: 1 semester

Module level: undergraduate

Contents:
Manifestations, causes, clustering and effects of behavioural abnormalities. Measures and programmes to influence behavioural abnormalities in school and school-related situations, especially aggression and violence, anxiety disorders, disturbed social behaviour as well as attention deficit hyperactivity disorder.

Intended learning outcomes:
The students know the causes, manifestations and relevance of behavioural abnormalities in pupils. They have knowledge of measures and programmes for influencing behavioural abnormalities in school and in the context of school and especially know the structure, course and specific application of relevant, evaluated programmes.

Courses:
S (2)

Method of assessment:
a) talk (approx. 20 minutes) or b) term paper (approx. 7 pages) or c) written examination (approx. 30 minutes) or d) oral examination of one candidate each (approx. 15 minutes)

Allocation of places:

**Contents**

Principles, goals and methods of using media in school and class in view of Media Psychology, media technology, and Educational Psychology, e.g. psychological computer programmes for learning and practising individual teaching subjects and areas; utilising recording media for classroom support (ensuring learning achievements, visualisation, improvement of class solidarity).

**Intended learning outcomes**

The students know corresponding media and their possible pedagogical-psychological application. When it comes to learning programmes, they have gained an overview of relevant, evaluated programmes and are able to evaluate their efficiency on the basis of individual dimensions. They are able to handle recording media and to prepare the usage for improved teaching.

### ECTS
3

### Method of grading
Only after succ. compl. of module(s)

### Duration
1 semester

### Module level
undergraduate

### Other prerequisites
Regular attendance (no more than three incidents of absence).

## Contents
School counselling institutions and offers (school counselling office, educational psychologists and advisory teachers, mobile special education services) and extracurricular counselling (e.g. child guidance centres and family counselling centres, Counselling Centre for the Gifted and Talented, centre for early diagnosis, paediatricians, child and adolescent psychiatry)

## Intended learning outcomes
The students have gained insights into the questions and structure of school counselling. They are familiar with the structure of the school counselling system and have gained an overview of the institutions of extracurricular cooperation partners as well as information about the possibilities of making contact, also for parents.

## Courses

Module title: Counselling and Supervision
Abbreviation: 06-Psy-Suvi-152-m01

Module coordinator: holder of the Professorship of Educational Psychology
Module offered by: Institute of Psychology

ECTS: 3
Method of grading: Only after succ. compl. of module(s)

Duration: 1 semester
Module level: undergraduate
Other prerequisites: Regular attendance (no more than three incidents of absence).

Contents:
Supervision of teaching degree students deals with current stress situations of supervisors. These situations might include conflicts resulting from relations with oneself, pupils, parents or the teaching staff. We will consider the problems presented from different angles and compile various solution approaches.

Intended learning outcomes:
By working as supervisors, the teaching degree students advance their personal, subject-specific and social competencies. The students are able to re-evaluate conflictual relations in school, to evaluate interaction processes and problems in altered contexts, and to perceive themselves and others in a differentiated manner. They are more aware of their own and other person’s feelings and are able to develop alternatives for action.

Courses:
(type, number of weekly contact hours, language — if other than German)
Ü (2)

Method of assessment:
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
practical examination (designing a seminar, approx. 90 minutes).
Designing a seminar includes providing subject-specific input, giving instructions for assignments, moderating/coordinating the participants' contributions, summarising these contributions as well as demonstrating/delivering/designing a class.

Allocation of places:

</tr>
</tbody>
</table>

**Duration**
1 semester

**ECTS**

**Method of grading**
Only after successfully completed

**Module level**
undergraduate

**Contents**
Self-perception, self-reflection and resource analysis regarding one’s suitability as a teacher and the decision to study a teaching degree programme (demands on teachers; individual stress management strategies; the significance of collegial counselling when dealing with difficult pupils, parents and colleagues). The teacher training courses analyse the teaching behaviour of the participating students and the structure of learning-psychological and socio-psychological alternatives: (usage of video feedback; elements of group dynamics and behaviour regulation in due consideration of different types of pupils.)

**Intended learning outcomes**
The students reflect on their journey leading to the teaching degree studies. They compare the role and tasks of teachers to their expectations and competencies and analyse stress factors and possible coping strategies. They understand the importance of personal attitude and behaviour when dealing with pupils, parents and colleagues and become acquainted with solution-oriented systemic perspectives. After completing the teaching training, the students know advantageous and disadvantageous forms and effects of possible interactions between teachers and children/juveniles as well as alternative behaviour patterns for dealing with pupils based on an appropriate basic attitude taking into account the pupils’ individual peculiarities.

**Courses**
(type, number of weekly contact hours, language — if other than German)

**Method of assessment**
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

practical examination (designing a seminar, approx. 90 minutes).

Designing a seminar includes providing subject-specific input, giving instructions for assignments, moderating/coordinating the participants’ contributions, summarising these contributions as well as demonstrating/delivering/designing a class.

**Allocation of places**

max. 20 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

Psychological training programmes for teachers, including theoretical principles, definition of goals and process descriptions; practical presentation and interactive handling of individual central components

**Intended learning outcomes**

The students know training programmes that can serve as a preparation for teaching jobs or as postgraduate training for teachers. They are able to connect the theoretical principles of these programmes to the presented applications and can develop stimuli and guidelines for their own current or future occupation in the field of education and teaching.

Contents

Principles of planning classes on the basis of scientifically proven didactic concepts and theories that take into account the curriculum of secondary level I and II in secondary schools as well as the corresponding age group; empirical and theoretical characteristics of good classes; concepts and methods of analysing and evaluating classes whilst taking into account the curriculum of secondary level I and II.

Intended learning outcomes

After successfully completing this module, the students are able to characterise and evaluate concepts and theories of planning and conducting classes in secondary level I and II in view of different aspects and criteria. They can analyse and evaluate teaching and learning offers and examples in secondary level I and II with reference to selected didactic concepts and theories whilst taking into account the target group, media as well as information and communication technology. Furthermore, they can evaluate selected examples in view of different aspects.

### Contents
Knowledge and experience of the task fields of teachers at Grundschule, Mittelschule or Förderschule in view of pedagogy and didactics; planning classes and evaluating classroom observations as well as own teaching plans and attempts; theoretical classification and reflection

### Intended learning outcomes
After successfully completing this module, the students know different possibilities to design classes for Grundschule, Mittelschule or Förderschule, to focus on the pupils whilst teaching and to identify promotion possibilities. They are experienced in planning, conducting and analysing classes and in promoting individual pupils as well as the whole class. They have an overview of the task fields of teachers at Grundschule, Hauptschule or Förderschule and of school as an organisation. They are able to evaluate and navigate their own suitability to work as a teacher.

### Referred to in LPO I (examination regulations for teaching-degree programmes)
§ 34 I 1 Nr. 3
Paper
(10 ECTS credits)

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination). The Hausarbeit module is worth 10 ECTS credits.

Students studying for a teaching degree Grundschule or Mittelschule may write their Hausarbeit (thesis) pursuant to Section 29 LPO I (examination regulations for teaching-degree programmes) in the subject Erziehungswissenschaften (Educational Science) (Erziehungswissenschaftliches Studium (Educational Science Courses)) or Gesellschaftswissenschaftliches Studium (Social and Political Sciences Courses), in the subject Didaktiken einer Fächergruppe der Mittelschule (Didactics of a Group of Subjects of Mittelschule) within the meaning of Section 38 Subsection 1 LPO I, Didaktik der Grundschule (Didactics for Grundschule) within the meaning of Section 36 Subsection 1 LPO I, or in the subject they selected as Unterrichtsfach (subject studied with a focus on the scientific discipline). Students may also choose to write an interdisciplinary thesis. Students studying for a teaching degree Realschule or Gymnasium may write their Hausarbeit (thesis) pursuant to Section 29 LPO I (examination regulations for teaching-degree programmes) in the subject Erziehungswissenschaften (Educational Science) (Erziehungswissenschaftliches Studium (Educational Science Courses)) or in one of the two subjects they selected as Unterrichtsfach or vertieft studiertes Fach (subject studied with a focus on the scientific discipline). Students may also choose to write an interdisciplinary thesis. Students studying for a teaching degree in special education may write their Hausarbeit (thesis) in their specialisation in special education. In accordance with the provisions of Section 29 Subsection 1 Sentence 2 LPO I (examination regulations for teaching-degree programmes), students may also choose to write an interdisciplinary thesis. For the Hausarbeit modules of each specialisation in special education, see the corresponding SFB (list of modules).
