

Subdivided Module Catalogue
for the Subject
Management International
as a Master's with 1 major
with the degree "Master of Science"
(120 ECTS credits)

Examination regulations version: 2024
Responsible: Faculty of Management and Economics

Course of Studies - Contents and Objectives

The Master's degree in Management International is offered by the JMU's Faculty of Economics and Business as a research-oriented degree leading to the degree "Master of Science" (M.Sc.) as part of a consecutive Bachelor's and Master's model.

The aim of the course is to provide students with in-depth knowledge in the field of management science and scientific work in research and application and to enable them to carry out independent research in this area after successfully completing their studies. Through education and training in analytical thinking and in particular on the basis of the basic scientific knowledge already acquired from the bachelor's degree as well as the in-depth and expanded business knowledge acquired in the master's degree, the students acquire the ability to familiarize themselves with a wide range of tasks and to apply the knowledge they have acquired independently and to new ones transfer tasks.

The language of instruction in the Master's program in Management International is generally English. Completing modules taught in English qualifies graduates for excellent international research-related positions in a wide variety of industries such as banks, insurance companies, public services, management consultancies, industrial companies or even business and tax consulting companies.

Abbreviations used

Course types: **E** = field trip, **K** = colloquium, **O** = conversatorium, **P** = placement/lab course, **R** = project, **S** = seminar, **T** = tutorial, **Ü** = exercise, **V** = lecture

Term: **SS** = summer semester, **WS** = winter semester

Methods of grading: **NUM** = numerical grade, **B/NB** = (not) successfully completed

Regulations: **(L)ASPO** = general academic and examination regulations (for teaching-degree programmes), **FSB** = subject-specific provisions, **SFB** = list of modules

Other: **A** = thesis, **LV** = course(s), **PL** = assessment(s), **TN** = participants, **VL** = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

ASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

22-Nov-2023 (2023-92)

11-Dec-2024 (2024-103)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

The subject is divided into

Contents			
Transparent reporting of large corporations and multinational enterprises are challenging for modern accounting systems. This module addresses recent developments in financial and non-financial accounting, ensuring that students are up-to-date with the current accounting landscape. It is designed for students who have a basic understanding of financial or non-financial accounting and seek to explore complex accounting issues in greater depth. Topics can vary depending on the current issues in practice or research. Former topics include accounting for financial instruments, revenue recognition, or the latest developments in sustainability reporting. The module is taught through a combination of lectures, exercises, and practical case studies. Guest lectures from industry experts are incorporated to provide real-world insights into advanced accounting practices.			
Intended learning outcomes			
By the end of this module, students will be able to: <ul style="list-style-type: none">• Solve and analyze complex financial and non-financial accounting tasks.• Analyze and interpret reporting data to support decision-making in various business contexts.• Stay informed and adapt to evolving accounting standards and practices.

Intended learning outcomes			
Students acquire a working knowledge of key incentive models, selected empirical applications and the necessary econometric background. This enables them to identify the advantages and disadvantages of different incentive systems that are applied in the enterprise context, to make informed management analyses and to critically evaluate current controversies and developments as well as to conduct their own research.

The "Finance & Accounting" seminar deepens the understanding of complex financial and accounting practices at an advanced level. It provides an in-depth insight into topics such as financial analysis, capital market theory, company valuation, risk management and international accounting standards. Guest lectures by experts from the financial sector and auditing offer insights into current trends and practices.		
Intended learning outcomes		
By combining theoretical concepts with practical case studies and projects, students acquire advanced skills in analyzing and interpreting financial data as well as strategic planning and decision-making in finance.

The seminar "Marketing & Entrepreneurship" offers an in-depth examination of the central topics of marketing and business start-ups. The focus is on innovative marketing strategies, market research, consumer psychology and the development and implementation of business ideas. Practice-oriented projects, case studies and guest lectures by experienced entrepreneurs and marketing experts provide participants with valuable insights into the practical side of marketing.			
Intended learning outcomes			
Students learn how to design successful marketing campaigns, analyze market trends and find creative solutions to entrepreneurial challenges. The seminar promotes entrepreneurial thinking and enables students to develop and successfully implement their own business ideas.

The master's seminar "Operations & Information Management" focuses on the advanced analysis and optimization of operational processes and information systems. The seminar includes case studies, research projects and guest lectures by industry experts to bridge the gap between theory and practice and provide students with valuable insights into current trends and developments in this field.		
Intended learning outcomes		
In this seminar, students acquire in-depth knowledge in the areas of production and logistics management, supply chain management and information systems and technologies. By combining theoretical concepts and practical applications, students will be able to solve complex operational challenges and develop innovative strategies for the effective management of operations and information.

In this course, students work on advanced data science projects. The course covers the entire data science workflow from data collection to data preparation to modeling, evaluation and deployment. By following a top-down teaching approach, students are enabled to apply complex machine learning models from the beginning.			
Intended learning outcomes			
As part of the course work, students will acquire knowledge and skills in the following areas: 1. Becoming familiar with the principles and frameworks in the research area of Data Science. 2. Apply machine learning and deep learning frameworks to structured and unstructured data 3. Design, implementation and evaluation of key algorithms within an end-to-end workflow in the field of Data Science 4. Application of Jupyter notebooks and their infrastructure (collection, storage, retrieval, and analysis of data) 5. Understanding of a data-driven & analytical approach to decision problems

V (2) + Ü (2) Module taught in: English			
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)			
a) written examination (approx. 60 minutes) or b) term paper (approx. 15 pages) or c) portfolio (approx. 50 hours) Language of assessment: English Assessment offered: In the semester in which the course is offered creditable for bonus			
Allocation of places			
Number of places: 35. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students who already have successfully completed courses offered by the supervising chair will be given preferential consideration. a. Among applicants with the same number of successfully completed modules, places will be allocated according to the total number of ECTS credits achieved in the corresponding modules. b. When places are allocated in accordance with 1.b) and the number of applications exceeds the number of available places, places will be allocated according to the average grade of assessments taken in the corresponding courses. c. Among applicants with the same average grade, places will be allocated by lot. (2) Any remaining places are available to students who have not yet successfully completed any courses of the supervising chair. The selection is made according to study progress (number of semesters); among applicants with the same number of semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

Contents		
<p>Behavioral economics refers to the field of research which, inspired by numerous documented deviations from the rational behavior assumed in neoclassical analysis, tries to improve the psychological realism of the idea of man in economics by incorporating insights from psychology into traditional economic analysis. In this course, students will become familiar with several of the most influential behavioral-economic theories of individual and strategic decision-making, which allow to explain a plethora of empirically documented deviations from the neoclassical model. These include departures from the assumptions of selfishness, time consistency, as well as rationality and rational expectations. The discussed behavioral-economic theories usually contain the neoclassical standard model as a special case and, therefore, are to be considered as extensions of rather than alternatives to the neoclassical model. While this lecture focuses on theories of individual decision-making, we will explore the implications of these theories also in the context of market settings and economic games. All necessary ideas and concepts will be introduced and discussed throughout the course. Nevertheless, as behavioral economics represents an extension of the neoclassical model, a solid understanding of the latter will be helpful. Consequently, students who completed advanced classes in microeconomics or game theory will most likely benefit most from this course.</p> <p>While the exposition is primarily based on research articles, some topics of the lecture can be reviewed in the following textbooks:</p> <ul style="list-style-type: none"> • Dahmi (2016): "The Foundations of Behavioral Economic Analysis" • Angner (2012): "A Course in Behavioral Economics" • Wilkinson and Klaes (2012): "An Introduction to Behavioral Economics" • Wakker (2010): "Prospect Theory for Risk and Ambiguity" 		
Intended learning outcomes		
<p>After completing the course students will be able to</p> <ul style="list-style-type: none"> • explain essential findings of behavioral economic theory, • apply the involved methods to given stylized examples on their own, • recognize in which real-life situations and how the results can be applied.

<p>The lecture names introductory relevant communication models. Furthermore, the theoretical models of PR are discussed. The added value of communication for companies, business, politics, and science is explained. The discrepancy between journalism and PR is discussed, as well as the basic elements, instruments, goals, and forms of PR. The preparation and implementation of press meetings, conferences, campaigns, and events will be systematically explained, and the central aspects of corporate communications will be outlined. The exercise deals with the practical implementation of journalistic styles in the various media and provides an overview of the possibilities and concepts of PR work across different media and target groups.</p>		
Intended learning outcomes		
<p>After participating in the module courses, students are able to understand and apply PR and its forms, elements as well as methods and in a holistic context. Students learn professional competencies in the field of (business) communication with regard to reflection, argumentation, and exchange as a PR consultant in different areas. In addition, students will be able to apply concrete PR instruments in practice and prepare them professionally.</p>

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)		
<p>a) written examination (approx. 60 minutes) or b) term paper (approx. 15 pages) or c) oral examination of one candidate each (approx. 20 minutes) or d) portfolio (approx. 50 hours) Language of assessment: English Assessment offered: In the semester in which the course is offered creditable for bonus</p>		
Allocation of places		
<p>Number of places: 35. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students who already have successfully completed courses offered by the supervising chair will be given preferential consideration. a. Among applicants with the same number of successfully completed modules, places will be allocated according to the total number of ECTS credits achieved in the corresponding modules. b. When places are allocated in accordance with 1.b) and the number of applications exceeds the number of available places, places will be allocated according to the average grade of assessments taken in the corresponding courses.</p>		

c. Among applicants with the same average grade, places will be allocated by lot.
(2) Any remaining places are available to students who have not yet successfully completed any courses of the supervising chair. The selection is made according to study progress (number of semesters); among applicants with the same number of semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

This module is a thorough introduction to monetary policy. The course is divided into four sections. The first one repeats macroeconomic concepts. The second one deals with core topics on monetary policy and theory. In the third one, monetary policy with the zero lower bound on nominal interest rates constraint is analyzed. The fourth section deals with linkages between monetary and fiscal policy.		
Intended learning outcomes		
Students will acquire a thorough understanding of the theory and practice of monetary policy. Students gain expertise on institutional aspects and theoretical monetary models. Having completed the module, students will be able to understand current developments in monetary policy and and apply models and theories to analyze and evaluate these.

Contents			
<p>As businesses expand, the complexity of managing and reporting financial information across multiple subsidiaries and countries increases dramatically. Group accounting is crucial for companies operating on a large scale, as it involves consolidating diverse financial data into a single, cohesive set of financial statements that reflect the financial status of the entire corporation. This module covers the necessary knowledge to prepare and interpret consolidated financial statements under the International Financial Reporting Standards (IFRS). We will discuss the basic principles of group accounting and provide in-depth knowledge of the relevant standards. Students get to know the different types of mergers, acquisitions, and investments and the accounting methods needed to inform stakeholders about these activities. Students learn why consolidated financial statements are relevant and how the consolidation process works. In addition, we cover various recent topics in group accounting, e.g., the treatment of goodwill and why regulating it is becoming increasingly difficult.</p>			
Outline			
<ul style="list-style-type: none">• Economic principles of group accounting• Scope of consolidation• Preliminary measures• Capital consolidation• Debt consolidation• Consolidation of revenues and expenses• At-equity consolidation			
Intended learning outcomes			
<p>Upon completion of this module, students will be able to:</p> <ul style="list-style-type: none">• Explain the essential concepts and elements of group accounting;• Prepare consolidated financial statements and solve relevant consolidation issues;• Recognize the necessity of consolidated financial statements and critically evaluate consolidated financial statements.

The module provides an overview of strategic implications of digital technologies at the level of organisations, industries and value networks. To this end, concepts and frameworks from strategic technology management are applied to digital innovations and illustrated with numerous examples. In the accompanying exercise, case studies of well-known digital companies and their business models are analysed and discussed.		
Intended learning outcomes		
<ul style="list-style-type: none"> • Become familiar with theoretical concepts of strategy development and implementation in the e-business context • Understand the strengths and weaknesses of different frameworks and approaches as well as the prerequisites for their meaningful application • Apply the concepts to case studies and derive action-oriented recommendations from them • Learn how to transfer the concepts to other entrepreneurial situations from their studies or work

Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
<p>Content The lecture starts out with theories of international trade based on comparative advantage (Ricardo and Heckscher-Ohlin) followed by theories based on monopolistic and oligopolistic competition to explain intra-industry trade. The final part covers firm heterogeneity and multinational firms. [If time permits the Armington model and the standard neoclassical model will be addressed.]</p> <p>Outline I Ricardian Trade Theory II Heckscher-Ohlin Trade Theory III New Trade Theory: Intra-Industry Trade, Increasing Returns to Scale, Imperfect Competition IV Firm Heterogeneity, Trade and FDI V The Multinational Firm</p> <p>Literature: The module draws heavily on articles from scholarly journals and handbooks. A detailed list of references with further references, notably journal articles, is provided with each chapter of the lecture. Material from the following books is also used:</p> <p>Helpman, E. (2011). Understanding Global Trade. Princeton University Press. Feenstra, R.C. (2016). Advanced International Trade. Theory and Evidence. Princeton University Press, Second Edition Caves, R., R.W. Jones and J.A. Frankel (2007). World Trade and Payments. Addison Wesley Bhagwati, J., A. Panagariya and T. N. Srinivasan (1998). Lectures on International Trade. Second Edition. MIT Press Gandolfo, G. (1998). International Trade Theory and Policy. Springer-Verlag, Berlin and New York Markusen, J.R., J.R. Melvin, W.H. Kaempfer, K. E. Maskus (1995). International Trade. McGrawHill Barba Navaretti, G. and A.J. Venables (2004). Multinational Firms in the World Economy. Princeton University Press</p>		
Intended learning outcomes		
The students acquire the ability to critically understand the causes and drivers of world trade and the developments of specialization patterns in the global economy. They learn to analyze, discuss and defend these developments and to apply the tools and methods to evaluate controversies associated with the ongoing deepening of the international division of labor, in particular the repercussions of the global economy on national economies.

Contents		
<p>Marketing analytics involves the collection, management, and analysis of data to gain insights into the performance of marketing activities. In fact, it is increasingly possible to use data analysis to inform, make, and even automate marketing decisions. The goal of this course is to provide students with a hands-on understanding of key methods and specific techniques used in marketing analytics. This requires substantive knowledge in marketing as well as of fundamental ideas at the intersection of statistics, economics, psychology, and computer science.</p> <p>The course will cover fundamentals of data science, including data wrangling and data exploration, and will then turn to applied, real-world marketing analytics problems such as marketing mix modeling, market segmentation, and measuring preferences and demand. Emphasis will be placed on data visualization and valuable methods for causal inference in marketing. The course will also delve into a few advanced marketing topics. To provide a hands-on learning experience, the course will include practical applications of the covered content using the R programming language.</p>		
Intended learning outcomes		
<ul style="list-style-type: none"> • Understand key methods and techniques used in marketing analytics and how to apply them to real-world problems. • Learn to identify the appropriate analytical methods to use for specific marketing problems. • Develop proficiency in data wrangling and data exploration techniques. • Develop skills in data visualization and interpretation to effectively communicate marketing insights. • Gain hands-on experience with the R programming language and apply it to solving marketing analytics problems.

Students will complete their degree with a Master's thesis in which they will be required to independently research and write on a topic in the area of business management and economics, drawing on the subject-specific knowledge they have acquired and adhering to the principles of good scientific practice. This thesis may either take the form of an analysis and structured presentation of the existing literature on a certain topic or may, as is often the case, also include a presentation of the students' own original achievements, e. g. new algorithms developed by students or the (further) development of a theoretical model.		
Intended learning outcomes		
In the master thesis students prove that they can plan and carry out a science-based work to solve a particular problem within a specified period autonomously and to document the results in accordance with the professional scientific standards in writing. Students are able to understand relevant contributions to research and professional practice, critically analyze and assess the relevance to their own specific questions. They can assess and recognize major lines of development and dynamics of the subject and therefore also the need to retrain continuously.

The module provides an overview of technologies and business applications of mobile networks, end devices, applications (including mobile commerce and payment) through to smart objects in a future "Internet of Things". Basic concepts and their use in practice are illustrated using numerous examples. In the accompanying exercise, corresponding case study texts are analyzed and discussed.		
Intended learning outcomes		
<ul style="list-style-type: none"> • Understanding the technological foundations and capabilities of mobile and ubiquitous systems and their integration into existing IS infrastructures • Analyzing business applications in processes, products/services, and business models • Analysis and evaluation of the operational and strategic implications of such technologies from a management perspective • Application of the learned concepts to real management challenges based on case studies

<p>Description:</p> <p>This module deals with the basic concept and methodology of the ordinary least squares (OLS) regression model. In particular, model assumptions and properties are discussed and formally motivated. In addition, the module examines linear restrictions on the model's explanatory variables as well as dummy variables and introduces tests to verify simple and multiple linear restrictions.</p> <p>Linear algebra is used as formal aid.</p> <p>Outline of syllabus:</p> <ol style="list-style-type: none"> 1. Random variables 2. Important distributions 3. Point estimates 4. Simple linear regression model 5. Model assumptions 6. Model properties 7. Simple hypothesis tests 8. Multiple linear regression model 9. Linear restrictions 10. Dummy variables 11. Multiple hypothesis tests 		
Intended learning outcomes		
<p>The students acquire knowledge of the basics, concepts and methods used in the classical linear regression model and understand the role of econometrics in science and data analysis. In particular, they learn how to analytically derive, calculate and interpret the coefficients, standard errors and p-values of a classic regression output of the multiple regression model. Furthermore, they are able to formally state and motivate the assumptions and properties of OLS and know how to deal with transformed and dummy variables. Additionally, students will be able to test multiple linear restrictions on the parameters and will be able to apply these tests to real economic, business and social science questions.</p> <p>The competences acquired in this course serve as a prerequisite for "Econometrics II", "Econometrics III", "Micro-econometrics" und "Financial Econometrics".</p>

Contents			
The course Organizational Economics and Digital Transformation introduces advanced topics in organizational economics, with a focus on economic decision-making within organizations. Concepts and tools from microeconomic theory, as well as empirical findings from field studies and laboratory experiments, are incorporated, such as those related to performance measurement and incentives, organizational structure, and authority. Additionally, the course integrates key aspects of digital transformation shaping modern business landscapes. Thus, students not only gain a solid overview of the fundamental principles of organizational economics but also insights into the challenges, opportunities, and strategies associated with the digital transformation of businesses.			
Intended learning outcomes			
With this course, <ul style="list-style-type: none">• students will be able to understand and reflect on modern microeconomic concepts and current organizational economics.• students will learn to master and apply quantitative microeconomic methods.• students will be enabled to classify and relate specialized knowledge from theoretical microeconomics, experimental and empirical microeconomics, business administration, and psychology.• students learn how digital transformation impacts organizations and their architecture.

Contents			
<p>This course offers an introduction to the fundamentals of causal inference and to widely used research designs in the social sciences. In the first part a framework for understanding causality is introduced. Specifically, the epistemological differences between association, intervention and counterfactuals are explained. Then it is shown why experiments are paramount in generating causal knowledge and which assumptions are needed for which level of the causal hierarchy. Finally, we will discuss two widely used approaches to causality in the social sciences, i.e. potential outcomes and directed acyclic graphs.</p> <p>The second part is devoted to the research designs regressions analysis, difference-in-differences, instrumental variables, and regression discontinuity. The emphasis is how these research designs are for example applied to answer important questions in labour economics such as the effects of a minimum wage increase on employment or the effect of children on female labour supply and wages.</p> <p>The assumptions each research design requires in order to identify a causal effect will be at center stage of the lecture. Therefore the emphasis is to teach students <i>what</i> one needs to estimate in order to answer a given question. Further, the research designs are discussed such that students will be able to evaluate and apply these research designs to other questions and fields.</p>			
Intended learning outcomes			
At the end of the course, students should be able to understand basic concepts and methods of causal inference, as well as read, interpret, and assess the credibility of scientific publications. In addition, the course serves as preparation for advanced statistics and econometrics courses.

holder of the Chair of Business Management, Controlling and Accounting		Faculty of Management and Economics	
ECTS	Method of grading	Only after succ. compl. of module(s)	
5	numerical grade	--	
Duration	Module level	Other prerequisites	
1 semester	graduate	--	
Contents			
The module focuses on financial and management accounting, their functions, possible configurations as well as their impact on internal and external recipients under consideration of the institutional setting. In this context, an economic perspective has priority over detailed legal arrangements and regulations by the standard setters. Based on the theoretical foundations of information economics as well as decision-making and balance sheet theories, questions regarding cost accounting, management control systems, behavioral control and decision-making functions of accounting, quality of financial reporting, and publicity are discussed.			
Intended learning outcomes			
Initially, students acquire a fundamental knowledge of the conception and impact of management and financial accounting as information systems, as well as the economic impacts of the configuration of management and financial accounting. They understand analytical and empirical models from relevant research literature and can interpret and explain the results. Upon completion of the course, the students are able to assess and evaluate the impacts of changes in institutional general frameworks such as changes in valuation standards, publicity rules or regulations about the distribution of profits in enterprises and on capital markets.

<p>Research and research skills are foundational to driving business success in a world where information is abundant and constantly evolving. They provide businesses and professionals with the tools needed to navigate complexity, innovate effectively, and compete on a global scale. In today's data-driven landscape, businesses rely on thorough research to make informed decisions. Research skills enable professionals to gather, analyze, and interpret data effectively, ensuring that decisions are based on solid evidence rather than intuition. Moreover, the modern business environment is characterized by rapid change. Continuous learning, facilitated by strong research skills, helps individuals and organizations remain adaptable. These skills enable professionals to keep up with industry developments, technological advancements, and shifts in consumer behavior, ensuring that they are always equipped to respond to new challenges and opportunities. This module is designed to equip students with the skills necessary to conduct rigorous empirical research.</p> <p>Outline</p> <ul style="list-style-type: none"> • Introduction to current research • How to develop a research question • How to conduct research • Introduction to various data sources • Introduction to applied research methods • Visualizing research findings 		
Intended learning outcomes		
<p>Upon completion of this module, students will be able to:</p> <ul style="list-style-type: none"> • Identify and motivate a relevant research question; • Find relevant scientific literature and interpret it with regard to a specific research question; • Address a research question using empirical analyses.

holder of the Chair of Logistics and Quantitative Methods		Faculty of Management and Economics
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
In the seminar "Supply Chain Competition", students participate in an online multi-round simulation and apply methods of operations and supply chain management.		
Intended learning outcomes		
After completing this seminar students i. selected and applied quantitative models for procurement, production, sales and supply chain management, ii. faced the practical problems when using real data to feed models, iii. and understand the challenges to reach a coordinated decision in a company.		
Courses (type, number of weekly contact hours, language — if other than German)		
S (2) Module taught in: English		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)		
term paper (approx. 15 to 20 pages) and presentation (approx. 10 minutes); (weighted 2:1) Language of assessment: English Assessment offered: Once a year, winter semester		
Allocation of places		
Number of places: 12. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students who already have successfully completed courses offered by the supervising chair will be given preferential consideration. a. Among applicants with the same number of successfully completed modules, places will be allocated according to the total number of ECTS credits achieved in the corresponding modules. b. When places are allocated in accordance with 1.b) and the number of applications exceeds the number of available places, places will be allocated according to the average grade of assessments taken in the corresponding courses. c. Among applicants with the same average grade, places will be allocated by lot. (2) Any remaining places are available to students who have not yet successfully completed any courses of the supervising chair. The selection is made according to study progress (number of semesters); among applicants with the same number of semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

<p>1. Strategic situations and decision making</p> <p>2. Analyzing strategic situations with game theory</p> <p>1. Noncooperative simultaneous move games</p> <p>2. Nash equilibrium</p> <p>3. Models of oligopoly markets</p> <p>3. Dynamic Games</p> <p>1. Two(-multi) stage games and subgame perfect equilibrium</p> <p>2. Role of commitment in dynamic situations</p> <p>3. Models of advertising</p> <p>4. Wage bargaining and unions</p> <p>4. Repeated Games</p> <p>1. Emergence of coordination in long interactions</p> <p>2. Collusion between competing firms</p> <p>3. Time consistent monetary policy</p> <p>5. Static games of incomplete Information</p> <p>1. Bayesian Nash equilibrium</p> <p>2. Auctions</p> <p>6. Dynamic games of incomplete information</p> <p>1. Moral hazard and nonlinear pricing</p> <p>2. Perfect Bayesian equilibrium</p> <p>3. Signalling games</p> <p>4. Job-market signalling</p> <p>5. Corporate investment and capital structure</p>		
Intended learning outcomes		
<p>After successful completion of this class, the students should be familiar with economic models that can be used to shape managerial strategy and aid in making decisions in strategic situations. Especially, by making use of simple two stage games, they should be able to formulate dynamic policies in a wide variety of strategic situations. The students will acquire an intuitive understanding of the underlying economic mechanisms which emerge from the analysis of game theoretic models for a wide variety of strategic situations arising in industrial economics, marketing, organization, finance, trade and labor. Moreover, they will acquire skills which enable them to make predictions in strategic situations by making use of simple mathematical models. By means of completing case based exercises, they will learn to transform real life business situations to an appropriate economic model. Based on an analysis of this model, they will be able to devise optimal strategies and derive the corresponding managerial implications.</p>

<p>This course provides students with a comprehensive understanding of the principles and processes of conducting effective marketing research. This includes, for example, understanding latent constructs, designing data collection methods and questionnaires, and setting up experiments. In addition, students will learn techniques for data analysis and interpretation using SPSS, covering univariate, bivariate and multivariate analysis methods to derive actionable insights from the research results.</p> <p>Rough course structure:</p> <ul style="list-style-type: none">• Basics and process of marketing research• Introduction to marketing research• Latent constructs• Data collection & questionnaire design• Experimental set-up <p>Data analysis and interpretation</p> <ul style="list-style-type: none">• Introduction to SPSS• Univariate and bivariate analysis methods• Multivariate analysis methods (various forms of regression analysis; analysis of variance; conjoint analysis; mediation analysis; structural equation modeling)			
Intended learning outcomes			
Through theoretical considerations as well as practical exercises and case studies, students develop the necessary skills to collect and analyze data in order to make strategic marketing decisions.

<p>Data science is concerned with extracting knowledge and valuable insights from data assets. This course provides an introduction to data science and its application in business and economics. Participants will be familiarized with data handling in Python, data visualization, and various machine learning techniques for prediction and estimation. We will apply the acquired knowledge in topics from business and economics.</p> <p>The course will be divided into two parts: the lecture where the techniques will be taught as well as exercise in which students will be able to work with data on their own.</p>		
Intended learning outcomes		
<p>In this module,</p> <ul style="list-style-type: none"> • students learn data handling and visualization in Python. • students are familiarized with the development and evaluation of machine learning models. • students gain an understanding of how to apply the taught techniques to real data sets.

<p>In today's rapidly changing economic landscape, the ability to effectively analyze financial information is more critical than ever. Financial analysis is essential for interpreting past and current financial data to make predictions about future performance and guide strategic decisions that affect the overall business. This module offers students the tools and methodologies needed to evaluate the financial position of companies, assess investment opportunities, and make informed financial decisions. We provide a basic understanding of financial statement analysis, particularly on how to extract value-relevant information from financial statements, carry out financial statement analysis, and use financial data to value corporations.</p> <p>Outline</p> <ul style="list-style-type: none"> • Introduction to financial analysis • Analysis of earnings information • Analysis of balance sheet information • Analysis of cash flows • Analysis of selected balance sheet positions 		
Intended learning outcomes		
<p>Upon completion of this module, students will be able to:</p> <ul style="list-style-type: none"> • Understand corporate financial statements and identify value-relevant information; • Provide relevant valuation techniques and recognize the fundamental role of financial information in the valuation process; • Apply valuation models to practical cases and make informed investment decisions.

This module provides students with an expandable knowledge of the foreign language. The course is general language and academic context oriented. Development of the four core skills of reading, listening, speaking and writing.			
Intended learning outcomes			
Upon completion of this module, the student will have acquired competencies in the foreign language based on level A1 of the Council of Europe's Common European Framework of Reference for Languages: Can understand and use familiar everyday expressions and very basic phrases aimed at the satisfaction of needs of a concrete type. Can introduce him/herself and others and can ask and answer questions about personal details such as where he/she lives, people he/she knows and things he/she has. Can interact in a simple way provided the other person talks slowly and clearly and is prepared to help.			
Courses (type, number of weekly contact hours, language — if other than German)			
Ü (6)			
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)			
a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation) weighted 3:1 or c) 2 to 5 assessments (5 to 10 pages): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class. The specified types of examinations a), b) and c) can also be used as electronic distance examinations in accordance with Section 1, Paragraph 5 of the Framework Regulations for conducting electronic distance examinations, online exams or other examination formats as an alternative or replacement for face-to-face examinations in connection with the regulations of these framework regulations, in particular Section 3 (4). The lecturer announces the exam format at the beginning of the course. Assessment offered: In the semester in which the course is offered			
Allocation of places			
min. 5, max. 25 places In the event that the number of applications exceeds the number of available places, the number of places available will be allocated as follows: 1. The allocation of the available places takes place after the drawing of lots. 2. Spaces that are subsequently vacated will be raffled in the follow-up procedure. In an online course format, the number of participants is limited to a maximum of 20.

Contents			
This module provides students with an expandable knowledge of the foreign language. The course is general language and academic context oriented. Development of the four core skills of reading, listening, speaking and writing.			
Intended learning outcomes			
Upon completion of this module, the student will have acquired competencies in the foreign language based on level A2 of the Council of Europe's Common European Framework of Reference for Languages: Can understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment). Can communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. Can describe in simple terms aspects of their background, immediate environment and matters in areas of immediate need.

Contents			
In this module students will improve their English skills by using the language in classwork - pair work, group work, project work. This deepening of knowledge (English language and business content) will enable participants to communicate in situations both orally and in writing in a manner fitting to the circumstance that they are confronted with in a business environment. This module will practice skills such as presenting new ideas, negotiating and writing emails and reports. Discussion of current events and topics relating to the class materials will round out the weekly classes.			
Intended learning outcomes			
The student achieves a sound (written and oral) communication ability in the specialist language. He/she has in-depth subject-related linguistic knowledge and skills that enable him/her to communicate on selected topics in appropriate communication situations through the variable use of linguistic means. He/she has mastered the linguistic vocabulary and structures required in the field of business. The module is aimed at achieving the level "C1 - Effective Operational Proficiency" of the Common European Framework of Reference for Languages of the Council of Europe.

Duration	Module level	Other prerequisites	
1 semester	undergraduate	Required level of language proficiency: B2.2	
Contents			
In this module students will expand their knowledge of English which will allow them to communicate confidently in both a university and business context in writing as well as orally. In addition to focused training in communicative competences, being comfortable with English in intercultural situations, as well as discussing current events and topics relating to the class materials will also be worked on.			
Intended learning outcomes			
The student achieves a sound (written and oral) communication ability in the specialist language. He/she has in-depth subject-related linguistic knowledge and skills that enable him/her to communicate on selected topics in appropriate communication situations through the variable use of linguistic means. He/she has mastered the linguistic vocabulary and structures required in the field of business. The module is aimed at achieving the level "C1 - Effective Operational Proficiency" of the Common European Framework of Reference for Languages of the Council of Europe.			
Courses (type, number of weekly contact hours, language — if other than German)			
Ü (3)			
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)			
b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation) weighted 3:1 or c) 2 to 5 assessments (4 to 10 pages and 5 to 15 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class. The specified types of examinations a), b) and c) can also be used as electronic distance examinations in accordance with Section 1, Paragraph 5 of the Framework Regulations for conducting electronic distance examinations, online exams or other examination formats as an alternative or replacement for face-to-face examinations in connection with the regulations of these framework regulations, in particular Section 3 (4). The lecturer announces the exam format at the beginning of the course. Language of assessment: English Assessment offered: In the semester in which the course is offered			
Allocation of places			
min. 5, max. 25 places In the event that the number of applications exceeds the number of available places, the number of places available will be allocated as follows: 1. The allocation of the available places takes place after the drawing of lots. 2. Spaces that are subsequently vacated will be raffled in the follow-up procedure. In an online course format, the number of participants is limited to a maximum of 20.			
Additional information			
module comprises approx. 30 hours of independent study.

<p> Bachelor's degree (1 major) Biology (2011) Bachelor's degree (1 major) Chemistry (2010) Bachelor's degree (1 major) Psychology (2010) Bachelor's degree (1 major, 1 minor) Pedagogy (2013) Bachelor's degree (1 major, 1 minor) Political and Social Studies (2013) Bachelor's degree (1 major, 1 minor) Russian Language and Culture (2008) Bachelor's degree (2 majors) Special Education (2009) Magister Theologiae Catholic Theology (2013) First state examination for the teaching degree Grundschule Pedagogy of Primary Education (2009) First state examination for the teaching degree Sonderpädagogik Pedagogy of Primary Education (2009) First state examination for the teaching degree Sonderpädagogik Teaching at the German Mittelschule (2013) First state examination for the teaching degree Mittelschule Teaching at the German Mittelschule (2013) Bachelor's degree (2 majors) English and American Studies (2009) Bachelor's degree (2 majors) German Language and Literature (2013) Bachelor's degree (1 major) Chemistry (2015) Bachelor's degree (1 major) Geography (2015) Bachelor's degree (1 major) Mathematics (2015) Bachelor's degree (1 major) Musicology (2015) Bachelor's degree (1 major) Physics (2015) Bachelor's degree (1 major) Psychology (2015) Bachelor's degree (1 major) Business Management and Economics (2015) Bachelor's degree (1 major) Nanostructure Technology (2015) Bachelor's degree (1 major) Music Education (2015) Bachelor's degree (1 major) Computational Mathematics (2015) Bachelor's degree (1 major) Political and Social Studies (2015) Bachelor's degree (1 major) Functional Materials (2015) Bachelor's degree (1 major) Academic Speech Therapy (2015) Bachelor's degree (1 major) Indology/South Asian Studies (2015) Bachelor's degree (1 major, 1 minor) Egyptology (2015) Bachelor's degree (1 major, 1 minor) Pedagogy (2015) Bachelor's degree (1 major, 1 minor) History (2015) Bachelor's degree (1 major, 1 minor) Musicology (2015) Bachelor's degree (1 major, 1 minor) Philosophy (2015) Bachelor's degree (1 major, 1 minor) Pre- and Protohistoric Archaeology (2015) Bachelor's degree (1 major, 1 minor) Ancient World (2015) Bachelor's degree (1 major, 1 minor) Philosophy and Religion (2015) Bachelor's degree (1 major, 1 minor) Theological Studies (2015) Bachelor's degree (1 major, 1 minor) Political and Social Studies (2015) Bachelor's degree (1 major, 1 minor) Russian Language and Culture (2015) Bachelor's degree (1 major, 1 minor) German Language and Literature (2015) Bachelor's degree (2 majors) Egyptology (2015) Bachelor's degree (2 majors) Pedagogy (2015) Bachelor's degree (2 majors) Protestant Theology (2015) Bachelor's degree (2 majors) Musicology (2015) Bachelor's degree (2 majors) Philosophy (2015) Bachelor's degree (2 majors) Special Education (2015) </p>		
Master's with 1 major Management International (2024)	JMU Würzburg • generated 18-Jun-2025 • exam. reg. data record Master (120 ECTS) Management International - 2024	page 102 / 106

Bachelor's degree (2 majors) Pre- and Protohistoric Archaeology (2015)
 Bachelor's degree (2 majors) Latin Philology (2015)
 Bachelor's degree (2 majors) Music Education (2015)
 Bachelor's degree (2 majors) Philosophy and Religion (2015)
 Bachelor's degree (2 majors) Theological Studies (2015)
 Bachelor's degree (2 majors) Political and Social Studies (2015)
 Bachelor's degree (2 majors) Russian Language and Culture (2015)
 Bachelor's degree (2 majors) Greek Philology (2015)
 Bachelor's degree (2 majors) European Ethnology (2015)
 Bachelor's degree (2 majors) Indology/South Asian Studies (2015)
 First state examination for the teaching degree Grundschule Pedagogy of Primary Education (2015)
 First state examination for the teaching degree Sonderpädagogik Pedagogy of Primary Education (2015)
 First state examination for the teaching degree Sonderpädagogik Teaching at the German Mittelschule (2015)
 First state examination for the teaching degree Mittelschule Teaching at the German Mittelschule (2015)
 Bachelor's degree (2 majors) Geography (2015)
 Bachelor's degree (2 majors) French Studies (2015)
 Bachelor's degree (2 majors) History (2015)
 Bachelor's degree (2 majors) Sport Science (Focus on health and Pedagogics in Movement) (2015)
 Bachelor's degree (2 majors) German Language and Literature (2015)
 Bachelor's degree (1 major) Mathematical Physics (2016)
 Bachelor's degree (1 major, 1 minor) French Studies (2016)
 Bachelor's degree (2 majors) French Studies (2016)
 Bachelor's degree (1 major, 1 minor) Italian Studies (2016)
 Bachelor's degree (2 majors) Italian Studies (2016)
 Bachelor's degree (1 major, 1 minor) Spanish Studies (2016)
 Bachelor's degree (2 majors) Spanish Studies (2016)
 Bachelor's degree (1 major) Romanic Languages (French/Italian) (2016)
 Bachelor's degree (1 major) Romanic Languages (French/Spanish) (2016)
 Bachelor's degree (1 major) Romanic Languages (Italian/Spanish) (2016)
 Bachelor's degree (1 major) Business Information Systems (2016)
 Bachelor's degree (1 major) Games Engineering (2016)
 Bachelor's degree (1 major, 1 minor) English and American Studies (2016)
 Bachelor's degree (2 majors) English and American Studies (2016)
 Bachelor's degree (1 major) Media Communication (2016)
 Bachelor's degree (1 major) Food Chemistry (2016)
 Bachelor's degree (1 major, 1 minor) Digital Humanities (2016)
 Bachelor's degree (1 major) Biology (2017)
 Bachelor's degree (1 major, 1 minor) Geography (2017)
 Bachelor's degree (1 major, 1 minor) History of Medieval and Modern Art (2017)
 Bachelor's degree (2 majors) History of Medieval and Modern Art (2017)
 Bachelor's degree (2 majors) Comparative Indo-European Linguistics (2017)
 Bachelor's degree (1 major) Aerospace Computer Science (2017)
 Bachelor's degree (1 major) Biochemistry (2017)
 Bachelor's degree (1 major) Chemistry (2017)
 Bachelor's degree (1 major, 1 minor) Museology and material culture (2017)
 Bachelor's degree (1 major) Econometrics (2017)
 Bachelor's degree (1 major) Games Engineering (2017)
 Bachelor's degree (1 major) Computer Science (2017)
 Bachelor's degree (1 major) Media Communication (2018)
 Bachelor's degree (1 major) Biomedicine (2018)
 Bachelor's degree (1 major) Human-Computer Systems (2018)
 Bachelor's degree (2 majors) Classical Archaeology (2018)
 Bachelor's degree (1 major, 1 minor) Classical Archaeology (2018)

Bachelor's degree (1 major, 1 minor) Digital Humanities (2018)
 Bachelor's degree (2 majors) Digital Humanities (2018)
 Bachelor's degree (1 major) Computer Science (2019)
 Bachelor's degree (1 major, 1 minor) English and American Studies (2019)
 Bachelor's degree (1 major) Indology/South Asian Studies (2019)
 Bachelor's degree (1 major) Business Information Systems (2019)
 Bachelor's degree (2 majors) Indology/South Asian Studies (2019)
 Bachelor's degree (1 major) Business Management and Economics (2019)
 Bachelor's degree (1 major) Modern China (2019)
 Bachelor's degree (1 major) Biomedicine (2020)
 Bachelor's degree (1 major) Pedagogy (2020)
 Bachelor's degree (1 major) Political and Social Studies (2020)
 Bachelor's degree (1 major) Business Information Systems (2020)
 Bachelor's degree (1 major, 1 minor) Political and Social Studies (2020)
 Bachelor's degree (2 majors) European Ethnology (2020)
 Bachelor's degree (2 majors) Political and Social Studies (2020)
 Bachelor's degree (2 majors) Special Education (2020)
 First state examination for the teaching degree Mittelschule Teaching at the German Mittelschule (2020 (Prüfungsordnungsversion 2015))
 First state examination for the teaching degree Sonderpädagogik Teaching at the German Mittelschule (2020 (Prüfungsordnungsversion 2015))
 First state examination for the teaching degree Sonderpädagogik Pedagogy of Primary Education (2020 (Prüfungsordnungsversion 2015))
 Bachelor's degree (1 major) Physics (2020)
 Bachelor's degree (1 major) Nanostructure Technology (2020)
 Bachelor's degree (1 major) Mathematical Physics (2020)
 Bachelor's degree (1 major) Aerospace Computer Science (2020)
 Bachelor's degree (1 major, 1 minor) Museology and material culture (2020)
 Bachelor's degree (1 major, 1 minor) Pedagogy (2020)
 Bachelor's degree (2 majors) Pedagogy (2020)
 Bachelor's degree (1 major) Psychology (2020)
 Bachelor's degree (1 major) Biology (2021)
 Magister Theologiae Catholic Theology (2021)
 Bachelor's degree (2 majors) History (2021)
 Bachelor's degree (1 major, 1 minor) History (2021)
 Bachelor's degree (1 major) Media Communication (2021)
 Bachelor's degree (2 majors) Theological Studies (2021)
 Bachelor's degree (1 major, 1 minor) Theological Studies (2021)
 Bachelor's degree (1 major, 1 minor) English and American Studies (2021)
 Bachelor's degree (2 majors) English and American Studies (2021)
 First state examination for the teaching degree Grundschule Pedagogy of Primary Education (2021)
 Bachelor's degree (1 major) Functional Materials (2021)
 Bachelor's degree (1 major) Computer Science and Sustainability (2021)
 Bachelor's degree (2 majors) Comparative Indo-European Linguistics (2021)
 Bachelor's degree (1 major) Food Chemistry (2021)
 Bachelor's degree (1 major) Quantum Technology (2021)
 Bachelor's degree (2 majors) Special Education (2021)
 Bachelor's degree (1 major) Business Information Systems (2021)
 Bachelor's degree (1 major) Econometrics (2021)
 Bachelor's degree (1 major) Business Management and Economics (2021)
 First state examination for the teaching degree Sonderpädagogik Pedagogy of Primary Education (2021)
 Bachelor's degree (1 major) Human-Computer Systems (2022)
 Bachelor's degree (1 major, 1 minor) Museology and material culture (2022)

Bachelor's degree (1 major) Biochemistry (2022)
 Bachelor's degree (1 major) Biology (2022)
 Bachelor's degree (1 major) Econometrics (2022)
 Bachelor's degree (1 major) Mathematical Data Science (2022)
 Bachelor's degree (1 major) Artificial Intelligence and Data Science (2022)
 Bachelor's degree (2 majors) Ancient Near Eastern Archaeology (2022)
 Bachelor's degree (1 major, 1 minor) Ancient World (2022)
 Bachelor's degree (2 majors) Ancient Near Eastern Studies (2022)
 Bachelor's degree (1 major) Franco-German studies: language, culture, digital competence (2022)
 Bachelor's degree (1 major) European Law (2023)
 Bachelor's degree (1 major, 1 minor) English and American Studies (2023)
 Bachelor's degree (2 majors) English and American Studies (2023)
 Bachelor's degree (1 major) Artificial Intelligence and Data Science (2023)
 Bachelor's degree (1 major) Mathematics (2023)
 Bachelor's degree (1 major) Business Information Systems (2023)
 Bachelor's degree (1 major) Econometrics (2023)
 Bachelor's degree (1 major, 1 minor) History of Medieval and Modern Art (2023)
 Bachelor's degree (2 majors) History of Medieval and Modern Art (2023)
 Bachelor's degree (2 majors) Special Education (2023)
 Bachelor's degree (1 major) Business Management and Economics (2023)
 Bachelor's degree (1 major) Geography (2023)
 Bachelor's degree (2 majors) Geography (2023)
 Bachelor's degree (1 major, 1 minor) Geography (2023)
 Bachelor's degree (2 majors) European Ethnology/Empiric Cultural Studies (2023)
 Bachelor's degree (1 major) Mathematical Physics (2024)
 Bachelor's degree (2 majors) German Language and Literature (2024)
 Bachelor's degree (1 major, 1 minor) German Language and Literature (2024)
 Bachelor's degree (1 major) Music Education (2024)
 Bachelor's degree (2 majors) Music Education (2024)
 Bachelor's degree (1 major, 1 minor) Music Education (2024)
 Master's degree (1 major) Management International (2024)
 Bachelor's degree (1 major) Indology/South Asian Studies (2024)
 Bachelor's degree (2 majors) Indology/South Asian Studies (2024)
 Bachelor's degree (1 major, 1 minor) Indology/South Asian Studies (2024)
 Bachelor's degree (1 major, 1 minor) Ancient World (2024)
 Bachelor's degree (2 majors) Digital Humanities (2024)
 Bachelor's degree (1 major, 1 minor) Digital Humanities (2024)
 Bachelor's degree (1 major) Midwifery (2024)
 Bachelor's degree (2 majors) Greek Philology (2024)
 Bachelor's degree (2 majors) Latin Philology (2024)
 Bachelor's degree (1 major) Business Information Systems (2024)
 Bachelor's degree (1 major) Econometrics (2024)
 Bachelor's degree (1 major) Business Management and Economics (2024)
 Bachelor's degree (1 major) Artificial Intelligence and Data Science (2024)
 Bachelor's degree (1 major) Human-Computer-Interaction (2024)
 Bachelor's degree (2 majors) Art Education (2024)
 Bachelor's degree (1 major) Digital Business & Data Science (2024)
 Bachelor's degree (1 major) Classics (2024)
 Bachelor's degree (1 major) Diversity, Ethics and Religions (2024)
 Master's degree (1 major) Management International (2025)
 Master's degree (1 major) Adult Education and Management in Lifelong Education (2025)
 Bachelor's degree (1 major) Functional Materials (2025)
 Bachelor's degree (1 major) (2025)

Bachelor's degree (1 major) Food Chemistry (2025)
 Bachelor's degree (1 major, 1 minor) European Ethnology/Empiric Cultural Studies (2025)
 Bachelor's degree (1 major) Pedagogy (2025)
 Bachelor's degree (2 majors) Pedagogy (2025)
 Bachelor's degree (1 major) Economathematics (2025)
 Bachelor's degree (1 major) Academic Speech Therapy (2025)
 Bachelor's degree (1 major, 1 minor) Pedagogy (2025)
 Bachelor's degree (1 major) Games Engineering (2025)
 Bachelor's degree (2 majors) Sport Science (Focus on health and Pedagogics in Movement) (2025)
 Bachelor's degree (1 major) Aerospace Computer Science (2025)
 Bachelor's degree (1 major, 1 minor) German Language and Literature (2025)
 Bachelor's degree (1 major) Computer Science (2025)
 Bachelor's degree (2 majors) German Language and Literature (2025)
 Bachelor's degree (1 major) Computer Science and Sustainability (2025)
