Module Catalogue
for the Subject

Didactics in Mathematics (Middle School)
as Didaktikfach
with the degree "Erste Staatsprüfung für das Lehramt an Mittelschulen"

Examination regulations version: 2015
Responsible: Institute of Mathematics
## Contents

The subject is divided into 3
Abbreviations used, Conventions, Notes, In accordance with 4

### Compulsory Courses
- Mathematics in German Mittelschule - Arithmetics 6
- Mathematics in German Mittelschule - Algebra 7
- Mathematics in German Mittelschule - Geometry 8
- Mathematics in German Mittelschule - Application-oriented Teaching and Stochastics 9

### Freier Bereich (general as well as subject-specific electives)
10

### Extra Skills Teaching Mathematics at the German Mittelschule
11
- Computers in Mathematical Teaching 12
- Methodology of Teaching in Mathematics 1 (German Mittelschule) 13
- Methodology of Teaching in Mathematics 2 (German Mittelschule) 14
- Advanced Didactics of Mathematics 1 (German Mittelschule) 15
- Advanced Didactics of Mathematics 2 (German Mittelschule) 16
- E-Learning and Blended Learning in Mathematical Teaching (virtual Course) 17
- Basics in Arithmetics (virtual course) 18
- Basics in School Geometry (virtual course) 19
- Stochastics in Sekundarstufe I (virtual course) 20
- Mathematics in grade 10 (virtual course) 21
- Didactics of Elementary School Mathematics for Teachers at German Mittelschule and Special Education 22
- Didactics of Geometry (virtual course) 23
- Didactics of Algebra (virtual course) 24
- Exam Tutorial Didactics of Mathematics (virtual course) 25
- Mathematics 1 (virtual course) 26
- Mathematics 2 (virtual course) 27

### Paper
28
- Thesis in Mathematics as Didaktikfach (German Mittelschule) 29
The subject is divided into

<table>

Abbreviations used

Course types: E = field trip, K = colloquium, O = conversatorium, P = placement/lab course, R = project, S = seminar, T = tutorial, Ü = exercise, V = lecture

Term: SS = summer semester, WS = winter semester

Methods of grading: NUM = numerical grade, B/NB = (not) successfully completed

Regulations: (L)ASPO = general academic and examination regulations (for teaching-degree programmes), FSB = subject-specific provisions, SFB = list of modules

Other: A = thesis, LV = course(s), PL = assessment(s), TN = participants, VL = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

5-Oct-2015 (2015-188)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.
Compulsory Courses
(20 ECTS credits)

Successful completion of modules worth 20 ECTS credits in each subject selected as Didaktikfach (subject studied with a focus on teaching methodology) is a prerequisite for admission to the Erste Staatsprüfung (First State Examination) in the subject Didaktiken einer Fächergruppe der Mittelschule (Didactics of a Group of Subjects of Mittelschule).

**Contents**

Discussion of basic topics in teaching arithmetics in Mittelschule taking into account didactic aspects as well as possibilities of implementation in the classroom, also including modern technologies.

**Intended learning outcomes**

The student is acquainted with basic mathematical ways of thinking and working techniques in the fields of arithmetic. He/She knows about criteria to assess media and their employment in teaching mathematics, detects common difficulties and typical misconceptions of pupils and knows about adequate countermeasures and support. He/She knows teaching and learning strategies and can assess them.

**Courses**

(V (2) + Ü (2))

**Method of assessment**

written examination (approx. 60 to 90 minutes).

If announced by the lecturer at the beginning of the course, the written examination may be replaced by an oral examination of one candidate each (approx. 20 minutes) or an oral examination in groups of 2 candidates (approx. 15 minutes per candidate).

Language of assessment: German; exceptions pursuant to Section 29 Subsection 4 LPO I (examination regulations for teaching-degree programmes)

(examination regulations for teaching-degree programmes)

§ 38 I Nr. 1
Freier Bereich (general as well as subject-specific electives) (0-15 ECTS credits)

Teaching degree students must take modules worth a total of 15 ECTS credits in the area Freier Bereich (general as well as subject-specific electives) (Section 9 LASPO (general academic and examination regulations for teaching-degree programmes)). To achieve the required number of ECTS credits, students may take any modules from the areas below.

Freier Bereich -- interdisciplinary: The interdisciplinary additional offer for a teaching degree can be found in the respective Annex "Ergänzende Bestimmungen für den "Freien Bereich" im Rahmen des Studiums für ein Lehramt".
Extra Skills Teaching Mathematics at the German Mittelschule
(ECTS credits)

**Contents**
Basic topics on teaching mathematics in tenth grade in Hauptschule, Realschule and Gymnasium.

**Intended learning outcomes**
The student learns basic topics in the teaching of mathematics in tenth form at German Mittelschule and Real- schule, as well as the related mathematical backgrounds and proofs. He/She is acquainted with the employment of new technologies for teaching mathematics in tenth form.

**Courses**
(type, number of weekly contact hours, language — if other than German)

- Ü (2)
  Course type: eLearning, mostly Virtuelle Hochschule Bayern (vhb)

**Method of assessment**
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

- project (web-based, 15 to 20 hours)
  Assessment offered: Once a year, summer semester

Dean of Studies Mathematik (Mathematics)

## Module offered by

Institute of Mathematics

## ECTS

2

## Duration

1 semester

## Module level

undergraduate

## Other prerequisites

--

## Contents

Discussion of selected methods for teaching mathematics in Mittelschule.

## Intended learning outcomes

The student is acquainted with different methods of teaching mathematics at German Mittelschule, can assess their respective advantages and disadvantages, and can select and employ an appropriate method depending on the situation and the subject.

## Courses

(type, number of weekly contact hours, language — if other than German)

S (2)

## Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) talk (approx. 45 minutes) or b) term paper (5 to 10 pages) or c) project (10 to 15 pages)

Assessment offered: Every two years, winter semester

Contents
Geometry didactics is about learning and teaching geometry. This course focuses on topics which are central and important for all of geometry and mathematics, namely proving and problem solving. It also addresses topics which are usually discussed only briefly or not at all in university lectures and in the literature. Among these are chapters on space geometry, trigonometry and similarity geometry.

Intended learning outcomes
The students are acquainted with the subject-specific contents of school geometry, and are able to structure the notions and methods within a conceptual map. They know strategies of short, middle and long term development of understanding of the central concepts of geometry in teaching mathematics. They are able to develop and justify learning units and learning sequences for the important topics in school geometry independently. They are able to assess and value the importance of digital technology with respect to today’s and future design of instruction. They know various fields of application of geometric concepts, and are able to perform modelling (in the sense of modelling cycles) independently.

### Contents
Revision of basics (definitions of mathematical notions, formulation and proving of theorems) in preparation for the Erstes Staatsexamen für Lehramt Gymnasium (first state examination for teaching at a Gymnasium) as well as basic guidelines for answering exam questions (with a special focus on the state examination in Bavaria).

### Intended learning outcomes
The student learns about the structure of the state exams and different methods for solving the exam problems.

Paper
(10 ECTS credits)

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination). In accordance with the provisions of Section 29 LPO I, students studying for a teaching degree Mittelschule may write this thesis in the subject Didaktik einer Fächergruppe der Mittelschule (Didactics of a Group of Subjects of Mittelschule), in the subject they selected as Unterrichtsfach (subject studied with a focus on the scientific discipline) or in the subject Erziehungswissenschaften (Educational Science). Pursuant to Section 29 Subsection 1 Sentence 2 LPO I, students may also choose to write an interdisciplinary thesis.

#### Contents
Independently researching and writing on a topic in mathematics or mathematics didactics selected in consultation with the supervisor.

#### Intended learning outcomes
The student is able to work independently on a given mathematical topic and apply the skills and methods obtained during his/her studies in the teaching degree programme. He/She can write down the result of his/her work in a suitable form, incorporating aspects of the didactics of mathematics.

#### Courses
No courses assigned to module

#### Method of assessment
Hausarbeit (thesis) pursuant to Section 29 LPO I (examination regulations for teaching-degree programmes) (250 to 300 hours)

#### Allocation of places
