Course of Studies - Contents and Objectives

Graduates acquire a professional and scientific qualification via a framework of multifaceted and variable curricular. They are able to reflect different pedagogical theories in their respective systematic, historical and socio-cultural contexts and are proficient in the design and execution of qualitative and quantitative research projects. In addition to this graduates possess the ability to make reference to socio-political discourses. This acquired professional knowledge, competences and methodologies qualifies graduates for scientific work and for the critical reflection of scientific knowledge/results at a high academic level.
