Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available. |                   |                                                                                                                                |                       |

| The students know the most important measures of statistics. They are able to apply these measures adequately to empirical questions, calculate them in the right way and interpret them correctly. They know the assets and drawbacks of the measures covered by the course. They can apply a statistical program to deal with the contents covered by the course. |                   |                                      |
