for the Subject

Special pedagogy in the context of visual impairment and blindness

with the degree "Erweiterungsprüfung für das Lehramt für
Sonderpädagogik"
(ECTS credits)

Examination regulations version: 2023
Responsible: Faculty of Human Sciences
Responsible: Institute of Special Education

Abbreviations used

Course types: **E** = field trip, **K** = colloquium, **O** = conversatorium, **P** = placement/lab course, **R** = project, **S** = seminar, **T** = tutorial, **Ü** = exercise, **V** = lecture

Term: **SS** = summer semester, **WS** = winter semester

Methods of grading: **NUM** = numerical grade, **B/NB** = (not) successfully completed

Regulations: **(L)ASPO** = general academic and examination regulations (for teaching-degree programmes), **FSB** = subject-specific provisions, **SFB** = list of modules

Other: **A** = thesis, **LV** = course(s), **PL** = assessment(s), **TN** = participants, **VL** = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2015

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

22-Mar-2023 (2023-24)

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

Contents		
Universal design; accessibility and assistive technologies in the pedagogy of visual impairments and blindness (VIB); basic functionalities of typical assistive technologies in the context of VIB; usage of easily accessible digital media to increase the accessibility of learning content for learners with VIB; approaches and strategies to establish the competences in the handling of digital media and assistive technology of the different pedagogical fields of action; troubleshooting in the context of digital media and technology; technology-supported didactic methods; possibilities and limitations in the usage of digital media and technologies; screen reader technology; basics of graphical user interfaces; disability-specific input and output of data; mobile devices in the context of visual impairments; basics of text processing and spreadsheet.		
Intended learning outcomes		
Students have a basic orientation knowledge concerning the limitations and possibilities of technology in the context of disability and are able to position themselves critically; they are able to create easily accessible digital media and analyse and evaluate the accessibility of digital documents; they are able to explain typical assistive technologies for visually impaired people regarding their functionality and demonstrate their use; they are able to give learners and their surroundings advice about the choice of appropriate technology and justify their recommendation; they are able to plan, execute, and evaluate individualised and group-oriented lesson units on the use of assistive technology; they know strategies for solving typical challenges regarding the establishment of functionality and compatibility of technologies and are able to analyse respective practical problems; they understand the basic functionality of a graphical user interface; they understand the functionality of the screen reader technology and are able to analyse aspects of the practical application in a visually oriented manner.

Contents		
Learning-theoretical and general didactic basics; design of educational processes in heterogeneous study groups; organisation of teaching; teamwork and pedagogical decision-making in the subject area; concepts on visual, auditory, and tactile improvement of the sensory efficiency; tactile education with an introduction and optimisation of tactile strategies and depletion of tactile constraints; didactic concepts on supporting the concept development; didactics of movement education under difficult conditions; concepts of supporting the performance of identification; tactile teaching media; preparation and improvement of visual media; strategies on sensory parallelisation; disabled social learning; basics of the acquisition of written language; concepts on the development of preparing skills for learning Braille; didactics of the written Braille language; Braille grade 2 (shortened version of Braille).		
Intended learning outcomes		
Students are able to analyse and evaluate individualised teaching-learning concepts of the subject focus vision in a theory-driven manner; they are able to evaluate and analyse strategies for explicit or implicit improvement of sensory efficiency, concept development, and movement education; they are able to analyse strategies for multi-sensory perception of complex issues; they are able to plan and critically evaluate tactile media used in lessons; they are able to tailor visual media for lessons to the individual needs of the learners and justify their decisions; they are able to evaluate approaches of the acquisition of learning Braille; they are able to understand the system of Braille grade 2; they are able to read Braille grade 2 with an abbreviation chart in a visually oriented way; they know ways to produce media related to Braille.

Contents		
Theoretical basics of integration and acculturation of people with a migrant background as well as biculturally socialised children and juveniles, introduction of multicultural fields of practice and action, especially those relevant to pedagogy, e.g. intercultural education in educational and extracurricular institutions as well as intercultural counselling.		
Intended learning outcomes		
The students are aware of potential migration-induced behavioural abnormalities as well as psychosocial stress reactions in migrants and are able to critically think, reflect and independently apply their knowledge in practice. Furthermore, they are able to apply and refine existing concepts.

Contents		
Principles and theories of intercultural competence, acquisition of basic terms, intercultural communication and conflicts (in theory and practice), intercultural competence training, multifactorial backgrounds of "migration-induced behavioural abnormalities", prevention and intervention measures against racism and xenophobia.		
Intended learning outcomes		
The students have basic knowledge of intercultural action and can independently apply theoretical principles of multicultural work in a reflected manner. In doing so, the students develop awareness of the effects of social changes and framework conditions on migrants and of interpersonal relationships and professional work in heterogeneous, intercultural fields of action.
