Subdivided Module Catalogue
Freier Bereich (general as well as subject-specific electives) for Teaching Degree Students of All Subjects (FÜG)

Teaching degree, Grundschulen
Responsible: JMU Würzburg
Abbreviations used

Course types: E = field trip, K = colloquium, O = conversatorium, P = placement/lab course, R = project, S = seminar, T = tutorial, Ü = exercise, V = lecture

Term: SS = summer semester, WS = winter semester

Methods of grading: NUM = numerical grade, B/NB = (not) successfully completed

Regulations: (L)ASPO = general academic and examination regulations (for teaching-degree programmes), FSB = subject-specific provisions, SFB = list of modules

Other: A = thesis, LV = course(s), PL = assessment(s), TN = participants, VL = prerequisite(s)

Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

In accordance with

the general regulations governing the degree subject described in this module catalogue:

LASPO2009

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

21-Mar-2011 (2011-23) Information on all modules offered as part of the area Freier Bereich (FB, general as well as subject-specific electives) in the winter term 2009/2010 and the summer term 2010 is listed below. The list is divided into two sections without being further subdivided.

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.
This module catalogue provides information on the modules offered as part of the area Freier Bereich (general as well as subject-specific electives) for students of all subjects pursuing a teaching degree at Julius-Maximilians-Universität Würzburg. It is divided into two sections listing the modules offered as part of the above referenced area in the winter semester and the subsequent summer semester without being further subdivided.

**Contents**

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course

Language of assessment: English

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

Contents

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

Intended learning outcomes

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

This module equips students (without any previous knowledge of the target language) with basic skills in the target language which will allow them to orient themselves in basic situations in the target language.

Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Courses

This module comprises 3 module components. Information on courses will be listed separately for each module component.

- 42-FRG1-1-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-FRG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-FRG1-3-072: Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 42-FRG1-1-072: French Basic Level 1-1

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: French

Assessment in module component 42-FRG1-2-072: French Basic Level 1-2

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: French
- Only after successful completion of module components: Successful completion of module component 42-FRG1-1 or of an assessment test is a prerequisite for participation in module component 42-FRG1-2.
### Assessment in module component 42-FRG1-3-072:
French Basic Level 1-3

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: French
- Only after successful completion of module components: Successful completion of module component 42-FRG1-2 or of an assessment test is a prerequisite for participation in module component 42-FRG1-3.

This module equips students (without any previous knowledge of the target language) with basic skills in the target language which will allow them to orient themselves in basic situations in the target language.

Intended learning outcomes
Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)
This module comprises 3 module components. Information on courses will be listed separately for each module component.

- 42-ITG1-1-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-ITG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-ITG1-3-072: Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 42-ITG1-1-072: Italian Basic Level 1-1
- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Italian

Assessment in module component 42-ITG1-2-072: Italian Basic Level 1-2
- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Italian
- Only after successful completion of module components: Successful completion of module component 42-ITG1-1 or of an assessment test is a prerequisite for participation in module component 42-ITG1-2.
**Assessment in module component 42-ITG1-3-072:** Italian Basic Level 1-3

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Italian
- Only after successful completion of module components: Successful completion of module component 42-ITG1-2 or of an assessment test is a prerequisite for participation in module component 42-ITG1-3.

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

**Additional information**

--

**Referred to in LPO I** (examination regulations for teaching-degree programmes)

--
Module title: Italian Basic Level 2

Abbreviation: 42-ITG2-072-m01

Module coordinator: head of Language Centre (ZFS)
Module offered by: Language Centre (ZfS)

ECTS: 7
Method of grading: numerical grade
Only after succ. compl. of module(s): --

Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents:
Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

Intended learning outcomes:
Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German):
This module comprises 2 module components. Information on courses will be listed separately for each module component.
- 42-ITG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-ITG1-3-072: Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus):
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 42-ITG1-2-072: Italian Basic Level 1-2
- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing), or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Italian
- Only after successful completion of module components: Successful completion of module component 42-ITG1-1 or of an assessment test is a prerequisite for participation in module component 42-ITG1-2.

Assessment in module component 42-ITG1-3-072: Italian Basic Level 1-3
- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing), or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Italian
- Only after successful completion of module components: Successful completion of module component 42-ITG1-2 or of an assessment test is a prerequisite for participation in module component 42-ITG1-3.

### Contents

In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

### Intended learning outcomes

Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

**Intended learning outcomes**

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

**Contents**

This module equips students (without any previous knowledge of the target language) with basic skills in the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

This module comprises 3 module components. Information on courses will be listed separately for each module component.

- 42-SPG1-1-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-SPG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-SPG1-3-072: Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

**Assessment in module component 42-SPG1-1-072:**

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Spanish

**Assessment in module component 42-SPG1-2-072:**

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Spanish
- Only after successful completion of module components: Successful completion of module component 42-SPG1-1 or of an assessment test is a prerequisite for participation in module component 42-SPG1-2.
**Module catalogue**

Freier Bereich (general as well as subject-specific electives) for teaching degree students of all subjects (FÜG)

---

**Assessment in module component 42-SPG1-3-072**: Spanish Basic Level 1-3

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Spanish
- Only after successful completion of module components: Successful completion of module component 42-SPG1-2 or of an assessment test is a prerequisite for participation in module component 42-SPG1-3.

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

**Contents**

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- **42-SPG1-2-072**: Ü (no information on SWS (weekly contact hours) and course language available)
- **42-SPG1-3-072**: Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

**Assessment in module component 42-SPG1-2-072**: Spanish Basic Level 1-2

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Spanish
- Only after successful completion of module components: Successful completion of module component 42-SPG1-1 or of an assessment test is a prerequisite for participation in module component 42-SPG1-2.

**Assessment in module component 42-SPG1-3-072**: Spanish Basic Level 1-3

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Spanish
• Only after successful completion of module components: Successful completion of module component 42-SPG1-2 or of an assessment test is a prerequisite for participation in module component 42-SPG1-3.

**Contents**

In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

**Intended learning outcomes**

Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students’ opportunities to succeed at university in their host countries.

**Intended learning outcomes**

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students’ opportunities to succeed at university in their host countries.

**Courses** (type, number of weekly contact hours, language — if other than German)

### Contents
Students are introduced to selected topics in church history and historical theology. They develop specialised and methodical skills.

### Intended learning outcomes
At the end of the course, students will have developed a knowledge of selected topics in historical theology as well as subject-specific transferable skills. They will be able to situate events, developments, and major figures in church history within their historical context and will have developed an awareness of the impact they had. Students will have developed hermeneutical skills that will enable them to critically evaluate historical sources. They will be able to use research methods in historical theology and to make their findings (somewhat) relevant to contemporary issues.

### Courses
(U type, number of weekly contact hours, language — if other than German)

| Ü | (no information on SWS (weekly contact hours) and course language available) |

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

- a) oral examination of one candidate each (approx. 15 minutes) or
- b) oral examination in groups (groups of 2: approx. 30 minutes, groups of 3: approx. 45 minutes) or
- c) talk (approx. 15 minutes) or
- d) written examination (approx. 30 minutes) or
- e) term paper (approx. 5 pages) or
- f) assessments during lecture period (approx. 3 to 5 assessments, 15 hours total) or
- g) designing a seminar unit (45 to 90 minutes)

### Contents
Liturgy: the structures of standard worship services, selected elements of services, grounding in anthropology (body language etc.). Pastoral theology: features of the everyday lives of pupils; essential communication skills with special attention to God-talk in liturgy; methods for sermon preparation; preparing short sermons.

### Intended learning outcomes
At the end of the course, students will have become familiar with the structures of standard worship services as well as with selected elements of services. They will be able to independently perform short services and preach short sermons.

### Courses
(type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
assessments during lecture period (reflective report) approx. 7 pages

### Allocation of places
Number of places: approx. 15. Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated by lot as they become available.

### Additional information
Comprises block course in plenum (approx. 4 block sessions), school visits and work in small groups.

### Referred to in LPO I

Podcasting (Basic Course)

Module coordinator: head of Centre for Media Didactics (ZfM)

Module offered by: Centre for Media Didactics (ZfM)

ECTS: 3

Method of grading: Only after successfully completed module(s)

Duration: 1 semester

Module level: undergraduate

Other prerequisites: --

Contents:
Different approaches to creating and publishing podcasts (audio files).

Intended learning outcomes:
After successfully completing this module, the students have basic knowledge of how to properly use techniques, materials and methods of creating and publishing podcasts. They have basic competencies in working with audio files and know how to publish them online.

Courses:
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
project with presentation (approx. 20 minutes) and written elaboration (approx. 2 pages)

Allocation of places:
Number of places: 8. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

### Contents

Different approaches to creating and publishing podcasts (audio files).

### Intended learning outcomes

After successfully completing this module, the students have detailed knowledge of how to properly use techniques, materials and methods of creating and publishing podcasts. They have professional competencies in working with audio files and know how to publish them online.

### Courses

(type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

project with presentation (approx. 50 minutes) and written elaboration (approx. 2 pages)

### Allocation of places

Number of places: 8. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

Module title: Interactive Whiteboards (Basic Course)
Abbreviation: 42-ZfM-IT-B-101-m01

Module coordinator: head of Centre for Media Didactics (ZfM)
Module offered by: Centre for Media Didactics (ZfM)

ECTS: 3
Method of grading: (not) successfully completed
Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents:
Blackboards are still the classic medium for teaching classes. The students examine the theoretical principles of working with boards to determine the possibilities and opportunities of using interactive board systems. The module provides an overview of the functionality of interactive whiteboards which combine the functions of blackboards with the functions of flip charts by using computer technology as well as projection technology. Self-organised learning processes, which are demanded by modern learning culture, are put into practice. In this way, the students actively participate in class and work with the board systems from the beginning of the seminar.

Intended learning outcomes:
After successfully completing this module, the students have acquired basic skills in dealing with interactive whiteboards. By creating virtual arrangements, the students have learned to create content for interactive whiteboards and they are able to integrate these whiteboards into school lessons in a useful manner. Furthermore, they know how to search for additional digital resources and materials for teaching school lessons with an interactive whiteboard.

Courses:
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
project with presentation (approx. 30 minutes) and written elaboration (approx. 2 pages)

Allocation of places:
Number of places: 15. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

The module provides an overview of aspects, concepts and elements of popular and new radio plays. The aim of the course is to create own radio plays whilst taking into account aspects of media criticism and school.

**Intended learning outcomes**

After successfully completing this module, the students have acquired basic skills in dealing with microphones, headsets, preamplifiers, and audio interfaces. Furthermore, they are able to use audio software in a proper way and to process audio materials under production-aesthetic aspects. The participants are able to conceptualize and implement radio play structures by using a specific text source.

**Courses**

(type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment**

### Module title

E-Learning (Basic Course)

### Abbreviation

42-ZfM-E-Lea-B-101-m01

### Module coordinator

head of Centre for Media Didactics (ZfM)

### Module offered by

Centre for Media Didactics (ZfM)

### ECTS

3

### Method of grading

Not successfully completed

### Duration

1 semester

### Module level

Undergraduate

### Other prerequisites

--

### Contents

In this module, we discuss theoretical and practical principles of e-learning. In addition, we discuss and compare different (multi)media application examples from practice.

### Intended learning outcomes

The students have acquired basic knowledge of different approaches, theories and topics of the field of e-learning.

### Courses

S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

Presentation (20 to 30 minutes) with written elaboration (approx. 2 pages)

### Allocation of places

Number of places: 20. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

### Additional information

Module title: Computer Based Presenting (Basic Course)

Abbreviation: 42-ZfM-CoPrä-B-101-m01

Module coordinator: Head of Centre for Media Didactics (ZfM)

Module offered by: Centre for Media Didactics (ZfM)

ECTS: 3

Method of grading: Only after successfully completing module(s)

Duration: 1 semester

Module level: Undergraduate

Other prerequisites: --

Contents:
The aim of the module is to improve the students' presentation skills. Especially multimedia aspects such as mastering presentation software, properly editing and integrating video footage and recording audio files will play an important role.

Intended learning outcomes:
The students have basic skills in using technology and software to create and give multimedia-supported presentations. Furthermore, they know how to give professional, multimedia-supported presentations and are able to create a proper handout.

Courses:
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
Presentation (20 to 30 minutes) with written elaboration (approx. 2 pages)

Allocation of places:
Number of places: 15. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

Information literacy in an academic context: search strategies and tools; using the library's electronic resources; resources for subjects offered by the Faculty of Arts (bibliographies, databases, catalogues, journals, reference books); online searches and search engines; overview of additional resources (eLearning etc.); reference management.

**Intended learning outcomes**

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. Students are able to manage and process the information they have found, using reference management software and eLearning tools. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their theses.

**Courses**

(No information on SWS (weekly contact hours) and course language available)

**Method of assessment**

(a) written examination (approx. 60 minutes) or (b) preparing and delivering a presentation with slides (approx. 10 minutes or approx. 5 minutes and approx. 1 page) or (c) completing exercises (approx. 10 exercises) or (d) presentation without slides (approx. 20 to 30 minutes) or (e) preparing and delivering a presentation with slides (approx. 5 minutes) and completing exercises (approx. 5 exercises) or (f) presentation without slides (approx. 10 to 15 minutes) and completing exercises (approx. 5 exercises)

**Allocation of places**

Number of places: 5-50. There is a restricted number of places. If necessary, places will be allocated as follows: Students of the degree programmes of the respective subject-specific focuses will be given preferential consideration. The remaining places, if and when any become available, will be allocated to students of the other natural sciences degree programmes. In each of the above-mentioned groups, 30% of places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. The remaining 70% of places will each be allocated by lot.

**Contents**

Information literacy in an academic context:
- Search strategies and tools.
- Using the library's electronic resources.
- Resources for natural sciences: databases and journals.
- Online searches and search engines.
- Overview of additional resources (eLearning etc.).
- Reference management. Some sections of the module will focus on particular disciplines (wherever possible, on disciplines in the natural sciences).

**Intended learning outcomes**

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. Students are able to manage and process the information they have found, using reference management software and eLearning tools. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their Bachelor's theses.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 minutes) or b) preparing and delivering a presentation with slides (approx. 10 minutes or approx. 5 minutes and approx. 1 page) or c) completing exercises (approx. 10 exercises) or d) presentation without slides (approx. 20 to 30 minutes) or e) preparing and delivering a presentation with slides (approx. 5 minutes) and completing exercises (approx. 5 exercises) or f) presentation without slides (approx. 10 to 15 minutes) and completing exercises (approx. 5 exercises)

**Allocation of places**

Number of places: 5-50. There is a restricted number of places. If necessary, places will be allocated as follows: Students of the degree programmes of the respective subject-specific focuses will be given preferential consideration. The remaining places, if and when any become available, will be allocated to students of the other natural sciences degree programmes. Contents

The module provides an introduction to successful supervision of pupils independently carrying out experiments in the teaching-learning-laboratory.

Intended learning outcomes

The students learn to classify different groups of pupils according to their subject-specific and experimental level of performance, to support the pupils according to their needs and age and to help them during independent experimenting (supervision competencies in open classroom situations). The students are able to methodically and critically evaluate their own actions. A lecturer gives individual feedback to the students to avoid negative behaviour patterns and to support the students’ strengths. The students develop professional behaviour patterns by repeatedly working on the same topic with different groups of pupils (reflection competencies and self-control competencies).

2 numerical grade --

Duration Module level Other prerequisites
1 semester undergraduate This module can be chosen by students studying at least one subject in the natural sciences.

Contents
Conception and realisation of experimental stations with ordinary and inexpensive consumables for classes of Grundschule and secondary level I.

Intended learning outcomes
The students develop simple scientific experimenting stations to use for the transition from primary to secondary level I for small groups from different types of schools. In doing so, they learn to simplify and convey scientific contents relevant to the curriculum in due consideration of the target group.

</thead>
<tbody>
<tr>
<td>2</td>
<td>(not) successfully completed</td>
</tr>
</tbody>
</table>

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

### Contents

Using examples from the classroom, the exercise will acquaint students with specific teaching aids (originals, preparations and media) for use in the biology classroom and will assess these with regard to the media literacy skills to be developed. The seminar will discuss both traditional aids used in the biology classroom (models, blackboard, OHP, transparencies, textbook and worksheets etc.) and modern aids (computer simulations, ppt presentations etc.). After having received a theoretical introduction to teaching aids, students will be arranged into small teams that will deliver lessons or individual phases of lessons on specific topics from the curriculum. They will focus on a teaching aid of their choice which will subsequently be assessed with regard to aspects of media didactics.

### Intended learning outcomes

Knowledge of the fact that the term "teaching aids in the biology classroom" refers to originals, preparations and media. Familiarity with a biology-specific, didactic definition of the term "media". Overview of different aspects of biology-specific media (encoding, hardware, software, message, sensory modalities).

### Courses

**Contents**

[Version 1: This seminar will provide students preparing for the written state examination with an opportunity to revise key topics in biology didactics. In small teams, students will prepare and deliver presentations on three key areas. The first block will discuss an area of the theory of biology didactics, this will be followed by the discussion of a topic in the biology classroom with respect to aspects of the scientific discipline and a didactic analysis. In the final part of the course, students will solve an exam paper from a previous year.] [Version 2: Using examples from the classroom, the seminar will acquaint students with specific teaching aids (originals, preparations and media) for use in the biology classroom and will assess these with regard to the media literacy skills to be developed. The seminar will discuss both traditional aids used in the biology classroom and modern media. After having received a theoretical introduction to teaching aids, students will be arranged into small teams that will deliver lessons or individual phases of lessons on specific topics from the curriculum. They will focus on a teaching aid of their choice which will subsequently be assessed with regard to aspects of media didactics.]

**Intended learning outcomes**

Familiarity with relevant aspects of biology didactics and awareness of the fact that typical methods of the discipline play a central role in the biology classroom. Ability to design lively biology lessons, using original objects and teaching aids. Ability to use methods in biology in a way that promotes the learning processes of pupils. Familiarity with both biology-specific and interdisciplinary topics from the curriculum for Grundschule. Ability to prepare scientific analyses of selected topics from the curriculum for Grundschule and to subsequently present these topics in a manner that is tailored to the target group. Ability to prepare didactic analyses of topics from the curriculum for Grundschule. Ability to translate, with the help of didactic analyses, selected topics from the curriculum into teaching sequences and lessons as well as to deliver these teaching sequences and lessons, applying problem-based and/or open teaching methods. Overview of experiments on botany, zoology and human biology typically performed in the Grundschule biology classroom. Ability to implement the experiments in the classroom and to integrate them into activity and problem-based lessons. Insight into frameworks for education in Grundschule. Insight into legal and social factors that influence schools.

**Contents**

In this module, students gain a skill-based and advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

**Intended learning outcomes**

This module will equip students with an advanced basic general knowledge of the target language and will focus on developing reading and listening comprehension as well as written and oral communication skills. The targeted skills training builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages. Students will systematically enhance their spoken and written language skills to prepare for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course.

Assessment offered: once a year, winter semester

Language of assessment: French

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

### Contents
Aspects, concepts and elements of realising a stop motion animation. Creating an own stop motion film whilst taking into account aspects of media criticism.

### Intended learning outcomes
After successfully completing this module, the students have basic knowledge of using stop motion animation software in a professional manner. They acquire basic competencies in working with relevant software, e.g. stop motion software, and are able to create aesthetically pleasing products. At the end of the module, the participants choose a topic to create and implement their own film concept for a stop motion animation.

### Courses
S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
Project (expenditure of time as specified at the beginning of the course) with written elaboration (approx. 2 pages) and presentation (approx. 30 minutes)

### Allocation of places
Number of places: 14. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

### Additional information

**Contents**

The aim of the module is to create own websites whilst taking into account different aspects of layout options, user guidance etc. In addition, we discuss the differences and similarities between print media and the internet. Furthermore, we review and analyse popular websites to develop a critical approach to website creation.

**Intended learning outcomes**

After successfully completing this module, the students have acquired basic knowledge of designing websites. They have basic skills in creating own web presences and are able to critically reflect pre-existing web content.

**Contents**

The aim of the module is to create own websites whilst taking into account different aspects of layout options, user guidance etc. In addition, we discuss the differences and similarities between print media and the internet. Furthermore, we review and analyse popular websites to develop a critical approach to website creation.

**Intended learning outcomes**

After successfully completing this module, the students have acquired advanced knowledge of designing websites. They have advanced skills in creating own web presences and are able to critically reflect pre-existing web content.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

project (expenditure of time as specified at the beginning of the course) with written elaboration (approx. 2 pages) and presentation (approx. 40 minutes)

**Allocation of places**

Number of places: 12. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Module coordinator**

head of Professional School of Education (PSE)

**Module offered by**

Centre for Teacher Training and Educational Research (ZfL)

**ECTS**

3

**Method of grading**

(only) successfully completed

**Only after succ. compl. of module(s)**

43-LA-BildsysEx

**Duration**

1 semester

**Module level**

undergraduate

**Other prerequisites**

This module is only open for students who attended the preparatory course for the field trip to the respective country in the module they successfully completed beforehand.

**Contents**

This modul provides the chance to become acquainted with different international educational systems. With excursions into other European as well as non-European countries an international and intercultural exchange between educational systems takes place. This can cover a system as a whole on a political level as well as individual sections on the level of specific educational institutions. Subject of this are educational as well as extra- and pre-school institutions. Apart from structural questions, content-related fields of duty as well as general moral values and cultural norms of an educational system or individual fields of education will be dealt with.

**Intended learning outcomes**

Students are acquainted with different international educational systems or individual fields of education of a broader system, know how to describe them structurally and classify them in reference to their content, and are able to relate their objectives to their fields of duty. International educational institutions and systems can be placed correctly into their wider context of respective national and cultural values and norms.

**Courses** (type, number of weekly contact hours, language — if other than German)

E (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

field trip report (approx. 5 pages)

Language of assessment: German or language of the respective destination country of the field trip

### Contents

Based on a number of working steps, students’ own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).

### Intended learning outcomes

The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.

### Courses

- **S**: (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

- exercises (approx. 90 minutes)

### Allocation of places

Number of places: 15. Places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

### Contents
Students will get an insight into the practical interaction with children and young adults. The focus is on dealing with difficult pupils or rather with difficult situations. Due to the specific institutional context, students are encouraged to observe, analyze and reflect upon communicative and social behavior. Opportunities for action in demanding situations will be developed and tested in this exercise.

### Intended learning outcomes
Students know methods for dealing with difficult pupils or rather difficult situations and enhance their own social competence. Dealing with such situations in practice, increases the ability to practically implement concepts with children and young adults as well as the pedagogical reflective faculties. Practical exercises enable the building up of methodological competences.

### Contents
Students gain insights into daily teaching practices or rather real life planning and creation of lessons. They learn about different, innovative, co-operative teaching and learning methods, devise own examples for lessons, and discuss and reflect upon them in a group. Emphasis is thus placed on subject specific didactical and methodological questions and their implementation.

### Intended learning outcomes
Students broaden their methodological knowledge and build up methodological competencies. They acquire different co-operative ways of teaching and learning and their optimal application in lessons. Students are able to take up a position concerning questions of planning lessons and to reflect upon that position from different points of view.

**Contents**

Students explore the issue of inclusion from an education point of view and study the theory and practice of inclusive teaching in the Protestant religious education classroom.

**Intended learning outcomes**

At the end of the course, students will be able to critically discuss the concept of inclusion in the context of religious education. They will have developed the ability to explore issues in inclusion (disability, finitude, etc.) from the point of view of theology and religious education as well as to incorporate their findings into their teaching.

Contents
With the help of different methods, this course offers the chance to optimize the speaker’s active vocabulary and language skills. In doing so, occasions and situations for speaking are generated in which the students interactively talk, discuss and negotiate with each other. Potential language barriers, personal inhibitions thresholds or negatively connoted situations will be reduced and canceled out with mutual sympathy and understanding. Thus, a feeling for the language, language skills, and a confident readiness of speech will emerge.

Intended learning outcomes
Students have activated their vocabulary and can use it appropriately. They can use the English language correctly and eloquently and they actively communicate freely without inhibitions in different situations. With the help of varied methods students can learn on their own initiative and further train their communicative and language competences.

Contents
This course provides instructions and practical training in preparation and delivery of speeches in a variety of contexts and to audiences with diverse cultural, educational and professional backgrounds and experience. Emphasis is placed on task and audience analysis, nonverbal aspects of communication when presenting, audience involvement, pre-speech preparation, structure and organisation of speeches. Aspects like the use of spontaneity, imagination and flexibility to adjust the presentation style when needed and to involve the audience are given special consideration and training. Employing a wide range of highly creative and holistic training techniques this seminar will actively explore these aspects of speaking and train an open, personal, flexible and spontaneous approach to presenting, thus developing a repertoire of styles and a diverse range of perspectives. The course provides the teacher students at the same time with practical exercises and teaching methods to train their pupils effective presentation skills across cultures in an educational environment.

Intended learning outcomes
Upon completing this seminar the students should be able to: - understand (public) presenting and speaking as a transactive process, - demonstrate an awareness of the importance of pre-speech preparation and post-speech appraisal, - show the capacity to analyse both task and audience and prepare the presentation or speech accordingly, - make effective use of the dynamics of spoken language including nonverbal as well as vocal aspects of communication, - know and apply a variety of holistic, interactive and student-centred teaching methods in class themselves as teachers to train the above skills.

Courses (type, number of weekly contact hours, language — if other than German)

Module title: Intercultural and interpersonal Skills - in Perception, Communication and English
Abbreviation: 43-LA-IntSkills-PCE-121-m01

Module coordinator: head of Professional School of Education (PSE)
Module offered by: Centre for Teacher Training and Educational Research (ZfL)

ECTS: 2
Method of grading: Only after succ. compl. of module(s)
Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents:
This course introduces the basic concepts of the term communication, the principles of interpersonal communication, and the most important process theory-models of communication. It also provides in-depth knowledge on the practices, principles, role and significance of perception in interpersonal and intercultural communication. Emphasis is placed on sensitizing participants to intercultural and interpersonal communication processes, recognizing potential problem areas and perceptual errors, acquiring skills and techniques to avoid misunderstandings, increasing empathy, and developing active listening skills. Extensive guided practice to experience the processes of communication and perception and to acquire flexible behaviour patterns and effective forms of interpersonal and intercultural interaction are given. Immediate and creative action methods, the principles of spontaneity, and holistic training techniques will help break up personal and cultural barriers and develop open attitudes and flexible behaviours. Thus, the course provides the students at the same time with practical exercises and teaching methods to train affective and behavioural learning targets and skills in an educational environment.

Intended learning outcomes:
Upon completing this seminar the students should be able to:
- understand the complexity of the term 'communication' and the principles of interpersonal communication,
- outline the transactional process model of communication, including the aspects of communication they incorporate (e.g. codes, messages, the concept of noise, 'shared environments' etc.),
- describe the role and significance of perception in interpersonal and intercultural communication (including one's own perception),
- take the perspective of another person and member of another culture (empathy),
- show flexible strategies of behaviour and communication in a variety of unknown and unexpected communicative situations,
- know and apply a variety of holistic, interactive and student-centred teaching methods in class themselves as teachers to train the above skills.

**Contents**

This course sets out to give an insight into the different dimensions of emotional intelligence, spontaneity, creativity and imagination in communication and human interaction. Role theory as means of understanding social, interpersonal and intercultural interaction and its limits, Moreno's theories about spontaneity and creativity, his Action Method techniques, and the importance of 'warming-up' to access and unblock spontaneity and creativity will be explored theoretically and 'in action'. The participants will get to know a wide range of exercises tapping into their creative and imaginative sources to actively train flexible ways of behaviour, reaction and thinking that transcend and break up personal and cultural barriers. The course provides the teacher students at the same time with practical exercises and teaching methods to train these important key skills in a meaningful, structured and effective way in class.

**Intended learning outcomes**

Upon completing this seminar the students should be able to: - understand the dimensions and principles of emotional intelligence, creativity and imagination in communication and human interaction. ### Contents

KIK are holistic, student-centered, and action-oriented educational methods for the areas of (foreign) languages, communication, personal development, student interaction, interpersonal and intercultural competencies as well as team development. Minimalistic when it comes to preparation and directly assimilable to lessons, clearly structured techniques and settings train important key competencies such as creativity, spontaneity, and reactivity. They broaden strategies for action, flexibility considering different roles, and increase receptiveness, expressive motivation as well as expressive powers in communication. The learning-psychological optimal approaches to lessons enable students in specific action situations to experience communication and language in an individually, sensory, bodily, and emotionally direct way. Nonverbal and verbal warm-up exercises, different roles, and distancing techniques break up personal, cultural as well as linguistic barriers, providing shelter and stilling the fear of making mistakes. Sources comprise the linguistic dramaturgy (PDL) of the pedagogue Dr. Bernard Dufeu, Action Method Techniques from Jacob Levy Moreno's psychodrama and impromptu theater as well as further holistic techniques from the Relational Approach, Silent Way, sociometry, exercises from impromptu theater and the education of actors, activities from the area of team building as well as holistic, interactive exercises that were developed by Ingrid Ebert within the scope of her work with children, adolescent and adult education.

### Intended learning outcomes

After the intact-basic module students are able to: - develop a pedagogical basic understanding of linguistic dramaturgy (e.g. PDL) - to fully name the basic and methodic principles of the above mentioned holistic educational techniques - to describe, instruct and implement the basic techniques of e.g. PDL, mirroring, duplicating, projection and warm-up exercises in a group- taking into consideration one of the techniques with warm-up exercises introduced in the basic module, to design a plan for a lesson that can be integrated into the ongoing learning material

KIK are holistic, student-centered, and action-oriented educational methods for the areas of (foreign) languages, communication, personal development, student interaction, interpersonal and intercultural competencies as well as team development. Minimalistic when it comes to preparation and directly assimilable to lessons, clearly structured techniques and settings train important key competencies such as creativity, spontaneity, and reactivity. They broaden strategies for action, flexibility considering different roles, and increase receptiveness, expressive motivation as well as expressive powers in communication. The learning-psychological optimal approaches to lessons enable students in specific action situations to experience communication and language in an individually, sensory, bodily, and emotionally direct way. Nonverbal and verbal warm-up exercises, different roles, and distancing techniques break up personal, cultural as well as linguistic barriers, providing shelter and stilling the fear of making mistakes. Sources comprise the linguistic dramaturgy (PDL) of the pedagogue Dr. Bernard Dufeu, Action Method Techniques from Jacob Levy Moreno’s psychodrama and impromptu theater as well as further holistic techniques from the Relational Approach, Silent Way, sociometry, exercises from impromptu theater and the education of actors, activities from the area of team building as well as holistic, interactive exercises that were developed by Ingrid Ebert within the scope of her work with children, adolescent and adult education.

**Intended learning outcomes**

After the KIK extension module A students are able to: - to describe, instruct and implement further interactive and group dynamical, oral and written warm-up, intermediate and main exercises from linguistic dramaturgy in a group - taking into consideration one of the techniques with warm-up exercises introduced in the extension A, to design a plan for a lesson that can be integrated into the ongoing learning material

**Courses**

(S no information on SWS (weekly contact hours) and course language available)

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (approx. 45 minutes) with written elaboration (maximum 5 pages) or b) presentations (approx. 3 individual contributions, approx. 10 minutes each) Language of assessment: German or English

**Allocation of places**

Number of places: 12. Places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Additional information**

**Contents**

The module functions as the preparation for the subsequent excursion to schools in different European countries. The course includes facts about the history, culture, society, and other aspects of the target culture. Furthermore, students will acquire knowledge about the structure of teacher training, schools and higher education systems of the respective country in order to compare them to the German educational system. Additionally, students are prepared in an intercultural way for the respective country. This will form the basis for the mutual exchange.

**Intended learning outcomes**

Students are able to reflect upon and discuss about similarities and differences of international educational systems in comparison with the German educational system. They can discuss different aspects of educational systems in respect to migration and intercultural learning. They recognize and can assess historic, social, cultural and political effects on educational systems.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (approx. 20 minutes) or b) term paper (approx. 10 pages) or c) portfolio (30 hours total)

**Allocation of places**

Number of places: 15. Places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available. Provided there is enough capacity, the same course will be offered several times in parallel as a mandatory elective. This means that the number of available places might increase to 20.

**Additional information**

The lecturer can decide to replace a seminar (S) with a field trip (E).

**Contents**

This module deals with the challenges of the pedagogical work in schools and educational institutions for adolescents against the background of different cultures and cultural standards. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns as well as different ways of thinking and living of adolescents. At the same time, the thematic emphases are dealt with under an intercultural point of view.

**Intended learning outcomes**

Students have knowledge about different facets and subject areas of intercultural (adolescent) work. In dealing with the diversity of cultures and cultural interpretive patterns they command over basic intercultural key competencies. With the help of practical exercises students can transfer their knowledge to situations of their own pedagogical actions.

Module title
Examination of discrimination the basis of category: gender

Abbreviation
43-LA-GenderDiskr-121-m01

Module coordinator
head of Professional School of Education (PSE)

Module offered by
Centre for Teacher Training and Educational Research (ZfL)

ECTS
2

Method of grading
Only after succ. compl. of module(s)

(1) successfully completed
--

Duration
1 semester

Module level
undergraduate

Other prerequisites
--

Contents
With the help of dealing with different approaches, the module wants to raise awareness for the topic of discrimination and to balance out a social imbalance caused by bias and prejudice. The dealt with approaches are opposed to any kind of discrimination and oppression. In doing so, individual biases, positioning of power and experiences of discrimination are addressed in relevance to social inequality.

Intended learning outcomes
The students are aware of social and individual forms of discrimination by dealing with different approaches to gender and discrimination issues and are able to face such problem areas in a solution-oriented way. Within specific fields of application such as schools and education, students are able to apply practical measures purposefully.

Courses

# Module: Sexual identity and discrimination in social contexts

**Module title:** Sexual identity and discrimination in social contexts  
**Abbreviation:** 43-LA-GenderSex-121-m01

### Module coordinator
head of Professional School of Education (PSE)

### Module offered by
Centre for Teacher Training and Educational Research (ZfL)

### ECTS
2

### Method of grading
(only) successfully completed --

### Duration
1 semester

### Module level
undergraduate

### Other prerequisites
Admission prerequisite to assessment: regular attendance of courses (as specified at the beginning of the course).

## Contents
Manifestations of discrimination and sexual identity in social norms and laws and their relevance for educational contexts: schools play an important role in the practice of key competences for the work life. Within the scope of anti-discrimination laws, this entails to learn to respect the diversity of others. To address the feature of "sexual identity" in this context is necessary because this topic has often been neglected. While this attitude has become natural for the features "gender", "ethnic origin", and "disability", the educational community still struggles with the aspect of "sexual orientation". Within the scope of educational laws to approach the interdisciplinary and equal portrayal of all forms of sexual orientation, mechanism of action of power relations in groups, prejudices, and discrimination are worked out. The focus is on the category of "sexual identity".

## Intended learning outcomes
The students are aware of social and individual forms of discrimination by dealing with different approaches to gender and discrimination issues and are able to transfer this to the category of "sexual identity" in a solution-oriented way. They are able to interdisciplinary take different aspects of "sexual identity" into consideration in the context of schools and other educational contexts.

## Courses

Advanced Issues of theological Ethics | 01-ET-SEFRU-112-m01

Module coordinator | Module offered by
holder of the Chair of Moral Theology | Faculty of Catholic Theology

ECTS | Method of grading | Only after succ. compl. of module(s)
---|---|---
3 | numerical grade | --

Duration | Module level | Other prerequisites
---|---|---
1 semester | undergraduate | --

Contents
Investigating specific problems in ethics, this module explores the topics discussed in the lecture on the fundamental principles of theological fundamental ethics in more detail and gives students the opportunity to develop a more thorough understanding of different approaches to ethics. The module aims to equip students with a comprehensive theoretical background of topics for the religious education and ethics classroom. Topics to be discussed include: models for the constitution and justification of ethical norms; models in ethics, e.g.: deontological ethics, virtue ethics, discourse ethics; approaches to theological ethics.

Intended learning outcomes
At the end of the course, students will have developed a thorough understanding of key approaches to philosophical and theological ethics. They will have a sound background knowledge that will enable them to teach topics in religion and ethics that are required by the curriculum in an appropriate manner that is tailored to their pupils’ needs.

Courses (type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) oral examination of one candidate each (approx. 15 minutes) or b) written examination (approx. 30 minutes) or c) designing a seminar unit (approx. 45 to 90 minutes) with written elaboration (approx. 5 to 10 pages) or d) assessments during lecture period (approx. 3 to 5 assessments, 30 hours total) or e) essay (approx. 5 pages) or f) term paper (approx. 10 pages)

### Contents

Information literacy in an academic context: search strategies, resources, online searches, etc.

### Intended learning outcomes

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline(s) and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their papers.

### Courses

Ü (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

- a) written examination (approx. 60 minutes) or
- b) preparing and delivering a presentation with slides (approx. 10 minutes or approx. 5 minutes and 1 page) or
- c) completing exercises (approx. 10 exercises) or
- d) presentation without slides (approx. 30 minutes) or

**Contents**

Basics of communication at school / educational work; task specification of a teacher; introduction to various (interactive) media and medial methods; their use and purposeful usage in the classroom; production of learning objects for the classroom.

**Intended learning outcomes**

The students know a broad variety of media and medial methods and are able to use them in the classroom purposefully. Through the use of interactive media they can lead the students to self-organized and independent learning and working. They can prepare their lessons effectively and support them with objects for learning in an optimal way.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Presentation (approx. 10 minutes, approx. 15 pages)

**Allocation of places**

Number of places: 27. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

Module title: Learning through the arts - Teaching oriented research

Abbreviation: 43-LA-LTTA-Forsch-121-m01

Module coordinator: head of Professional School of Education (PSE)

Module offered by: Centre for Teacher Training and Educational Research (ZfL)

ECTS: 3

Method of grading: Only after succ. compl. of module(s)

Duration: 1 semester

Module level: undergraduate

Other prerequisites: --

Contents:
Not a new project, not an event, but a "rethinking" of classroom teaching. Information: about LTTA in general and about the cooperation with the Royal Conservatory of Toronto and Queens University: The teacher education program Learning Through the Arts", developed at Canada’s Royal Conservatory of Music, has become the world’s most comprehensive school initiative based on the arts. LTTA brings specially trained artists to schools, who cooperate with teachers to create lessons that cover learning material in an exciting and playful way. For example, pupils learn math through dancing, history via story-telling and the natural sciences through the fine arts. The artists and teachers form a three-year teaching partnership with the goal of teaching non artistic subjects, such as math, natural sciences, history, and languages, in a holistic fashion by adding a broad variety of art forms (music, dance, fine arts). LTTA offers schools a comprehensive implementation program that includes advanced vocational training, support in the classroom, models for integration of the curriculum as well as means for rating pupils and evaluating the program. Ongoing, high quality professional training for teachers, artists, principals, and lecturers at LTTA schools are at the center of the program’s philosophy. Content of the module: "Learning through the arts" can be used at all types of schools and with all kinds of students. In the seminar, interconnections with the Bavarian curricula and own lesson plans for the major subjects are worked out. Areas of the sciences of teaching and learning, learning theories and results of brain research form a focal point of the theoretical part. Artist-teacher-cooperation leads to a changed understanding of learning culture. Besides the insights into the practical work, there will also be an elucidation about educational successes. In the seminar, students will get to know the work of LTTA at our schools and in other countries, while also analyzing and reflecting upon it. Some investigations from the LTTA model school can be realized. The participants of the seminar can also take part in events by LTTA, such as artists’ training, teachers’ further education as well as in teaching examples at our project schools.

Intended learning outcomes:
Students gained knowledge about teaching theories, are able to do immersed curricular work, to reprocess lessons methodically and can transfer the artistic experiences choreographically, sculpturally, musically etc to their subject area. They can confidently work in a team. Furthermore, through their own practical implementation, they have experienced a furthering of their teaching personality with an increased feeling of security when using artistic elements for the purpose of achieving cognitive curricular goals. Moreover, they gained knowledge about classroom teaching research and are able implement and analyze their own units and surveys.

Courses (type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) oral presentation (approx. 20 minutes) with written elaboration (approx. 6 pages) or b) designing a seminar (approx. 45 minutes) with written elaboration (approx. 3 pages)

Allocation of places
Number of places: 30. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

**Contents**

The module addresses transitions between different institutions of the education system and between different types of schools. This concerns the transition from elementary schools to secondary schools as well as the transition from preschool institutions to elementary schools to improve the permeability between different types of schools, up to the transition between high schools to university and college. The concept of "transition" is hereby theoretically elaborated, reflected critically, and practically implemented.

**Intended learning outcomes**

Students are able to put theoretical approaches of the concept "transition" holistically into practice and reflect upon practice theoretically. They are experienced at elaborating lesson concepts at the interface between the types of schools that flank a transition. They can attribute the different requirement profiles of specific lesson sequences and units to the transition matter and thus use them purposefully. In periods of teaching practice that take place in selected schools they can validate the theoretical knowledge practically.

### Contents

Based on a number of working steps, students' own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).

### Intended learning outcomes

The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.

**Contents**

Reflection upon their own role as a teacher trainee and future teacher; Self- and time-management; Image of the self and the other; goal-oriented use of media; theme-centered use of teaching methods.

**Intended learning outcomes**

Students are able to reflect about their own role and to constructively include difference between their image of themselves and the image of the other. They command over a basic know-how and repertoire of methods. In the interplay of their role, the image of themselves and of the other as well as an appropriate repertoire of media and methods, students are able to didactically process acquired contents of their discipline while taking into consideration the addressee.

**Contents**

The students gain an insight into teaching practice. The focus lies on the conveyance of teaching methods and methods for individual advancement in the classroom. Through observations, coaching projects, internships or purposeful assignments inside or outside the classroom, the students have their own practical education and teaching experiences.

**Intended learning outcomes**

The students learn about various kinds of teaching methods and methods for individual advancement and differentiation. They are familiar with concepts about professional action in the classroom and about dealing with heterogeneity and difference. The acquired knowledge about teaching can already be applied in some cases.

**Contents**

As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or social school work. In various areas of occupation, such as the "fostering of psychosocial competence" or the diverse tasks of networking the tasks of social school work are presented in their different aspects.

**Intended learning outcomes**

Students have gained insights into the diverse areas of responsibility of social school work. Because of their focus on "psychosocial competences" they are experienced in the application of psychosocial methods of the social school workers and are able to choose and apply them adequately, reflect upon them critically and broaden them independently. Alternatively, with the focus on "networking", the students have basic knowledge about institutions and some experience in committees, and are familiar with tasks, competence and procedures in social school work and are thus able to coordinate the different requirements.

**Courses** (type, number of weekly contact hours, language — if other than German)

As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or school social work and gives the students the opportunity to participate in the concrete pedagogical work with a professional focus on "projects", or to bring their own small projects to fruition.

### Intended learning outcomes
The students have gained an insight into the diverse task areas of a teacher at the level of lower secondary education. They are experienced in carrying out projects of social school work and are able to use those as a basis for the development of their own pedagogical projects. They have furthered their own methodic competence and are able to use it purposefully, reflect upon it critically and broaden it independently.

### Contents

The module offers opportunities for practical experience in the classroom and everyday school life and their theoretical reflection. This way, didactic concepts, teaching methods or methods for individual advancement and differentiation are conveyed. Through observations, individual advancement projects, internships or purposeful assignments inside or outside the classroom the students gain their own practical education and teaching experiences.

### Intended learning outcomes

The students are able to put theoretical approaches into practice in an activity-oriented fashion and reflect upon it in a theory-driven way. They are experienced in the application of concepts and models in the classroom or in individual advancement. They can attribute the direct learning behavior of students to the use of concepts and models and therefore apply those purposefully. They are able to employ different approaches according when explaining teaching material to pupils according to this pupil’s individual needs and capabilities.

### Courses (type, number of weekly contact hours, language — if other than German)

Pedagogical concepts in schools are constantly developed further. To that end, different instruments and the committees included in this process are portrayed in their collaboration. Theoretical principles of educational development and evaluation; sitting in classes while visiting schools, application of evaluation instruments and analysis of evaluation results; planning of intervention methods in the planning of educational development.

### Intended learning outcomes

Students have experienced the pedagogical work in schools as a process that is subject to a constant development. They know the principles of educational evaluation models as instruments of educational development. They have basic knowledge using evaluation instrument, their application, implementation, and evaluation. They are able to choose appropriate intervention models on the basis of evaluation results.

**Contents**

Beginning students determine their preferences, interests and goals for their studies with the help of a mentor in order to reach clarity about their choice of studies. Depending on their needs, the students will either learn the basics of an effective time management during their studies, reflect their job choice on basis of their own abilities or improve their communicative skills and their competence in speaking in front of an audience. The focus hereby lies on evaluating their choice of studies as well as their own abilities in connection to their academic teaching studies.

**Intended learning outcomes**

The students know their own capabilities in the according areas (time management, career choice or communicative skills). They can also asses and analyze their capabilities in said areas.

Module title
Planning and Carrying-out of learning units with regards to special abled people in the Teach'n'Learn Garden

Abbreviation
07-GH-FDUB1B-092-m01

Module coordinator
holder of the Chair of Ecophysiology and Vegetation Ecology

Module offered by
Faculty of Biology

ECTS
2

Method of grading
(0) successfully completed

Only after succ. compl. of module(s)
--

Duration
1 semester

Module level
undergraduate

Other prerequisites
By way of exception, additional prerequisites are listed in the section on assessments.

Contents
This module has a practical focus and will teach participants how to systematically encourage a sense of nature in children and adolescents and thus make a contribution to environmental education. The course will explore how out-of-classroom activities may enhance the learning experience of pupils and will discuss what methods are appropriate. In the practical phase, participants will deliver teaching units to real groups of pupils. In the Botanical Garden of the University (or, optionally, at a school camp), participants will learn how to impart to pupils, in a didactically reduced manner, a knowledge of species and form in the context of the topics "Forest" or "Water" and will practise their skills. Large parts of the course will also be devoted to the discussion and application of a variety of (open) teaching methods that are supposed to encourage pupils, in a playful atmosphere, to develop a positive attitude and act responsibly towards nature. In this context, participants will systematically try to engage pupils on the emotional level. In the final phase of the course, participants will implement their projects with groups of pupils that come to the teach’n’learn garden (or school camp). This will encourage participants to plan their teaching in a practice-oriented manner and will provide them with an opportunity to acquire experience in their new role as teachers.

Intended learning outcomes
Familiarity with the principles of environmental education. - Familiarity with different factors that may encourage pupils to act responsibly towards nature. - Insight into the fundamental scientific principles behind the respective topics. - Overview of the individual contents of the teaching units to be designed.

Courses (type, number of weekly contact hours, language — if other than German)
This module comprises 2 module components. Information on courses will be listed separately for each module component.

• 07-GH-FDUB1B-1-092: S (no information on SWS (weekly contact hours) and course language available)
• 07-GH-FDUB1B-2-092: Ü + E (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 07-GH-FDUB1B-1-092: Environmental Education in the Teach’n’Learn Garden
• 1 ECTS, Method of grading: (not) successfully completed
• seminar paper (7 to 10 pages)
• Other prerequisites: Admission prerequisite to assessment: regular attendance of courses (fortnightly courses: a maximum of one incident of unexcused absence; weekly courses: a maximum of 2 incidents of unexcused absence).

Assessment in module component 07-GH-FDUB1B-2-092: Planning and Carrying-out of learning units with regards to special abled people in the Teach’n’Learn Garden Planning and Carrying-out of learning units with regards to special abled people in the Teach’n’Learn Garden
• 1 ECTS, Method of grading: (not) successfully completed
• seminar paper (7 to 10 pages)
- Other prerequisites: Admission prerequisite to assessment: regular attendance of courses (fortnightly courses: a maximum of one incident of unexcused absence; weekly courses: a maximum of 2 incidents of unexcused absence).

**Contents**

Introduction to the extracurricular site "museum" with focus on the educational work and the transfer of knowledge, which is implemented there. According to the definition of the International Council of Museums (ICOM), a museum is a "not-for-profit institution that serves society and their development, that is open to the public and that collects, preserves, examines, imparts and exhibits material remains of the human and its ambient environment for study, education and entertainment purposes".

**Intended learning outcomes**

Students acquire a broad overview knowledge concerning the institution museum and the related history, tasks and current problems. They are able to apply a museum educational working method to the extracurricular learning site museum practically. They achieve a museum educational and specific background knowledge that can be applied to the school practice.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü + R (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

presentation (approx. 60 minutes) with written elaboration (approx. 5 pages)

**Allocation of places**

Number of places: 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

**Additional information**

Additional information on module duration: 1 to 2 semesters.

**Referred to in LPO I** (examination regulations for teaching-degree programmes)

**Contents**

Phenomena, terminology, criteria and norms, classification, epidemiology, institutions, historical aspects, legal basics, education and education difficulties, principles of didactics and teaching, basic explanatory perspectives.

**Intended learning outcomes**

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders (professional competence, self-competence). They can conduct independent and extensive research to advance their basic knowledge (professional competence, social competence, methodological competence). By acquiring differentiated basic knowledge, the students have gained first competencies in dealing with behavioural disorders (self-competence).

**Courses** (type, number of weekly contact hours, language — if other than German)

V (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

written examination (approx. 30 minutes)

**Allocation of places**

Number of places: 20. Places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

Basic perspectives for the explanation of behavioural disorders; key and selected psychological and sociological approaches to the explanation of behavioural disorders in view of medico-biological aspects.

**Intended learning outcomes**

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders, also in view of specific explanation concepts and specific selected problems (professional competence, self-competence). This knowledge enables them to classify and understand behavioural disorders in children and juveniles and to develop first ideas for dealing with behavioural disorders (professional competence, self-competence, methodological competence).

</tbody>
</table>

**Contents**

The module provides an introduction to successful supervision of pupils independently carrying out experiments in the teaching-learning-laboratory.

**Intended learning outcomes**

The students learn to classify different groups of pupils according to their subject-specific and experimental level of performance, to support the pupils according to their needs and age and to help them during independent experimenting (supervision competencies in open classroom situations). The students are able to methodically and critically evaluate their own actions. A lecturer gives individual feedback to the students to avoid negative behaviour patterns and to support the students’ strengths. The students develop professional behaviour patterns by repeatedly working on the same topic with different groups of pupils (reflection competencies and self-control competencies).

## Module title
Low Cost - High Impact. Low-Budget Experiments for Science Courses (Physics)

### Abbreviation
11-MIND-Ph1-121-m01

## Module coordinator
Holder of the Chair of Physics and its Didactics

## Module offered by
Faculty of Physics and Astronomy

## ECTS
2

## Method of grading
(Not) successfully completed

## Only after succ. compl. of module(s)

## Duration
1 semester

## Module level
Undergraduate

## Other prerequisites
This module can be chosen by students studying at least one subject in the natural sciences.

## Contents
Conception and realisation of experimental stations with ordinary and inexpensive consumables for classes of Grundschule and secondary level I.

## Intended learning outcomes
The students develop simple scientific experimenting stations to use for the transition from primary to secondary level I for small groups from different types of schools. In doing so, they learn to simplify and convey scientific contents relevant to the curriculum in due consideration of the target group.

## Courses
(no information on SWS (weekly contact hours) and course language available)

## Method of assessment
(a) written examination (approx. 45 minutes) or (b) term paper (approx. 8 pages, time to complete: 1 to 4 weeks) or (c) examination of one candidate each (approx. 10 minutes) or (d) examination in groups (approx. 20 minutes, groups of 2)

**Contents**

Designing and creating hands-on exhibits for STEM subjects.

**Intended learning outcomes**

The students evaluate the advantages and disadvantages of the hands-on approach for teaching scientific contents in and out of school. They plan and implement an interdisciplinary science exhibition as an example of project-oriented work with pupils of secondary level I and II.

**Courses** (type, number of weekly contact hours, language — if other than German)

### Contents

This module equips students (without any previous knowledge of the target language) with basic skills in the target language which will allow them to orient themselves in basic situations in the target language.

### Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of the country in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

### Courses

This module comprises 3 module components. Information on courses will be listed separately for each module component.

- 42-SEG1-1-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-SEG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-SEG1-3-122: Ü (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

#### Assessment in module component 42-SEG1-1-072: Swedish Basic Level 1-1

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Swedish

#### Assessment in module component 42-SEG1-2-072: Swedish Basic Level 1-2

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Swedish
- Only after successful completion of module components: Successful completion of module component 42-SEG1-1 or of an assessment test is a prerequisite for participation in module component 42-SEG1-2.
Assessment in module component 42-SEG1-3-122: Swedish Basic Level 1-3

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Swedish
- Only after successful completion of module components: Successful completion of module component 42-SEG1-2 or of an assessment test is a prerequisite for participation in module component 42-SEG1-3.

Allocation of places

Number of places: 5-25. Places will be allocated by lot.

**Contents**

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of the country in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Courses (type, number of weekly contact hours, language — if other than German)**

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 42-SEG1-2-072: Ü (no information on SWS (weekly contact hours) and course language available)
- 42-SEG1-3-122: Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)**

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

**Assessment in module component 42-SEG1-2-072: Swedish Basic Level 1-2**

- 3 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Swedish
- Only after successful completion of module components: Successful completion of module component 42-SEG1-1 or of an assessment test is a prerequisite for participation in module component 42-SEG1-2.

**Assessment in module component 42-SEG1-3-122: Swedish Basic Level 1-3**

- 4 ECTS, Method of grading: numerical grade
- option 1: written multi-component examination (approx. 90 minutes total) with 4 components (reading comprehension, listening comprehension, writing, communication skills) or option 2: oral assessment (approx. 10 minutes) and written multi-component examination (approx. 60 to 90 minutes total) with 3 components (reading comprehension, listening comprehension, writing) or option 3: 2 to 4 oral assessments (approx. 30 to 60 minutes total) as well as 2 to 4 written assessments (approx. 10 to 15 pages total), all components/assessments each weighted 1:1; options will be selected and examination dates be fixed at the beginning of the course
- Language of assessment: Swedish
Only after successful completion of module components: Successful completion of module component 42-SEG1-2 or of an assessment test is a prerequisite for participation in module component 42-SEG1-3.

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

**Contents**

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of the country in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

Contents
This module deals with the challenges of the pedagogical work in schools and educational institutions for adolescents against the background of different cultures and cultural standards. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns as well as different ways of thinking and living of adolescents. At the same time, the thematic emphases are dealt with under an intercultural point of view.

Intended learning outcomes
Students have knowledge about different facets and subject areas of intercultural (adolescent) work. In dealing with the diversity of cultures and cultural interpretive patterns they command over basic intercultural key competencies. With the help of practical exercises students can transfer their knowledge to situations of their own pedagogical actions.

Courses (type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) presentation (approx. 30 minutes) or b) term paper (approx. 10 pages)

Allocation of places
Number of places: 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

</table>

### Contents

Students will get an insight into the practical interaction with children and young adults. The focus is on dealing with difficult pupils or rather with difficult situations. Due to the specific institutional context, students are encouraged to observe, analyze and reflect upon communicative and social behavior. Opportunities for action in demanding situations will be developed and tested in this exercise.

### Intended learning outcomes

Students know methods for dealing with difficult pupils or rather difficult situations and enhance their own social competence. Dealing with such situations in practice, increases the ability to practically implement concepts with children and young adults as well as the pedagogical reflective faculties. Practical exercises enable the building up of methodological competences.

Contents
The students gain insights into the practice of working with children and teenagers in an inclusive context. Via practical training they observe, analyze, and reflect upon an inclusive setting in practice and familiarize themselves with concepts of a professionally dealing with heterogeneity. Methods for differentiation when dealing with an inclusive student body are tested.

Intended learning outcomes
The students are familiar with fundamental questions of inclusion. They name various challenges that inclusion creates for the individual, society, and school. They are able to take on different perspectives and points of view concerning inclusion and base their own position on this. They elaborate basic competences for dealing with students in inclusive lesson contexts.

Courses (type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) written examination (45 to 90 minutes) or b) oral examination of one candidate each (10 to 30 minutes) or c) presentation (10 to 30 minutes) or d) presentation (10 to 20 minutes) with written elaboration (4 to 8 pages) or e) designing a seminar (approx. 45 minutes) or f) designing a class (approx. 45 minutes) or g) seminar paper (8 to 15 pages) or h) practical examination (10 to 30 minutes) or i) portfolio (30 to 45 hours total)

Allocation of places
Number of places: maximum 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

**Contents**

The students get an insight into the practice of dealing with crisis situations at school with a focus on case-related conversation and consulting competence. Future teachers are made aware of their perception of individual student crisis and learn when to consult which out-of-school institutions, if necessary.

**Intended learning outcomes**

The students have examined problems of children and teenagers in situations of crisis and realize when to contact which out-of-school institutions for help with certain special problems.

Module title
Using qualitative research methods in empirical research on teaching

Abbreviation
43-LA-empForschmeth-122-m01

Module coordinator
head of Professional School of Education (PSE)

Module offered by
Centre for Teacher Training and Educational Research (ZfL)

ECTS
3

Method of grading
(only after successful completion of module(s))

Duration
1 semester

Module level
undergraduate

Other prerequisites
--

Contents
Students will gain insights into the theory and praxis of empirical methods of classroom research. Using the example of a question and aided by working with literature, the research process is reconstructed from asking a question to evaluation and a personal, small, empirical data collection is going to be conducted.

Intended learning outcomes
Under guidance, students develop an empirical question and can by means of this question conduct an exemplary data collection. They will get to know empiricism with the help of a practical example of classroom research and become acquainted with the use of academic literature via examples from a specific empiric research area.

Courses (type, number of weekly contact hours, language — if other than German)
R (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
project (approx. 20 hours total) and oral presentation (approx. 30 minutes)

Allocation of places
Number of places: 12. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

Additional information
Course might be offered in the form of a block course.

Students who meet all prerequisites will be admitted to assessment at the assessment date immediately after the final course session. If students do not participate in assessment or do not successfully complete assessment at this date, they will have to obtain all qualifications for admission to assessment anew before registering to retake the assessment. For more information, please refer to the Prüfungsordnung für die Akademische Feststellungsprüfung zum Nachweis gesicherter Kenntnisse in Latein (examination regulations for the academic assessment examination to prove a sound knowledge of the Latin language; Kleines Latinum) of Julius-Maximilians-Universität Würzburg dated 11 September 2009 as amended from time to time.</td>
</tr>
</tbody>
</table>

Contents

In this module, students (without any previous knowledge of the Latin language) gain a solid knowledge of Latin.

Intended learning outcomes

Students develop the ability to comprehend the content, structure, and message of original Latin texts that correspond in difficulty to simpler passages from prose texts (e.g., Caesar, Nepos). Upon successful completion of the module, students will be issued the Latin language certificate Kleines Latinum that attests a "solid knowledge" of the Latin language. The certificate also attests a "knowledge" of the Latin language.

## Contents
Selected problems of Education for People with Emotional and Behavioural Disorders, group processes and processes of social learning, violence prevention, intercultural competencies in working with families with a migrant background, alternating prioritisation under the guidance of subject specialists, pedagogical support for children and juveniles from deprived areas; gender- and age-homogeneous youth group work; interest-specific group work with children and juveniles

## Intended learning outcomes
The students can independently plan, organise and hold group sessions and are able to apply legal basics such as duty of supervision in practice. They are able to work in a team and acquire leadership skills by independently cooperating with fellow students and by communicating with children and their families (self- and social competence). By combining theory and practice, the students are able to critically evaluate pedagogical theories and learn to scrutinise their own actions.

**Contents**

Principles and theories of intercultural competence, acquisition of basic terms, intercultural communication and conflicts (in theory and practice), intercultural competence training, multifactorial backgrounds of "migration-induced behavioural abnormalities", prevention and intervention measures against racism and xenophobia.

**Intended learning outcomes**

The students have basic knowledge of intercultural action and can independently apply theoretical principles of multicultural work in a reflected manner. In doing so, the students develop awareness of the effects of social changes and framework conditions on migrants and of interpersonal relationships and professional work in heterogeneous, intercultural fields of action.

**Courses** (type, number of weekly contact hours, language — if other than German)

S + S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) term paper (approx. 12 pages) or b) presentation (approx. 20 minutes) with written elaboration (approx. 8 pages) or c) written examination (approx. 60 minutes)

**Allocation of places**

Number of places: maximum 25. Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

## Contents

German contents available but not translated yet.

Theoriegrundlagen zur Integration und Akkulturation von Menschen mit Migrationshintergrund sowie bikulturell sozialisierten Kindern und Jugendlichen, Vorstellung multikultureller Praxis- und Handlungsfelder, insbesondere solcher von pädagogischer Relevanz, z.B. interkulturelle Erziehung in Bildungseinrichtungen und außerschulischen Institutionen sowie interkulturelle Beratung

## Intended learning outcomes

German intended learning outcomes available but not translated yet.

Die Studenten sind sensibilisiert für mögliche psychosoziale Belastungsreaktionen sowie migrationsbedingte Verhaltensauffälligkeiten bei Migranten und können erworbenes Wissen selbständig in der Praxis umsetzen sowie kritisch denken und reflektieren. Des Weiteren sind sie in der Lage, bestehende Konzepte zu übertragen und weiterzuentwickeln.

### Module title

**Gaining Confidence in Teaching Skills through Practical Experience in the Teach’n’LearnGarden**

### Abbreviation

07-GH-FDUBI2-121-m01

### Module coordinator

head of group Didactics of Biology

### Module offered by

Faculty of Biology

### ECTS

3

### Method of grading

Only after succ. compl. of module(s)

### (not) successfully completed

--

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

### Contents

This module has a practical focus and will teach participants how to systematically encourage a sense of nature in children and adolescents and thus make a contribution to environmental education. The course will explore how out-of-classroom activities may enhance the learning experience of pupils and will discuss what methods are appropriate. In the practical phase, participants will deliver teaching units to real groups of pupils. In the Botanical Garden of the University (or, optionally, at a school camp), participants will learn how to impart to pupils, in a didactically reduced manner, a knowledge of species and form in the context of the topics "Forest" or "Water" and will practise their skills. Large parts of the course will also be devoted to the discussion and application of a variety of (open) teaching methods that are supposed to encourage pupils, in a playful atmosphere, to develop a positive attitude and act responsibly towards nature. In this context, participants will systematically try to engage pupils on the emotional level. In the final phase of the course, participants will implement their projects with groups of pupils that come to the teach’n’learn garden (or school camp). This will encourage participants to plan their teaching in a practice-oriented manner and will provide them with an opportunity to acquire experience in their new role as teachers.

### Intended learning outcomes

Familiarity with the principles of environmental education. Familiarity with different factors that may encourage pupils to act responsibly towards nature. Insight into the fundamental scientific principles behind the respective topics. Overview of the individual contents of the teaching units to be designed. Ability to translate topics from the curriculum for the respective type of school, in a didactically reduced manner, into teaching sequences, teaching units and lessons on habitats. Knowledge of how out-of-classroom activities (in particular in a teach’n’learn garden) may enhance the learning experience of pupils. Ability to design experience-based lessons on these topics that are tailored to the age of pupils as well as to the respective type of school and local conditions.

### Courses

(type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (20 to 30 minutes) or b) term paper (7 to 10 pages)

With the help of different methods, this course offers the chance to optimize the speaker’s active vocabulary and language skills. In doing so, occasions and situations for speaking are generated in which the students interactively talk, discuss and negotiate with each other. Potential language barriers, personal inhibitions thresholds or negatively connotated situations will be reduced and canceled out with mutual sympathy and understanding. Thus, a feeling for the language, language skills, and a confident readiness of speech will emerge.

### Intended learning outcomes

Students have activated their vocabulary and can use it appropriately. They can use the English language correctly and eloquently and they actively communicate freely without inhibitions in different situations. With the help of varied methods students can learn on their own initiative and further train their communicative and language competences.

### Courses (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

### Intercultural and Interpersonal Skills - when Presenting and Delivering Speeches

**Module title**: Intercultural and Interpersonal Skills - when Presenting and Delivering Speeches

**Abbreviation**: 43-LA-IntSkills-PDSp-131-m01

**Module coordinator**: head of Professional School of Education (PSE)

**Module offered by**: Centre for Teacher Training and Educational Research (ZfL)

**ECTS**: 3

**Method of grading**: Only after succ. compl. of module(s)

**Duration**: 1 semester

**Module level**: undergraduate

**Other prerequisites**: --

---

### Contents

This course provides instructions and practical training in preparation and delivery of speeches in a variety of contexts and to audiences with diverse cultural, educational and professional backgrounds and experience. Emphasis is placed on task and audience analysis, nonverbal aspects of communication when presenting, audience involvement, pre-speech preparation, structure and organisation of speeches. Aspects like the use of spontaneity, imagination and flexibility to adjust the presentation style when needed and to involve the audience are given special consideration and training. Employing a wide range of highly creative and holistic training techniques this seminar will actively explore these aspects of speaking and train an open, personal, flexible and spontaneous approach to presenting, thus developing a repertoire of styles and a diverse range of perspectives. The course provides the teacher students at the same time with practical exercises and teaching methods to train their pupils effective presentation skills across cultures in an educational environment.

### Intended learning outcomes

Upon completing this seminar the students should be able to: - understand (public) presenting and speaking as a transactive process, - demonstrate an awareness of the importance of pre-speech preparation and post-speech appraisal, - show the capacity to analyse both task and audience and prepare the presentation or speech accordingly, - make effective use of the dynamics of spoken language including nonverbal as well as vocal aspects of communication, - know and apply a variety of holistic, interactive and student-centred teaching methods in class themselves as teachers to train the above skills.

**Contents**

This course introduces the basic concepts of the term communication, the principles of interpersonal communication, and the most important process theory-models of communication. It also provides in-depth knowledge on the practices, principles, role and significance of perception in interpersonal and intercultural communication. Emphasis is placed on sensitizing participants to intercultural and interpersonal communication processes, recognizing potential problem areas and perceptual errors, acquiring skills and techniques to avoid misunderstandings, increasing empathy, and developing active listening skills. Extensive guided practice to experience the processes of communication and perception and to acquire flexible behaviour patterns and effective forms of interpersonal and intercultural interaction are given. Immediate and creative action methods, the principles of spontaneity, and holistic training techniques will help break up personal and cultural barriers and develop open attitudes and flexible behaviours. Thus, the course provides the students at the same time with practical exercises and teaching methods to train affective and behavioural learning targets and skills in an educational environment.

**Intended learning outcomes**

Upon completing this seminar the students should be able to:

- understand the complexity of the term 'communication' and the principles of interpersonal communication,
- outline the transactional process model of communication, including the aspects of communication they incorporate (e.g. codes, messages, the concept of noise, 'shared environments' etc.),
- describe the role and significance of perception in interpersonal and intercultural communication (including one’s own perception),
- take the perspective of another person and member of another culture (empathy),
- show flexible strategies of behaviour and communication in a variety of unknown and unexpected communicative situations,
- know and apply a variety of holistic, interactive and student-centred teaching methods in class themselves as teachers to train the above skills.

**Courses**

- (type, number of weekly contact hours, language — if other than German)

Contents
This course sets out to give an insight into the different dimensions of emotional intelligence, spontaneity, creativity and imagination in communication and human interaction. Role theory as means of understanding social, interpersonal and intercultural interaction and its limits, Moreno's theories about spontaneity and creativity, his Action Method techniques, and the importance of 'warming-up' to access and unblock spontaneity and creativity will be explored theoretically and 'in action'. The participants will get to know a wide range of exercises tapping into their creative and imaginative sources to actively train flexible ways of behaviour, reaction and thinking that transcend and break up personal and cultural barriers. The course provides the teacher students at the same time with practical exercises and teaching methods to train these important key skills in a meaningful, structured and effective way in class.

**Contents**

KIK are holistic, student-centered, and action-oriented educational methods for the areas of (foreign) languages, communication, personal development, student interaction, interpersonal and intercultural competencies as well as team development. Minimalistic when it comes to preparation and directly assimilable to lessons, clearly structured techniques and settings train important key competencies such as creativity, spontaneity, and reactivity. They broaden strategies for action, flexibility considering different roles, and increase receptiveness, expressive motivation as well as expressive powers in communication. The learning-psychological optimal approaches to lessons enable students in specific action situations to experience communication and language in an individually, sensory, bodily, and emotionally direct way. Nonverbal and verbal warm-up exercises, different roles, and distancing techniques break up personal, cultural as well as linguistic barriers, providing shelter and stilling the fear of making mistakes. Sources comprise the linguistic dramaturgy (PDL) of the pedagogue Dr. Bernard Dufeu, Action Method Techniques from Jacob Levy Moreno’s psychodrama and impromptu theater as well as further holistic techniques from the Relational Approach, Silent Way, sociometry, exercises from impromptu theater and the education of actors, activities from the area of team building as well as holistic, interactive exercises that were developed by Ingrid Ebert within the scope of her work with children, adolescent and adult education.

**Intended learning outcomes**

After the intact-basic module students are able to: - develop a pedagogical basic understanding of linguistic dramaturgy (e.g. PDL) - to fully name the basic and methodic principles of the above mentioned holistic educational techniques - to describe, instruct and implement the basic techniques of e.g. PDL, mirroring, duplicating, projection and warm-up exercises in a group - taking into consideration one of the techniques with warm-up exercises introduced in the basic module, to design a plan for a lesson that can be integrated into the ongoing learning material

**Courses** (type, number of weekly contact hours, language — if other than German)

Language of assessment: German or English

Allocation of places

Number of places: 12. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

Additional information

--

Referred to in LPO I (examination regulations for teaching-degree programmes)

--
Module title: Environmental Education in the Teach'n'LearnGarden

Abbreviation: 07-GH-FDUBI1B-131-m01

Module coordinator: head of group Didactics of Biology

Module offered by: Faculty of Biology

ECTS: 2

Method of grading: Only after succ. compl. of module(s)

Duration: 1 semester

Module level: undergraduate

Other prerequisites: --

Contents:

This module has a practical focus and will teach participants how to systematically encourage a sense of nature in children and adolescents and thus make a contribution to environmental education. The course will explore how out-of-classroom activities may enhance the learning experience of pupils and will discuss what methods are appropriate. In the practical phase, participants will deliver teaching units to real groups of pupils. In the Botanical Garden of the University (or, optionally, at a school camp), participants will learn how to impart to pupils, in a didactically reduced manner, a knowledge of species and form in the context of the topics "Forest" or "Water" and will practise their skills. Large parts of the course will also be devoted to the discussion and application of a variety of (open) teaching methods that are supposed to encourage pupils, in a playful atmosphere, to develop a positive attitude and act responsibly towards nature. In this context, participants will systematically try to engage pupils on the emotional level. In the final phase of the course, participants will implement their projects with groups of pupils that come to the teach’n'learn garden (or school camp). This will encourage participants to plan their teaching in a practice-oriented manner and will provide them with an opportunity to acquire experience in their new role as teachers.

Intended learning outcomes:

Familiarity with the principles of environmental education. Familiarity with different factors that may encourage pupils to act responsibly towards nature. Insight into the fundamental scientific principles behind the respective topics. Overview of the individual contents of the teaching units to be designed. Ability to translate topics from the curriculum for the respective type of school, in a didactically reduced manner, into teaching sequences, teaching units and lessons on habitats. Knowledge of how out-of-classroom activities (in particular in a teach’n'learn garden) may enhance the learning experience of pupils. Ability to design experience-based lessons on these topics that are tailored to the age of pupils as well as to the respective type of school and local conditions.

Courses (type, number of weekly contact hours, language — if other than German):

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 07-GH-FDUBI1-1-131: S (no information on SWS (weekly contact hours) and course language available)
- 07-GH-FDUBI1B-2-131: Ü + E (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German — examination offered — if not every semester, information on whether module can be chosen to earn a bonus):

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 07-GH-FDUBI1-1-131: Environmental Education applying a Variety of Teaching Methods in the Teach’n’LearnGarden (Seminar)

- 1 ECTS, Method of grading: (not) successfully completed
- a) presentation (20 to 30 minutes) or b) term paper (7 to 10 pages)

Assessment in module component 07-GH-FDUBI1B-2-131: Environmental Education in the Teach’n’LearnGarden (Practice) Environmental Education in the Teach’n’LearnGarden (Practice)

- 1 ECTS, Method of grading: (not) successfully completed
- a) presentation (20 to 30 minutes) or b) term paper (7 to 10 pages)

### Duration
1 semester

### Module level
undergraduate

### Contents
Practical units in the teach'n'learn garden with teaching degree students supervising groups of pupils; helping pupils answer questions on the topics discussed in the teach'n'learn garden. Questionnaires and evaluations to determine and discuss how effective the units in the teach’n’learn garden were.

### Intended learning outcomes
Knowledge of both traditional and modern methods in biology. Ability to forge and maintain links with out-of-classroom learning environments. Knowledge of how out-of-classroom sessions in the teach’n’learn garden may be incorporated into biology lessons. Overview of current topics in didactics as well as potential developments in research on biology didactics. Ability to assess and evaluate the cognitive learning achievement of pupils.

**Contents**

This module is designed to teach key skills in academic writing. Trained student mentors instruct their peers on how to prepare and plan the process of writing an academic text and how to go about academic research. They also offer advice on writing foreign-language texts and help students practise writing a diverse range of texts that are relevant in their fields of study. Regular completion of actual writing tasks is a core component of this course. Along with peer feedback, students receive feedback and support from their student mentors to enable them to master the specific requirements set by their fields of study.

**Intended learning outcomes**

Students achieve an overview of academic writing techniques and essentials as well as citation methods and best academic practice. Having been provided with expert training in academic writing methods, they will be capable of writing any text in their field of study appropriately, with stylistic confidence and using the correct format.

**Courses** (type, number of weekly contact hours, language — if other than German)

K (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

written elaboration (approx. 10 pages total)

**Allocation of places**

Number of places: maximum 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Applicants from the Bachelor’s degree subjects of the Faculty of Arts will be given preferential consideration. The remaining places will be allocated to students of other subjects. These places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

### Contents

This module is designed to teach key skills when it comes to learning techniques and strategies as well as time management. In workshops and mentoring sessions, trained mentors will teach students memory techniques such as networking. In addition, students will receive concrete advice on how to effectively organise their time, they will learn how to use various organisational aids and will acquire methods for the organisation of their exam preparation. Making practical use of the methods acquired is a core component of this course. Upon request, students will receive support with their own learning tasks and feedback from their student mentors.

### Intended learning outcomes

Students gain an overview of learning techniques and essentials as well as time management. They will be able to fulfil tasks in their field of study quickly, pertinently and to a deadline. This will enable them to prepare for exams proficiently and in good time.

### Contents
This module is designed to teach key skills in presentation, group leadership and information literacy. Particular emphasis is on students learning to present academic content accurately and appropriately as well as getting to grips with the technical features of relevant software and hardware. In addition to providing students with support on current degree programme-related presentation projects, trained student mentors offer workshops and mentoring sessions on presentation techniques as well as on suitable behaviour when giving a presentation and dealing with feedback. The practical use of the methods acquired is an essential part of the course. Upon request, students receive support with their own learning tasks and feedback from their student mentors.

### Intended learning outcomes
By the end of the course, students will possess the following skills and key strengths to go about their studies successfully: essentials of group leadership and presentation, ability to apply established academic conduct methods, academic presentation practice and information literacy. They will also be able to effectively operate visual representation programs.

### Contents
With the help of dealing with different approaches, the module wants to raise awareness for the topic of discrimination and to balance out a social imbalance caused by bias and prejudice. The dealt with approaches are opposed to any kind of discrimination and oppression. In doing so, individual biases, positioning of power and experiences of discrimination are addressed in relevance to social inequality.

### Intended learning outcomes
The students are aware of social and individual forms of discrimination by dealing with different approaches to gender and discrimination issues and are able to face such problem areas in a solution-oriented way. Within specific fields of application such as schools and education, students are able to apply practical measures purposefully.

**Contents**

Manifestations of discrimination and sexual identity in social norms and laws and their relevance for educational contexts: schools play an important role in the practice of key competences for the work life. Within the scope of anti-discrimination laws, this entails to learn to respect the diversity of others. To address the feature of "sexual identity" in this context is necessary because this topic has often been neglected. While this attitude has become natural for the features "gender", "ethnic origin", and "disability", the educational community still struggles with the aspect of "sexual orientation". Within the scope of educational laws to approach the interdisciplinary and equal portrayal of all forms of sexual orientation, mechanism of action of power relations in groups, prejudices, and discrimination are worked out. The focus is on the category of "sexual identity".

**Intended learning outcomes**

The students are aware of social and individual forms of discrimination by dealing with different approaches to gender and discrimination issues and are able to transfer this to the category of "sexual identity" in a solution-oriented way. They are able to interdisciplinary take different aspects of "sexual identity" into consideration in the context of schools and other educational contexts.

**Contents**

The module functions as the preparation for the subsequent excursion to schools in different European countries. The course includes facts about the history, culture, society, and other aspects of the target culture. Furthermore, students will acquire knowledge about the structure of teacher training, schools and higher education systems of the respective country in order to compare them to the German educational system. Additionally, students are prepared in an intercultural way for the respective country. This will form the basis for the mutual exchange.

**Intended learning outcomes**

Students are able to reflect upon and discuss about similarities and differences of international educational systems in comparison with the German educational system. They can discuss different aspects of educational systems in respect to migration and intercultural learning. They recognize and can assess historic, social, cultural and political effects on educational systems.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (approx. 30 minutes) or b) term paper (approx. 10 pages) or c) portfolio (approx. 45 hours total)

**Allocation of places**

Number of places: 15. Places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available. Provided there is enough capacity, the same course will be offered several times in parallel as a mandatory elective. This means that the number of available places might increase to 20.

**Additional information**

The lecturer can decide to replace a seminar (S) with a field trip (E).

</tbody>
</table>

### Contents

Based on a number of working steps, students' own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).

### Intended learning outcomes

The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.

### Contents

Reflection upon their own role as a teacher trainee and future teacher; Self- and time-management; Image of the self and the other; goal-oriented use of media; theme-centered use of teaching methods.

### Intended learning outcomes

Students are able to reflect about their own role and to constructively include difference between their image of themselves and the image of the other. They command over a basic know-how and repertoire of methods. In the interplay of their role, the image of themselves and of the other as well as an appropriate repertoire of media and methods, students are able to didactically process acquired contents of their discipline while taking into consideration the addressee.

### Contents

The students gain an insight into teaching practice. The focus lies on the conveyance of teaching methods and methods for individual advancement in the classroom. Through observations, coaching projects, internships or purposeful assignments inside or outside the classroom, the students have their own practical education and teaching experiences.

### Intended learning outcomes

The students learn about various kinds of teaching methods and methods for individual advancement and differentiation. They are familiar with concepts about professional action in the classroom and about dealing with heterogeneity and difference. The acquired knowledge about teaching can already be applied in some cases.

--

### Contents
As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or social school work. In various areas of occupation, such as the "fostering of psychosocial competence" or the diverse tasks of networking the tasks of social school work are presented in their different aspects.

### Intended learning outcomes
Students have gained insights into the diverse areas of responsibility of social school work. Because of their focus on "psychosocial competences" they are experienced in the application of psychosocial methods of the social school workers and are able to choose and apply them adequately, reflect upon them critically and broaden them independently. Alternatively, with the focus on "networking", the students have basic knowledge about institutions and some experience in committees, and are familiar with tasks, competence and procedures in social school work and are thus able to coordinate the different requirements.

### Referred to in LPO I
(examination regulations for teaching-degree programmes)

--
Module title: School social work: focus on projects

Abbreviation: 43-SchulSozPro-132-m01

Module coordinator: head of Professional School of Education (PSE)

Module offered by: Centre for Teacher Training and Educational Research (ZfL)

ECTS: 3

Method of grading: Only after succ. compl. of module(s)

only (not) successfully completed:

Duration: 1 semester

Module level: undergraduate

Other prerequisites: --

Contents:

As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or school social work and gives the students the opportunity to participate in the concrete pedagogical work with a professional focus on "projects", or to bring their own small projects to fruition.

Intended learning outcomes:

The students have gained an insight into the diverse task areas of a teacher at the level of lower secondary education. They are experienced in carrying out projects of social school work and are able to use those as a basis for the development of their own pedagogical projects. They have furthered their own methodic competence and are able to use it purposefully, reflect upon it critically and broaden it independently.

Courses:

(type, number of weekly contact hours, language — if other than German)

R (no information on SWS (weekly contact hours) and course language available)

Method of assessment:

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (approx. 30 minutes) or b) term paper (approx. 10 pages) or c) portfolio (approx. 45 hours total)

Allocation of places:

Number of places: 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

## Contents

Pedagogical concepts in schools are constantly developed further. To that end, different instruments and the committees included in this process are portrayed in their collaboration. Theoretical principles of educational development and evaluation; visiting schools, application of evaluation instruments and analysis of evaluation results; planning of intervention methods in the planning of educational development.

## Intended learning outcomes

Students have experienced the pedagogical work in schools as a process that is subject to a constant development. They know the principles of educational evaluation models as instruments of educational development. They have basic knowledge using evaluation instrument, their application, implementation, and evaluation. They are able to choose appropriate intervention models on the basis of evaluation results.

## Courses

R (no information on SWS (weekly contact hours) and course language available)

## Method of assessment

(a) project report (approx. 10 pages) or (b) presentation (approx. 30 minutes)

### Contents

The module deals with basic questions and challenges of inclusion. It opens up different perspectives towards inclusion and elaborates particularly on questions and tasks that inclusion creates in everyday school life under the conditions of specific kinds of schools. Possible answers and solutions are elaborated and discussed.

### Intended learning outcomes

The students know about fundamental questions of inclusion. They can name various challenges that inclusion creates for the individual, society and school. They are able to take on different perspectives and points of view towards inclusion and base their own position on this. They are aware of the school type specific conditions and goals in connection with inclusion. They elaborate basic competences for dealing with students in inclusive lesson contexts.

**Contents**

The module deals with the challenges that pupils in a state of crisis might pose for the entity of school and lessons. This is done from a subject specific point of view. It points out subject specific questions and tasks that involved schools, people and lessons have to face. Possible options for support -- also out-of-school institutions -- are presented. Possible answers and approaches for the teacher in a specific subject are elaborated and discussed.

**Intended learning outcomes**

The students know about basic problems of pupils in situations of crisis -- also from a subject specific point of view. They are able to adopt different perspectives. They know where to get help and support (not limited to their school and profession) and are able to make use of this knowledge. They develop subject specific, basic competences and attitudes when dealing with students in situations of crisis.

**Contents**

Students observe, analyze and reflect upon the education of a school abroad. They obtain information about the local conditions and the organization of the school. The exchange with the teachers facilitates reflection of the observed lesson process. The participation in project days and other school activities can improve the learning process through the interaction with the students.

**Intended learning outcomes**

The students can observe and analyze lessons with a special focus on teaching methods and the behavior of the teacher and the pupils. They recognize the learning potentials and interests of individual students. The observed results can be summarized and reflected upon in written form.

**Contents**

During the courses German as a Second Language or GFL, students will deal with key issues, ideas, approaches and methods of the course. They will become familiar with the acquisition and advanced structures of oral and written language acquisition for learners of German as a Second Language and acquire basic principles of migration and integration research, which is an essential part of the course. A concretisation of the methods will take place in terms of language and literature imparting in all school forms, taking account of the learning conditions of the students that learn German as a Second Language. Furthermore, the implementation of a course in all subjects, which will give students the chance to speak in this language in order to promote the feeling for the language, will be discussed.

**Intended learning outcomes**

Students acquire fundamental knowledge of mediation processes of German as a Second Language or of a specialised class in all disciplines, which will give students the chance to speak in this language in order to promote the feeling for the language, referring to current research and including practical school challenges. They will be familiar with current problem areas and tasks, which are necessary for the professional skills in order to plan, implement and reflect an own class, of a contemporary specialised class. In doing so and in terms of increasing self-competence, the students develop a basic understanding of a theory-driven, practice-oriented, subject related and in pedagogical contexts involved instructional dealing. Here, they can understand and integrate particular learning initial situations of non-native learners.

**Contents**

Information literacy in an academic context: search strategies, resources, online searches, etc.

**Intended learning outcomes**

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline(s) and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their papers.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Contents
The aim of the module is to produce a professional video clip (broadcasts). Therefore, the principles of audio and video work, e.g. lighting engineering, camera settings, editing, montage, and professional recording of audio tracks, are conveyed during the course. Afterwards, the students apply their acquired skills to practical projects at the video / recording studio. Finally, the resulting audiovisual materials are converted into different target formats for the internet, live streams etc.

Intended learning outcomes
Basic skills regarding the proper usage of professional audio and video technology, basic skills in lighting engineering, postproduction (e.g. for various platforms), planning and designing broadcasts.

Courses
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment
project including presentation (approx. 20 minutes) and/or written elaboration (approx. 2 to 3 pages)

Allocation of places

In this module, students (without any previous knowledge of the Latin language) gain a solid knowledge of Latin.

**Intended learning outcomes**

Students develop the ability to comprehend the content, structure, and message of original Latin texts that correspond in difficulty to simpler passages from prose texts (e.g., Caesar, Nepos). Upon successful completion of the module, students will be issued the Latin language certificate Kleines Latinum that attests a "solid knowledge" of the Latin language. The certificate also attests a "knowledge" of the Latin language.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü + Ü + Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Written examination (approx. 180 minutes) For more information, please refer to the Prüfungsordnung für die Akademische Feststellungsprüfung zum Nachweis gesicherter Kenntnisse in Latein (examination regulations for the academic assessment examination to prove a sound knowledge of the Latin language; Kleines Latinum) of Julius-Maximilians-Universität Würzburg dated 11 November 2009 as amended from time to time.

Assessment offered: once a year

Language of assessment: German and Latin

**Allocation of places**

Number of places: 5-60. Places will be allocated by lot.

**Contents**

Students will gain background knowledge about different cultures and intercultural aspects of these cultures. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns, as well as different ways of living and thinking. At the same time, thematic emphases are treated under an intercultural point of view. With the help of practical exercises students can transfer their knowledge to situations of their own (pedagogical) actions.

**Intended learning outcomes**

Students have knowledge about cultures, cultural standards and intercultural connections. They are able to reflect and discuss about similarities and differences of different cultures. Via dealing with the diversity of cultures and cultural interpretative patterns they gain essential intercultural key competencies as well as self and social competencies. Practical exercises enable them to establish methodical competencies.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) talk (approx. 30 minutes) with handout (approx. 2 pages) or b) term paper (approx. 10 pages) or c) portfolio (approx. 60 hours total) or d) presentation (approx. 15 minutes) and written elaboration (approx. 5 pages)

**Allocation of places**

Number of places: 25. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

Service Learning Study Workshop

Module title
Abbreviation
04-SW-SL-142-m01

Module coordinator
module coordinator at the Faculty of Arts

Module offered by
Office of the Dean of the Faculty of Arts

ECTS
Method of grading
Only after succ. compl. of module(s)
3 (not) successfully completed --

Duration
Module level
Other prerequisites
1 semester undergraduate --

Contents
This module is designed to teach key skills in the principles of teaching. Students receive special training to become student mentors and broaden and consolidate their knowledge and skills through interactive workshops and relevant learning methods. Students carry out voluntary work, teaching Oberstufe students at cooperating Gymnasien (German high schools) the essentials of academic writing. They receive support and assistance at every stage of the project, mostly in the form of feedback sessions with their teachers.

Intended learning outcomes
Students will gain subject-specific, methodical and personal skills they will later apply when teaching the fundamental principles and techniques of academic writing. The knowledge they gain in the first part of the course will enhance the academic writing skills as well as the teaching skills of students and will thus qualify them for their role as student mentors. This module includes voluntary work in schools, an experience the students will not only benefit from on a personal level but that will also enhance their social skills.

Courses (type, number of weekly contact hours, language — if other than German)
S (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
report (approx. 10 pages)

Allocation of places
Number of places: maximum 10. Places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot.

**Contents**

Information literacy in an academic context: search strategies, resources, reference management, copyright, etc.

**Intended learning outcomes**

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline(s) and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their papers.

**Courses**

(UC) (no information on SWS (weekly contact hours) and course language available)

### Contents

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

### Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

### Courses

(No information on SWS (weekly contact hours) and course language available)

Ü (no information on SWS (weekly contact hours) and course language available)

### Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (7 to 10 pages and 5 to 10 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

### Allocation of places

Number of places: 5-25. Places will be allocated by lot.

Contents

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (7 to 10 pages and 5 to 10 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Abbreviation: 42-ENG-M1-142-m01

Module coordinator: head of Language Centre (ZFS)

Module offered by: Language Centre (ZFS)

ECTS: 5

Method of grading: numerical grade

Only after succ. compl. of module(s): --

Duration: 1 semester

Module level: undergraduate

Other prerequisites: --

Contents:

In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

Intended learning outcomes:

Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German):

Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus):

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (7 to 10 pages and 5 to 10 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Language of assessment: English

Contents
This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

Intended learning outcomes
Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

Contents

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students’ opportunities to succeed at university in their host countries.

Intended learning outcomes

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students’ opportunities to succeed at university in their host countries.

Courses

(type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (7 to 10 pages and approx. 15 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class. Assessment offered: in the semester in which the course is offered

Language of assessment: Italian

Allocation of places

Number of places: 5-25. Places will be allocated by lot.

### Other prerequisites
Required level of language proficiency: B1+. To be considered to have achieved the required level of language proficiency, students must a) have completed an assessment test with a certain score or b) have successfully completed the following modules in the respective language:
- A1: module Grundstufe A1 (Basic Level A1) or modules Grundstufe A1.1 (Basic Level A1.1) and Grundstufe A1.2 (Basic Level A1.2)

### Contents
In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

### Intended learning outcomes
Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with knowledge and skills that will enable them to act and communicate in intercultural situations. It familiarises them with criteria and options for action and equips them with knowledge that will allow them to adequately interpret intercultural situations and act appropriately.

**Intended learning outcomes**

Students develop advanced intercultural and language skills that will allow them to communicate, both verbally and in writing, in a globalised world, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses**

(type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (7 to 10 pages and approx. 15 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class. Language of assessment: English

**Allocation of places**

Number of places: 5-25. Places will be allocated by lot.

**Contents**

This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, at university and in business settings.

**Intended learning outcomes**

Students gain sound business- and economics-specific communication skills (written and oral) in the target language. They develop advanced business- and economics-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in business and economics terminology and are able to communicate effectively within the discipline. At the end of the stage, they will have developed business- and economics-specific language skills that are equivalent to level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Contents

This module familiarises students with the culture and society of countries where the target language is spoken and thus enables them to act appropriately in the target language. It discusses the culture, geography, history, society, political system, and the economy of said countries.

Intended learning outcomes

Students develop highly advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. Students are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Module title | Abbreviation
---|---
French - Advanced Level (C1) - French for Business A | 42-FRA-O-W1-142-m01

Module coordinator | Module offered by
head of Language Centre (ZFS) | Language Centre (ZFS)

ECTS | Method of grading | Only after succ. compl. of module(s)
3 | numerical grade | --

Duration | Module level | Other prerequisites
1 semester | undergraduate | Required level of language proficiency: B1+. To be considered to have achieved the required level of language proficiency, students must a) have completed an assessment test with a certain score or b) have successfully completed the following modules in the respective language: A1: module Grundstufe A1 (Basic Level A1) or modules Grundstufe A1.1 (Basic Level A1.1) and Grundstufe A1.2 (Basic Level A1.2) - A2: module Grundstufe A2 (Basic Level A2) - B1: module Grundstufe B1 (Basic Level B1) - B1+: module Mittelstufe B1 (Intermediate Level B1) - B2: module Mittelstufe B2 (Intermediate Level B2) as well as other appropriate certificates

Contents
This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, at university and in business settings.

Intended learning outcomes
Students gain sound business- and economics-specific communication skills (written and oral) in the target language. They develop advanced business- and economics-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in business and economics terminology and are able to communicate effectively within the discipline. At the end of the stage, they will have developed business- and economics-specific language skills that are equivalent to level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)
Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (7 to 10 pages and approx. 15 minutes): Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class. Assessment offered: in the semester in which the course is offered
Language of assessment: French

Allocation of places
Number of places: 5-25. Places will be allocated by lot.

**Contents**

This module familiarises students with the culture and society of countries where the target language is spoken and thus enables them to act appropriately in the target language. It discusses the culture, geography, history, society, political system, and the economy of said countries.

**Intended learning outcomes**

Students develop highly advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. Students are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (no information on SWS (weekly contact hours) and course language available)

### Module level
undergraduate

### Other prerequisites
Required level of language proficiency: B1+. To be considered to have achieved the required level of language proficiency, students must a) have completed an assessment test with a certain score or b) have successfully completed the following modules in the respective language:

- **A1**: module Grundstufe A1 (Basic Level A1) or modules Grundstufe A1.1 (Basic Level A1.1) and Grundstufe A1.2 (Basic Level A1.2)
- **A2**: module Grundstufe A2 (Basic Level A2)
- **B1**: module Mittelstufe B1 (Intermediate Level B1)
- **B1+**: module Mittelstufe B1 (Intermediate Level B1)

### Contents
This module equips students with knowledge and skills that will enable them to act and communicate in intercultural situations. It familiarises them with criteria and options for action and equips them with knowledge that will allow them to adequately interpret intercultural situations and act appropriately.

### Intended learning outcomes
Students develop advanced intercultural and language skills that will allow them to communicate, both verbally and in writing, in a globalised world, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

## Contents
In this module, students (without any previous knowledge of the Latin language) gain a solid knowledge of Latin.

## Intended learning outcomes
Students develop the ability to comprehend the content, structure, and message of original Latin texts that correspond in difficulty to simpler passages from prose texts (e.g., Caesar, Nepos). Upon successful completion of the module, students will be issued the Latin language certificate Kleines Latinum that attests a "solid knowledge" of the Latin language. The certificate also attests a "knowledge" of the Latin language.

Contents

Working in pairs, students independently learn to successfully communicate and act in intercultural situations. They enhance both their language and their intercultural skills in concrete contact situations, working on topics and exercises of their choice.

Intended learning outcomes

Students gain the ability to set their own learning goals and to achieve these together with a partner. They expand both their language and their intercultural skills in areas of their choice, use learning strategies, and continuously document and reflect on their learning progress.

Courses (type, number of weekly contact hours, language — if other than German)

**Contents**

Based on a number of working steps, students' own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).

**Intended learning outcomes**

The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

The students gain insights into the practice of working with children and teenagers in an inclusive context. Via practical training they observe, analyze, and reflect upon an inclusive setting in practice and familiarize themselves with concepts of a professionally dealing with heterogeneity. Methods for differentiation when dealing with an inclusive student body are tested.

**Intended learning outcomes**

The students are familiar with fundamental questions of inclusion. They name various challenges that inclusion creates for the individual, society, and school. They are able to take on different perspectives and points of view concerning inclusion and base their own position on this. They elaborate basic competences for dealing with students in inclusive lesson contexts.

**Courses** (type, number of weekly contact hours, language — if other than German)

### Contents

The module deals with subject specific questions and challenges of inclusion. It opens up different perspectives towards inclusion and elaborates particularly on the subject specific questions and tasks that inclusion creates in a specific subject. Possible answers and solutions are elaborated and discussed.

### Intended learning outcomes

The students know about subject specific questions of inclusion. They know about subject specific concepts, methods and models and are able to grasp them in relation to lessons in inclusive contexts. They adopt basic competences for teaching subjects in an inclusive setting.

### Courses (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (45 to 90 minutes) or b) presentation (10 to 20 minutes) with written elaboration (4 to 8 pages) or c) designing a class (approx. 45 minutes) or d) seminar paper (8 to 15 pages) or e) practical examination (10 to 30 minutes) or f) portfolio (30 to 45 hours total)

### Allocation of places

Number of places: 15. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

### Contents

The module deals with basic questions and challenges of inclusion. It opens up different perspectives towards inclusion and elaborates particularly on questions and tasks that inclusion creates in everyday school life under the conditions of specific kinds of schools. Possible answers and solutions are elaborated and discussed.

### Intended learning outcomes

The students know about fundamental questions of inclusion. They can name various challenges that inclusion creates for the individual, society and school. They are able to take on different perspectives and points of view towards inclusion and base their own position on this. They are aware of the school type specific conditions and goals in connection with inclusion. They elaborate basic competences for dealing with students in inclusive lesson contexts.

### Courses (type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

### Contents

The students get an insight into the practice of dealing with crisis situations at school with a focus on case-related conversation and consulting competence. Future teachers are made aware of their perception of individual student crisis and learn when to consult which out-of-school institutions, if necessary.

### Intended learning outcomes

The students have examined problems of children and teenagers in situations of crisis and realize when to contact which out-of-school institutions for help with certain special problems.

**Contents**

The module deals with the challenges that pupils in a state of crisis might pose for the entity of school and lessons. This is done from a subject specific point of view. It points out subject specific questions and tasks that involved schools, people and lessons have to face. Possible options for support -- also out-of-school institutions -- are presented. Possible answers and approaches for the teacher in a specific subject are elaborated and discussed.

**Intended learning outcomes**

The students know about basic problems of pupils in situations of crisis -- also from a subject specific point of view. They are able to adopt different perspectives. They know where to get help and support (not limited to their school and profession) and are able to make use of this knowledge. They develop subject specific, basic competences and attitudes when dealing with students in situations of crisis.

Advanced Issues of theological Ethics

Abbreviation

01-ET-SEFRU-142-m01

Module coordinator

holder of the Chair of Moral Theology

Module offered by

Faculty of Catholic Theology

ECTS

3

Method of grading

numerical grade

Only after succ. compl. of module(s)

Duration

1 semester

Module level

undergraduate

Other prerequisites

--

Contents

Investigating specific problems in ethics, this module explores the topics discussed in the lecture on the fundamental principles of theological fundamental ethics in more detail and gives students the opportunity to develop a more thorough understanding of different approaches to ethics. The module aims to equip students with a comprehensive theoretical background of topics for the religious education and ethics classroom. Topics to be discussed include: models for the constitution and justification of ethical norms; models in ethics, e.g.: deontological ethics, virtue ethics, discourse ethics; approaches to theological ethics.

Intended learning outcomes

At the end of the course, students will have developed a thorough understanding of key approaches to philosophical and theological ethics. They will have a sound background knowledge that will enable them to teach topics in religion and ethics that are required by the curriculum in an appropriate manner that is tailored to their pupils’ needs.

### Contents

Students are introduced to selected topics in church history and historical theology. They develop specialised and methodical skills.

### Intended learning outcomes

At the end of the course, students will have developed a knowledge of selected topics in historical theology as well as subject-specific transferable skills. They will be able to situate events, developments, and major figures in church history within their historical context and will have developed an awareness of the impact they had. Students will have developed hermeneutical skills that will enable them to critically evaluate historical sources. They will be able to use research methods in historical theology and to make their findings (somewhat) relevant to contemporary issues.

Contents

Selected topics in canon law that relate to the relevant school curricula (topics will vary from semester to semester). Key legal issues relating to religious education and the role of religious education teacher.

Intended learning outcomes

At the end of the course, students will have developed the ability to identify topics in canon law that are relevant to classroom practice and to teach in a manner that complies with canon law requirements. They will have become familiar with the legal framework for religious education in schools as well as with the key legal issues facing religious education teachers.

### Contents

In this course we use the examples of first aid and lifesaving to discuss and practise the basics of helping and rescuing. We study central aspects relevant to school with and without reference to school sports. These aspects include specific behaviour guidelines and rescue measures in the fields of supervision of pupils during swimming lessons and first aid.

### Intended learning outcomes

The students acquire basic skills in first aid and lifesaving. The course raises awareness of measures to prevent and avoid accidents, especially when it comes to planning and conducting physical education classes. Furthermore, the students acquire skills in the field of safety assessment and hazard prevention in the context of extracurricular physical activities. During the lifesaving lessons, they learn how to rescue themselves and others.

### Courses

**Contents**

Information literacy in an academic context: search strategies, resources, reference management, copyright, etc.

**Intended learning outcomes**

Students know what information is needed for what purpose. They are able to locate information that is relevant within their discipline(s) and beyond in a variety of resources and to evaluate this information. They recognise the difference in quality between information they have retrieved from specific, restricted access resources (databases) and information they have found on the free web. The module aims to equip students with the skills needed to find information and literature that is relevant to the topics of their papers.

**Contents**

Chalk and talk teaching, carousel activities, unguided experimentation. There are many ways to communicate knowledge to groups of pupils. Out-of-classroom learning has been gaining in importance. In interdisciplinary contexts, it is particularly important to draw attention to the fact that looking at a topic from a "different" point of view may facilitate learning. This course will provide students with a practical introduction to knowledge-based and experience-based learning methods. Some of these methods will be adapted to be appropriate for specific topics and will be implemented with groups of pupils. This course will present students with an opportunity to find out what methods they feel comfortable with and whether students like or dislike the respective methods.

**Intended learning outcomes**

Students are familiar with practical methods for teaching groups in an effective and lively way.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

Groups are diverse, their members have different personalities. Groups are also dynamic entities. How do we deal with these groups? What do we have to expect? How do we come across to groups and how can we adjust to their needs? How can we get the individual members interested in or even enthusiastic about the topics we are teaching? This module will focus on different groups and their expectations. You will learn and try out some of the tricks of the teaching trade.

**Intended learning outcomes**

Ability to effectively work with groups. Ability to confidently interact with groups.

**Contents**

During the courses German as a Second Language or GFL, students will deal with key issues, ideas, approaches and methods of the course. They will become familiar with the acquisition and advanced structures of oral and written language acquisition for learners of German as a Second Language and acquire basic principles of migration and integration research, which is an essential part of the course. A concretisation of the methods will take place in terms of language and literature imparting in all school forms, taking account of the learning conditions of the students that learn German as a Second Language. Furthermore, the implementation of a course in all subjects, which will give students the chance to speak in this language in order to promote the feeling for the language, will be discussed.

**Intended learning outcomes**

Students acquire fundamental knowledge of mediation processes of German as a Second Language or of a specialised class in all disciplines, which will give students the chance to speak in this language in order to promote the feeling for the language, referring to current research and including practical school challenges. They will be familiar with current problem areas and tasks, which are necessary for the professional skills in order to plan, implement and reflect an own class, of a contemporary specialised class. In doing so and in terms of increasing self-competence, the students develop a basic understanding of a theory-driven, practice-oriented, subject related and in pedagogical contexts involved instructional dealing. Here, they can understand and integrate particular learning initial situations of non-native learners.

**Courses**

(type, number of weekly contact hours, language — if other than German)

S (no information on SWS (weekly contact hours) and course language available)

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (45 to 90 minutes) or b) presentation (10 to 20 minutes) with written elaboration (4 to 8 pages) or c) designing a class (approx. 45 minutes) or d) seminar paper (8 to 15 pages) or e) practical examination (10 to 30 minutes) or f) portfolio (30 to 45 hours total)

**Allocation of places**

Number of places: 25. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: Places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available. Option 2: Places will be allocated according to the number of subject semesters. A waiting list will be maintained and places re-allocated as they become available.

Introduction to the extracurricular site "museum" with focus on the educational work and the transfer of knowledge, which is implemented there. According to the definition of the International Council of Museum (ICOM), a museum is a "not-for-profit institution that serves society and their development, that is open to the public and that collects, preserves, examines, imparts and exhibits material remains of the human and its ambient environment for study, education and entertainment purposes".

**Intended learning outcomes**
Students acquire a broad overview knowledge concerning the institution museum and the related history, tasks and current problems. They are able to apply a museum educational working method to the extracurricular learning site museum practically. They achieve a museum educational and specific background knowledge that can be applied to the school practice.

**Courses**

## Contents

An advanced knowledge of biblical Hebrew.

## Intended learning outcomes

At the end of the course, students will have developed advanced biblical Hebrew language skills. They will have developed the ability to read, understand, and interpret texts written in biblical Hebrew and will thus be able to engage in specialised biblical studies.

## Courses (type, number of weekly contact hours, language — if other than German)

| Ü (3) |

## Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 120 minutes) and b) oral examination of one candidate each (approx. 15 minutes)

Assessment offered: Once a year, summer semester

Language of assessment: German/Hebrew

## Allocation of places

max. 25 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

## Additional information

--

Referred to in LPO I (examination regulations for teaching-degree programmes)

### Contents

Aiming to give students the opportunity to develop a comprehensive picture of contemporary research, this module includes traditional lectures and seminars as well as lecture series, panel discussions, and field trips.

### Intended learning outcomes

At the end of the module, students will have developed the ability to reflect upon the knowledge they have gained as well as to present it and discuss it in the context of theory construction in theology.

### Courses (type, number of weekly contact hours, language — if other than German)

V (2)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) oral examination of one candidate each (approx. 15 minutes) or b) portfolio (2 to 4 assessments, approx. 15 hours total)

### Contents

This course gives an overview of topics in Protestant religious education and discusses selected topics in more detail. Focus: teaching and learning in the religious education classroom from an education theory point of view.

### Intended learning outcomes

At the end of the course, students will have developed the ability to recognise that religious phenomena constitute topics in religious education as well as to reflect upon them. In addition, they will be able to interrelate them with topics in religious socialisation theory. Students will be familiar with historical, systematic, and empirical dimensions of religious education and will have developed the ability to describe approaches to understanding religion(s), pedagogy, and education as well as to identify the epistemic principles underlying them.

### Courses

### Contents
Essential knowledge and skills for teaching religious education in out-of-classroom learning environments. Identification of cultural sites that present suitable conditions for teaching topics in religion. Designing out-of-classroom activities that can be undertaken at these sites and are suitable for the age group the students are teaching.

### Intended learning outcomes
At the end of the course, students will be able to find and describe out-of-classroom learning environments, to situate them within their religious-hermeneutic context, and to interpret them in this context. In addition, students will be able to identify how out-of-classroom activities may enhance the learning experience of pupils in religious education, develop criteria for the identification of suitable out-of-classroom learning environments, and design learning scenarios that are appropriate for the age group they are teaching.

### Contents

Inclusion - an issue that touches many aspects of daily life and an important issue for Protestant religious education teachers.

**Intended learning outcomes**

At the end of the course, students will have become familiar with the historical development and political history of the inclusion movement as well as with approaches to understanding the concept of inclusion. They will have become familiar with the relevance the inclusion paradigm has to theology and will be able to develop topics in religious education with a view to teaching within an inclusive classroom. In addition, students will be able to analyse, discuss, and evaluate approaches to inclusive teaching in the religious education classroom.

Module title: School and Museum - Extracurricular Education and Learning in Museums
Abbreviation: 04-Muspäd-LA-152-m01

Module coordinator: holder of the Professorship of Museum Studies
Module offered by: Professorship of Museum Studies

ECTS: 5
Method of grading: only after successful completion of module(s)

Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents
Introduction to the extracurricular site "museum" with focus on the educational work and the transfer of knowledge, which is implemented there. According to the definition of the International Council of Museum (ICOM), a museum is a "not-for-profit institution that serves society and their development, that is open to the public and that collects, preserves, examines, imparts and exhibits material remains of the human and its ambient environment for study, education and entertainment purposes".

Intended learning outcomes
Students acquire a broad overview knowledge concerning the institution museum and the related history, tasks and current problems. They are able to apply a museum educational working method to the extracurricular learning site museum practically. They achieve a museum educational and specific background knowledge that can be applied to the school practice.

### Contents

This module equips students (without any previous knowledge of the target language) with basic skills in the target language which will allow them to orient themselves in basic situations in the target language.

### Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. When they read or listen to texts, they will understand familiar, everyday expressions and very simple sentences. Students will be able to speak and write in the target language, using simple phrases. At the end of the module, students will have developed skills in the target language that are equivalent to level “A1 -- Breakthrough” of the Common European Framework of Reference for Languages.

### Courses (type, number of weekly contact hours, language — if other than German)

| Ü (4) |

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (5 to 7 pages, 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

**Language of assessment:** French

**Contents**

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. They will be able to communicate in simple, routine situations, exchanging information about familiar matters in a simple and direct manner. At the end of the module, students will have developed skills in the target language that are equivalent to level "A2 -- Waystage" of the Common European Framework of Reference for Languages.

When they read or listen to texts, they will understand familiar, everyday expressions and very simple sentences. Students will be able to speak and write in the target language, using simple phrases. At the end of the module, students will have developed skills in the target language that are equivalent to level "A1 -- Breakthrough" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)
Ü (4)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (5 to 7 pages, 10 minutes)
Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

### Contents

Building on nominal previous knowledge, this module teaches students the basics of the target language which will allow them to orient themselves in basic situations in the target language.

### Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. They will be able to communicate in simple, routine situations, exchanging information about familiar matters in a simple and direct manner. At the end of the module, students will have developed skills in the target language that are equivalent to level "A2 -- Waystage" of the Common European Framework of Reference for Languages.

In this module, students (without any previous knowledge of the Latin language) gain a solid knowledge of Latin.

Intended learning outcomes

Students develop the ability to comprehend the content, structure, and message of original Latin texts that correspond in difficulty to simpler passages from prose texts (e.g. Caesar, Nepos). Upon successful completion of the module, students will be issued the Latin language certificate Kleines Latinum that attests a "solid knowledge" of the Latin language. The certificate also attests a "knowledge" of the Latin language.

Practical work: participation in project teams.

Contents
Selected problems of Education for People with Emotional and Behavioural Disorders, group processes and processes of social learning, violence prevention, intercultural competencies in working with families with a migrant background, alternating prioritisation under the guidance of subject specialists, pedagogical support for children and juveniles from deprived areas; gender- and age-homogeneous youth group work; interest-specific group work with children and juveniles

Intended learning outcomes
The students can independently plan, organise and hold group sessions and are able to apply legal basics such as duty of supervision in practice. They are able to work in a team and acquire leadership skills by independently cooperating with fellow students and by communicating with children and their families (self- and social competence). By combining theory and practice, the students are able to critically evaluate pedagogical theories and learn to scrutinise their own actions.

Courses
S (2) + S (1) + P (1)

Method of assessment
a) term paper (approx. 10 pages) or b) oral examination in groups of up to 4 candidates (approx. 20 minutes per group, approx. 5 minutes per candidate)

Allocation of places
max. 25 places (lottery)

Additional information

Module title: Basics in System Adminstration
Abbreviation: 07-SQF-GSA-152-m01

Module coordinator: holder of the Chair of Bioinformatics
Module offered by: Faculty of Biology

ECTS: 2
Only after succ. compl. of module(s): (not) successfully completed

Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents:
The lecture will introduce students to the functioning of a variety of operating systems (Linux, Mac OSX, Windows). Practical exercises in the computer room will accompany the interactive lecture.

Intended learning outcomes:
Students will demonstrate a basic familiarity with the operating systems discussed and will be able to perform basic operations in different system environments. They will be able to work with a broader range of operating systems than just one.

Courses:
V (0.5) + Ü (0.5)
Module taught in: German and/or English

Method of assessment:
written examination or practical examination (approx. 30 minutes)
Language of assessment: German and/or English

Allocation of places:
20 places. Should the number of applications exceed the number of available places, places will be allocated as follows:
Students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits will be given preferential consideration. Should the module be used in other subjects, there will be two quotas: 95% of places will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits and 5% of places (a minimum of one place in total) will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 60 ECTS credits and to students of the Bachelor’s degree subjects Computational Mathematics and Mathematik (Mathematics), each with 180 ECTS credits, as part of the application-oriented subject Biology (as well as potentially to students of other ‘importing’ subjects). Should the number of places available in one quota exceed the number of applications, the remaining places will be allocated to applicants from the other quota. Should there be, within one module component, several courses with a restricted number of places, there will be a uniform regulation for the courses of one module component. In this case, places on all courses of a module component that are concerned will be allocated in the same procedure. In this procedure, applicants who already have successfully completed at least one other module component of the respective module will be given preferential consideration.
A waiting list will be maintained and places re-allocated as they become available.

Selection process group 1 (95%): Places will primarily be allocated according to the applicants’ previous academic achievements. For this purpose, applicants will be ranked according to the number of ECTS credits they have achieved and their average grade of all assessments taken during their studies or of all module components in the subject of Biologie (Biology) (excluding Chemie (Chemistry), Physik (Physics), Mathematik (Mathematics)) at the time of application. This will be done as follows: First, applicants will be ranked, firstly, according to their average grade weighted according to the number of ECTS credits (qualitative ranking) and, secondly, according to their total number of ECTS credits achieved (quantitative ranking). The applicants’ position in a third ranking will be calculated as the sum of these two rankings, and places will be allocated according to this third ranking. Among applicants with the same ranking, places will be allocated according to the qualitative ranking or otherwise by lot.

Selection process group 2 (5%): Places will be allocated according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in modules/module components of the Faculty of Biology.
among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25 % of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25 % of places): lottery.

Should the module be used only in the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits, places will be allocated according to the selection process of group 1.

Module title: Global Acting in Globally and Locally linked Decision Processes
Abbreviation: 07-SQF-GHE-152-m01

Module coordinator: holder of the Chair of Bioinformatics
Module offered by: Faculty of Biology

ECTS: 3
Method of grading: numerical grade
Only after succ. compl. of module(s):
Duration: 1 semester
Module level: undergraduate
Other prerequisites:

Contents

Decision making processes in the context of global and local requirements. The course will discuss findings from different fields of biology and/or biotechnology with regard to their socio-political relevance. Topics will vary and will reflect the latest trends and developments. Topics that might be covered include: - Global threats -- making the right decision. - Decision making and disposal. - Decision making processes of social insects. - Ecosystems as an example of "ecology vs. economy".

Intended learning outcomes

Students will be able to meet global requirements in spite of local constraints and requirements and will understand the limitations in decision making processes. They will have developed a deeper awareness of complex issues and will be better qualified to adapt the opportunities and/or necessities associated with global challenges to specific local conditions as well as to implement these. With the help of topical examples from nature (e.g. ecology, sociobiology), the course will have acquainted students with principles that may help understand problems relevant to society and develop approaches to solution.

Courses (type, number of weekly contact hours, language — if other than German)

V (2)
Module taught in: German and/or English

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

Log (approx. 10 to 20 pages)
Language of assessment: German and/or English
creditable for bonus

Allocation of places

25 places. Should the number of applications exceed the number of available places, places will be allocated as follows:
Students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits will be given preferential consideration. Should the module be used in other subjects, there will be two quotas: 95% of places will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits and 5% of places (a minimum of one place in total) will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 60 ECTS credits and to students of the Bachelor’s degree subjects Computational Mathematics and Mathematik (Mathematics), each with 180 ECTS credits, as part of the application-oriented subject Biology (as well as potentially to students of other ‘importing’ subjects). Should the number of places available in one quota exceed the number of applications, the remaining places will be allocated to applicants from the other quota. Should there be, within one module component, several courses with a restricted number of places, there will be a uniform regulation for the courses of one module component. In this case, places on all courses of a module component that are concerned will be allocated in the same procedure. In this procedure, applicants who already have successfully completed at least one other module component of the respective module will be given preferential consideration.
A waiting list will be maintained and places re-allocated as they become available.
Selection process group 1 (95%): Places will primarily be allocated according to the applicants' previous academic achievements. For this purpose, applicants will be ranked according to the number of ECTS credits they have achieved and their average grade of all assessments taken during their studies or of all module components in the subject of Biologie (Biology) (excluding Chemie (Chemistry), Physik (Physics), Mathematik (Mathematics)) at the time of application. This will be done as follows: First, applicants will be ranked, firstly, according to their average grade weighted according to the number of ECTS credits (qualitative ranking) and, secondly, according...
to their total number of ECTS credits achieved (quantitative ranking). The applicants' position in a third ranking will be calculated as the sum of these two rankings, and places will be allocated according to this third ranking. Among applicants with the same ranking, places will be allocated according to the qualitative ranking or otherwise by lot.

Selection process group 2 (5%): Places will be allocated according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in modules/module components of the Faculty of Biology; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): lottery.

Should the module be used only in the Bachelor's degree subject Biologie (Biology) with 180 ECTS credits, places will be allocated according to the selection process of group 1.

**Contents**

Exemplary examination of the subject areas of School Pedagogics in view of didactic concepts and theories of education, media-didactic concepts with a special focus on the deployment of digital media in classes, planning and creating learning environments whilst taking into account the subject and the target group as well as the requirements of inclusive education; theory of school as an institution and organisation that has been shaped and has to be shaped; results of empirical school and classroom research; concepts of diagnosing, evaluating and promoting performance; education, schooling, promotion, counselling and innovation in school and classes.

**Intended learning outcomes**

After successfully completing this module, the students are able to perceive and understand thought patterns, emotions, behaviour and actions of children and juveniles regarding their developmental status and their social environment.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 30 minutes) or b) oral examination of one candidate each (approx. 5 minutes) or c) presentation (approx. 10 minutes) with written elaboration (approx. 3 pages) or d) portfolio (approx. 10 pages) or e) term paper (approx. 10 pages)

**Allocation of places**

10 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

Contents
Principles of planning classes on the basis of scientifically proven didactic concepts and theories that take into account the curriculum of secondary level I and II in secondary schools as well as the corresponding age group; empirical and theoretical characteristics of good classes; concepts and methods of analysing and evaluating classes whilst taking into account the curriculum of secondary level I and II.

Intended learning outcomes
After successfully completing this module, the students are able to characterise and evaluate concepts and theories of planning and conducting classes in secondary level I and II in view of different aspects and criteria. They can analyse and evaluate teaching and learning offers and examples in secondary level I and II with reference to selected didactic concepts and theories whilst taking into account the target group, media as well as information and communication technology. Furthermore, they can evaluate selected examples in view of different aspects.

### Contents
Blackboards are still the classic medium for teaching classes. The students examine the theoretical principles of working with boards to determine the possibilities and opportunities of using interactive board systems. The module provides an overview of the functionality of interactive whiteboards which combine the functions of blackboards with the functions of flip charts by using computer technology as well as projection technology. Self-organised learning processes, which are demanded by modern learning culture, are put into practice. In this way, the students actively participate in class and work with the board systems from the beginning of the seminar.

### Intended learning outcomes
After successfully completing this module, the students have acquired basic skills in dealing with interactive whiteboards. By creating virtual arrangements, the students have learned to create content for interactive whiteboards and they are able to integrate these whiteboards into school lessons in a useful manner. Furthermore, they know how to search for additional digital resources and materials for teaching school lessons with an interactive whiteboard.

### Courses
(type, number of weekly contact hours, language — if other than German)

**Contents**

The module provides an overview of aspects, concepts and elements of popular and new radio plays. The aim of the course is to create own radio plays whilst taking into account aspects of media criticism and school.

**Intended learning outcomes**

After successfully completing this module, the students have acquired basic skills in dealing with microphones, headsets, preamplifiers, and audio interfaces. Furthermore, they are able to use audio software in a proper way and to process audio materials under production-aesthetic aspects. The participants are able to conceptualize and implement radio play structures by using a specific text source.

## Contents

The module provides an overview of various fields of film studies: History, techniques, analysis, dramaturgy, and psychology.

## Intended learning outcomes

The students are able to critically evaluate films from a scientific perspective. They have detailed knowledge of film history, techniques, analysis, dramaturgy and psychology and have acquired a very high level of media literacy in the field of films.

## Courses (type, number of weekly contact hours, language — if other than German)

S (2)

## Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

presentation (approx. 50 minutes)

## Allocation of places

max. 20 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. (2) The remaining places will be allocated by lot. (3) A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

The aim of the module is to create own websites whilst taking into account different aspects of layout options, user guidance etc. In addition, we discuss the differences and similarities between print media and the internet. Furthermore, we review and analyse popular websites to develop a critical approach to website creation.

**Intended learning outcomes**

After successfully completing this module, the students have acquired basic knowledge of designing websites. They have basic skills in creating own web presences and are able to critically reflect pre-existing web content.

**Contents**

The aim of the module is to produce a professional video clip (broadcasts). Therefore, the principles of audio and video work, e.g. lighting engineering, camera settings, editing, montage, and professional recording of audio tracks, are conveyed during the course. Afterwards, the students apply their acquired skills to practical projects at the video / recording studio. Finally, the resulting audiovisual materials are converted into different target formats for the internet, live streams etc.

**Intended learning outcomes**

Basic skills regarding the proper usage of professional audio and video technology, basic skills in lighting engineering, postproduction (e.g. for various platforms), planning and designing broadcasts.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

The module functions as the preparation for the subsequent excursion to schools in different European countries. The course includes facts about the history, culture, society, and other aspects of the target culture. Furthermore, students will acquire knowledge about the structure of teacher training, schools and higher education systems of the respective country in order to compare them to the German educational system. Additionally, students are prepared in an intercultural way for the respective country. This will form the basis for the mutual exchange.

**Intended learning outcomes**

Students are able to reflect upon and discuss about similarities and differences of international educational systems in comparison with the German educational system. They can discuss different aspects of educational systems in respect to migration and intercultural learning. They recognize and can assess historic, social, cultural and political effects on educational systems.

**Courses** (type, number of weekly contact hours, language — if other than German)

| S (2) |

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

- a) presentation (approx. 20 minutes) or b) term paper (approx. 10 pages) or c) portfolio (approx. 30 hours total)

**Allocation of places**

30 places. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available. Option 2: (1) Places will be allocated according to the number of subject semesters. (2) A waiting list will be maintained and places re-allocated as they become available.

Contents
This module deals with the challenges of the pedagogical work in schools and educational institutions for adolescents against the background of different cultures and cultural standards. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns as well as different ways of thinking and living of adolescents. At the same time, the thematic emphases are dealt with under an intercultural point of view.

Intended learning outcomes
Students have knowledge about different facets and subject areas of intercultural (adolescent) work. In dealing with the diversity of cultures and cultural interpretive patterns they command over basic intercultural key competencies. With the help of practical exercises students can transfer their knowledge to situations of their own pedagogical actions.

### Module title

**Employing media and interactive methods at school and in classrooms**  

**Abbreviation**  

43-LA-MedUnt-152-m01

### Module coordinator

head of Professional School of Education (PSE)

### Module offered by

Centre for Teacher Training and Educational Research (ZfL)

### ECTS

3

### Method of grading

(only after succes. compl. of module(s))

### Only after succesfully completed

--

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

### Contents

Basics of communication at school / educational work; task specification of a teacher; introduction to various (interactive) media and medial methods; their use and purposeful usage in the classroom; production of learning objects for the classroom.

### Intended learning outcomes

The students know a broad variety of media and medial methods and are able to use them in the classroom purposefully. Through the use of interactive media they can lead the students to self-organized and independent learning and working. They can prepare their lessons effectively and support them with objects for learning in an optimal way.

**Duration**  
1 semester  
undergraduate

**Contents**

"Learning through the arts" can be used at all types of schools and with all kinds of pupils. In the seminar, interconnections with the Bavarian curricula and own lesson plans for the major subjects will be worked out. Areas of the sciences of teaching and learning, learning theories, and results of brain research form a focal point of the theoretical part. Artist-teacher-cooperation leads to a changed understanding of learning culture. Besides insights into practical work, there will also be an elucidation about educational successes. In the seminar, students will get to know the work of LTTA at our schools and in other countries, while also analyzing and reflecting upon it. The participants of the seminar can also take part in events by LTTA, such as artists' training, teachers' further education, as well as in teaching examples at our project schools.

**Intended learning outcomes**

Students gained knowledge about teaching theories, are able to do immersed curricular work, to reprocess lessons methodically and can transfer the artistic experiences choreographically, sculpturally, musically etc to their subject area. They can confidently work in a team. Furthermore, through their own practical implementation, they have experienced a furthering of their teaching personality with an increased feeling of security when using artistic elements for the purpose of achieving cognitive curricular goals. Moreover, they gained knowledge about classroom teaching research and are able implement and analyze their own units and surveys.

**Courses** (type, number of weekly contact hours, language — if other than German)

(3) successfully completed

Duration: 1 semester
Module level: undergraduate
Other prerequisites: --

Contents:
Not a new project, not an event, but a "rethinking" of classroom teaching. Information: about LTTA in general and about the cooperation with the Royal Conservatory of Toronto and Queens University: The teacher education program Learning Through the Arts", developed at Canada's Royal Conservatory of Music, has become the world's most comprehensive school initiative based on the arts. LTTA brings specially trained artists to schools, who cooperate with teachers to create lessons that cover learning material in an exciting and playful way. For example, pupils learn math through dancing, history via story-telling and the natural sciences through the fine arts. The artists and teachers form a three-year teaching partnership with the goal of teaching non artistic subjects, such as math, natural sciences, history, and languages, in a holistic fashion by adding a broad variety of art forms (music, dance, fine arts). LTTA offers schools a comprehensive implementation program that includes advanced vocational training, support in the classroom, models for integration of the curriculum as well as means for rating pupils and evaluating the program. Ongoing, high quality professional training for teachers, artists, principals, and lecturers at LTTA schools are at the center of the program's philosophy. Content of the module: "Learning through the arts" can be used at all types of schools and with all kinds of students. In the seminar, interconnections with the Bavarian curricula and own lesson plans for the major subjects are worked out. Areas of the sciences of teaching and learning, learning theories and results of brain research form a focal point of the theoretical part. Artist-teacher-cooperation leads to a changed understanding of learning culture. Besides the insights into the practical work, there will also be an elucidation about educational successes. In the seminar, students will get to know the work of LTTA at our schools and in other countries, while also analyzing and reflecting upon it. Some investigations from the LTTA model school can be realized. The participants of the seminar can also take part in events by LTTA, such as artists' training, teachers' further education as well as in teaching examples at our project schools.

Intended learning outcomes:
Students gained knowledge about teaching theories, are able to do immersed curricular work, to reprocess lessons methodically and can transfer the artistic experiences choreographically, sculpturally, musically etc to their subject area. They can confidently work in a team. Furthermore, through their own practical implementation, they have experienced a furthering of their teaching personality with an increased feeling of security when using artistic elements for the purpose of achieving cognitive curricular goals. Moreover, they gained knowledge about classroom teaching research and are able implement and analyze their own units and surveys.

Module title: Transitions in the education system  
Abbreviation: 43-LA-ÜBG-152-m01

Module coordinator: head of Professional School of Education (PSE)  
Module offered by: Centre for Teacher Training and Educational Research (ZfL)

ECTS: 3  
Method of grading: (not) successfully completed  
Only after succ. compl. of module(s): --

Duration: 1 semester  
Module level: undergraduate  
Other prerequisites: --

Contents:
The module addresses transitions between different institutions of the education system and between different types of schools. This concerns the transition from elementary schools to secondary schools as well as the transition from preschool institutions to elementary schools to improve the permeability between different types of schools, up to the transition between high schools to university and college. The concept of "transition" is hereby theoretically elaborated, reflected critically, and practically implemented.

Intended learning outcomes:
Students are able to put theoretical approaches of the concept "transition" holistically into practice and reflect upon practice theoretically. They are experienced at elaborating lesson concepts at the interface between the types of schools that flank a transition. They can attribute the different requirement profiles of specific lesson sequences and units to the transition matter and thus use them purposefully. In periods of teaching practice that take place in selected schools they can validate the theoretical knowledge practically.

### Contents

Based on a number of working steps, students' own ideas and wishes concerning their careers and plans for their professional future are made more transparent. Besides contributions by the seminar supervisors, topics will be treated in depth via role playing games as well as group and individual work which focuses on determining individual strengths and weaknesses, self-presentation (replication of their self-perception and how others perceive them), and definition of goals (in life as well as their career, and the compatibility of both).

### Intended learning outcomes

The students learn to grasp and specify their skill profile. This includes a critical self-reflection in reference of their own goals. A comparison of their self-perception and how they are perceived by others enables the students to make their first steps towards improving their skills. These include their self-presentation as well as raising awareness for a possible correction in their career planning. The seminar prompts the students to take meaningful steps towards an implementation of their career plans.

**Contents**

Reflection upon their own role as a teacher trainee and future teacher; Self- and time-management; Image of the self and the other; goal-oriented use of media; theme-centered use of teaching methods.

**Intended learning outcomes**

Students are able to reflect about their own role and to constructively include difference between their image of themselves and the image of the other. They command over a basic know-how and repertoire of methods. In the interplay of their role, the image of themselves and of the other as well as an appropriate repertoire of media and methods, students are able to didactically process acquired contents of their discipline while taking into consideration the addressee.

The students gain an insight into teaching practice. The focus lies on the conveyance of teaching methods and methods for individual advancement in the classroom. Through observations, coaching projects, internships or purposeful assignments inside or outside the classroom, the students have their own practical education and teaching experiences.

**Intended learning outcomes**

The students learn about various kinds of teaching methods and methods for individual advancement and differentiation. They are familiar with concepts about professional action in the classroom and about dealing with heterogeneity and difference. The acquired knowledge about teaching can already be applied in some cases.

**Contents**

As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or social school work. In various areas of occupation, such as the "fostering of psychosocial competence" or the diverse tasks of networking the tasks of social school work are presented in their different aspects.

**Intended learning outcomes**

Students have gained insights into the diverse areas of responsibility of social school work. Because of their focus on "psychosocial competences" they are experienced in the application of psychosocial methods of the social school workers and are able to choose and apply them adequately, reflect upon them critically and broaden them independently. Alternatively, with the focus on "networking", the students have basic knowledge about institutions and some experience in committees, and are familiar with tasks, competence and procedures in social school work and are thus able to coordinate the different requirements.

As a means of help for young people at school the youth welfare services offer fast and unbureaucratic help and/or cooperation with other areas. It is aimed at young people with severe social and pedagogical problems, who are dependent on support to overcome disadvantages or individual impairments. The module offers an insight into the tasks, structures and contents of an active youth or school social work and gives the students the opportunity to participate in the concrete pedagogical work with a professional focus on "projects", or to bring their own small projects to fruition.

## Intended learning outcomes
The students have gained an insight into the diverse task areas of a teacher at the level of lower secondary education. They are experienced in carrying out projects of social school work and are able to use those as a basis for the development of their own pedagogical projects. They have furthered their own methodic competence and are able to use it purposefully, reflect upon it critically and broaden it independently.

Contents

The module offers opportunities for practical experience in the classroom and everyday school life and their theoretical reflection. This way, didactic concepts, teaching methods or methods for individual advancement and differentiation are conveyed. Through observations, individual advancement projects, internships or purposeful assignments inside or outside the classroom the students gain their own practical education and teaching experiences.

Intended learning outcomes

The students are able to put theoretical approaches into practice in an activity-oriented fashion and reflect upon it in a theory-driven way. They are experienced in the application of concepts and models in the classroom or in individual advancement. They can attribute the direct learning behavior of students to the use of concepts and models and therefore apply those purposefully. They are able to employ different approaches according when explaining teaching material to pupils according to this pupil’s individual needs and capabilities.

Contents
Pedagogical concepts in schools are constantly developed further To that end different instruments and the committees included in this process are portrayed in their collaboration. Theoretical principles of educational development and evaluation; sitting in classes while visiting schools, application of evaluation instruments and analysis of evaluation results; planning of intervention methods in the planning of educational development.

Intended learning outcomes
Students have experienced the pedagogical work in schools as a process that is subject to a constant development. They know the principles of educational evaluation models as instruments of educational development. They have basic knowledge using evaluation instrument, their application, implementation, and evaluation. They are able to choose appropriate intervention models on the basis of evaluation results.

### Contents

This module provides the chance to become acquainted with different international educational systems. With excursions into other European as well as non-European countries an international and intercultural exchange between educational systems takes place. This can cover a system as a whole on a political level as well as individual sections on the level of specific educational institutions. Subject of this are educational as well as extraneous and pre-school institutions. Apart from structural questions, content-related fields of duty as well as general moral values and cultural norms of an educational system or individual fields of education will be dealt with.

### Intended learning outcomes

Students are acquainted with different international educational systems or individual fields of education of a broader system, know how to describe them structurally and classify them in reference to their content, and are able to relate their objectives to their fields of duty. International educational institutions and systems can be placed correctly into their wider context of respective national and cultural values and norms.

**Contents**

The students gain insights into the practice of working with children and teenagers in an inclusive context. Via practical training they observe, analyze, and reflect upon an inclusive setting in practice and familiarize themselves with concepts of a professionally dealing with heterogeneity. Methods for differentiation when dealing with an inclusive student body are tested.

**Intended learning outcomes**

The students are familiar with fundamental questions of inclusion. They name various challenges that inclusion creates for the individual, society, and school. They are able to take on different perspectives and points of view concerning inclusion and base their own position on this. They elaborate basic competences for dealing with students in inclusive lesson contexts.

## Contents
The module deals with basic questions and challenges of inclusion. It opens up different perspectives towards inclusion and elaborates particularly on questions and tasks that inclusion creates in everyday school life under the conditions of specific kinds of schools. Possible answers and solutions are elaborated and discussed.

## Intended learning outcomes
The students know about fundamental questions of inclusion. They can name various challenges that inclusion creates for the individual, society and school. They are able to take on different perspectives and points of view towards inclusion and base their own position on this. They are aware of the school type specific conditions and goals in connection with inclusion. They elaborate basic competences for dealing with students in inclusive lesson contexts.

**Contents**

The students get an insight into the practice of dealing with crisis situations at school with a focus on case-related conversation and consulting competence. Future teachers are made aware of their perception of individual student crisis and learn when to consult which out-of-school institutions, if necessary.

**Intended learning outcomes**

The students have examined problems of children and teenagers in situations of crisis and realize when to contact which out-of-school institutions for help with certain special problems.

**Courses (type, number of weekly contact hours, language — if other than German)**

S (2)

**Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)**

Contents
The module deals with the challenges that pupils in a state of crisis might pose for the entity of school and lessons. This is done from a subject specific point of view. It points out subject specific questions and tasks that involved schools, people and lessons have to face. Possible options for support -- also out-of-school institutions -- are presented. Possible answers and approaches for the teacher in a specific subject are elaborated and discussed.

Intended learning outcomes
The students know about basic problems of pupils in situations of crisis -- also from a subject specific point of view. They are able to adopt different perspectives. They know where to get help and support (not limited to their school and profession) and are able to make use of this knowledge. They develop subject specific, basic competences and attitudes when dealing with students in situations of crisis.

Contents
Students gain insights into daily teaching practices or rather real life planning and creation of lessons. They learn about different, innovative, co-operative teaching and learning methods which design get especially for their subject. They devise own examples for lessons, and discuss and reflect upon them in a group. Emphasis is thus placed on subject specific didactical and methodological questions and their implementation.

Intended learning outcomes
Students broaden their subject specific methodological knowledge and build up methodological competencies. They have knowledge about different co-operative ways of teaching and learning and their optimal application in lessons. Students are able to take up a position concerning questions of planning lessons and to reflect upon that position from different points of view.

### Contents

Students will gain background knowledge about different cultures and intercultural aspects of these cultures. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns, as well as different ways of living and thinking. At the same time, thematic emphases are treated under an intercultural point of view. With the help of practical exercises students can transfer their knowledge to situations of their own (pedagogical) actions.

### Intended learning outcomes

Students have knowledge about cultures, cultural standards and intercultural connections. They are able to reflect and discuss about similarities and differences of different cultures. Via dealing with the diversity of cultures and cultural interpretative patterns they gain essential intercultural key competencies as well as self and social competencies. Practical exercises enable them to establish methodical competencies.

### Courses (type, number of weekly contact hours, language — if other than German)

S (2)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) talk (approx. 30 minutes) with handout (approx. 2 pages) or b) term paper (approx. 10 pages) or c) portfolio (approx. 60 hours total) or d) presentation (approx. 15 minutes) and written elaboration (approx. 5 pages)

### Allocation of places

25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available. Option 2: (1) Places will be allocated according to the number of subject semesters. (2) A waiting list will be maintained and places re-allocated as they become available.

### Contents
Students observe, analyze and reflect upon the education of a school abroad. They obtain information about the local conditions and the organization of the school. The exchange with the teachers facilitates reflection of the observed lesson process. The participation in project days and other school activities can improve the learning process through the interaction with the students.

### Intended learning outcomes
The students can observe and analyze lessons with a special focus on teaching methods and the behavior of the teacher and the pupils. They recognize the learning potentials and interests of individual students. The observed results can be summarized and reflected upon in written form.

**Contents**

The module provides an introduction to successful supervision of pupils independently carrying out experiments in the teaching-learning-laboratory.

**Intended learning outcomes**

The students learn to classify different groups of pupils according to their subject-specific and experimental level of performance, to support the pupils according to their needs and age and to help them during independent experimenting (supervision competencies in open classroom situations). The students are able to methodically and critically evaluate their own actions. A lecturer gives individual feedback to the students to avoid negative behaviour patterns and to support the students' strengths. The students develop professional behaviour patterns by repeatedly working on the same topic with different groups of pupils (reflection competencies and self-control competencies).

**Contents**
Conception and realisation of experimental stations with ordinary and inexpensive consumables for classes of Grundschule and secondary level I.

**Intended learning outcomes**
The students develop simple scientific experimenting stations to use for the transition from primary to secondary level I for small groups from different types of schools. In doing so, they learn to simplify and convey scientific contents relevant to the curriculum in due consideration of the target group.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**
Designing and creating hands-on exhibits for STEM subjects.

**Intended learning outcomes**
The students evaluate the advantages and disadvantages of the hands-on approach for teaching scientific contents in and out of school. They plan and implement an interdisciplinary science exhibition as an example of project-oriented work with pupils of secondary level I and II.

**Courses** (type, number of weekly contact hours, language — if other than German)
S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
a) written examination (approx. 45 minutes) or b) oral examination of one candidate each (approx. 10 minutes) or c) oral examination in groups (groups of 2, approx. 20 minutes) or d) term paper (approx. 8 pages)

**Allocation of places**
--

**Additional information**
This module is designed for students studying at least one subject in the natural sciences.

**Referred to in LPO I** (examination regulations for teaching-degree programmes)

### Contents
Designing and creating activity stations at which pupils in Grundschule and Sekundarstufe I will perform experiments, using low-cost everyday items.

### Intended learning outcomes
Students will design simple scientific activity stations to be used at the interface between Primarstufe and Sekundarstufe I by small groups comprised of pupils from different types of school. They will learn to "elementarise" and teach scientific topics from the curriculum in a manner that is tailored to the target group.

### Courses (type, number of weekly contact hours, language — if other than German)

**Contents**

This course will provide students with an opportunity to take on the role of teacher and work with real groups of pupils. Particular emphasis will be placed on the presentation of topics; in many cases the presentation will be accompanied by a demonstration to illustrate the topics. Students will either teach existing topics they adapted to fit the needs of their target groups or will develop new topics.

**Intended learning outcomes**

Students are able to teach groups, communicating in practice what they have learned in theory.

**Courses** (type, number of weekly contact hours, language — if other than German)

### Duration
1 semester

### Module level
undergraduate

### Contents
Chalk and talk teaching, carousel activities, unguided experimentation. There are many ways to communicate knowledge to groups of pupils. Out-of-classroom learning has been gaining in importance. In interdisciplinary contexts, it is particularly important to draw attention to the fact that looking at a topic from a "different" point of view may facilitate learning. This course will provide students with a practical introduction to knowledge-based and experience-based learning methods. Some of these methods will be adapted to be appropriate for specific topics and will be implemented with groups of pupils. This course will present students with an opportunity to find out what methods they feel comfortable with and whether students like or dislike the respective methods.

### Intended learning outcomes
Students are familiar with practical methods for teaching groups in an effective and lively way.

Groups are diverse, their members have different personalities. Groups are also dynamic entities. How do we deal with these groups? What do we have to expect? How do we come across to groups and how can we adjust to their needs? How can we get the individual members interested in or even enthusiastic about the topics we are teaching? This module will focus on different groups and their expectations. You will learn and try out some of the tricks of the teaching trade.

Intended learning outcomes
Ability to effectively work with groups. Ability to confidently interact with groups.

### Method of grading

Only after succ. compl. of module(s)

### (not) successfully completed

--

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

### Contents

During the courses German as a Second Language or GFL, students will deal with key issues, ideas, approaches and methods of the course. They will become familiar with the acquisition and advanced structures of oral and written language acquisition for learners of German as a Second Language and acquire basic principles of migration and integration research, which is an essential part of the course. A concretisation of the methods will take place in terms of language and literature imparting in all school forms, taking account of the learning conditions of the students that learn German as a Second Language. Furthermore, the implementation of a course in all subjects, which will give students the chance to speak in this language in order to promote the feeling for the language, will be discussed.

### Intended learning outcomes

Students acquire fundamental knowledge of mediation processes of German as a Second Language or of a specialised class in all disciplines, which will give students the chance to speak in this language in order to promote the feeling for the language, referring to current research and including practical school challenges. They will be familiar with current problem areas and tasks, which are necessary for the professional skills in order to plan, implement and reflect an own class, of a contemporary specialised class. In doing so and in terms of increasing self-competence, the students develop a basic understanding of a theory-driven, practice-oriented, subject related and in pedagogical contexts involved instructional dealing. Here, they can understand and integrate particular learning initial situations of non-native learners.

### Courses (type, number of weekly contact hours, language — if other than German)

<table>

**Contents**

This module comprises a range of theological seminars offered by the respective Subject Representatives (Fachvertreter). These seminars - some of them may be interdisciplinary - give students the opportunity to discuss interdisciplinary topics in theology in more detail. Topics vary and are announced in advance.

**Intended learning outcomes**

At the end of the module, students will have developed the ability to approach selected interdisciplinary topics in theology, using scholarly methods, and to present their findings in an appropriate manner. They will be able to help create a classroom atmosphere that encourages all students to actively participate in the generation and use of knowledge.

**Courses** (type, number of weekly contact hours, language — if other than German)

**Contents**

This module comprises a range of theological seminars offered by the respective Subject Representatives (Fachvertreter). These seminars - some of them may be interdisciplinary - give students the opportunity to discuss interdisciplinary topics in theology in more detail. Topics vary and are announced in advance.

**Intended learning outcomes**

At the end of the module, students will have developed the ability to approach selected interdisciplinary topics in theology, using scholarly methods, and to present their findings in an appropriate manner. They will be able to help create a classroom atmosphere that encourages all students to actively participate in the generation and use of knowledge.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) designing a seminar unit (approx. 45 minutes, introduction, moderating and preparing seminar materials) including documentation of seminar unit (approx. 10 pages) or b) term paper (approx. 15 pages) or c) portfolio (3 to 5 assessments, approx. 45 hours total)

**Allocation of places**

max. 25 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Other prerequisites**  
--

**Contents**

This module is designed to teach key skills in the principles of teaching. Students receive special training to become student mentors and broaden and consolidate their knowledge and skills through interactive workshops and relevant learning methods. Students carry out voluntary work, teaching Oberstufe students at cooperating Gymnasien (German high schools) the essentials of academic writing. They receive support and assistance at every stage of the project, mostly in the form of feedback sessions with their teachers.

**Intended learning outcomes**

Students will gain subject-specific, methodical and personal skills they will later apply when teaching the fundamental principles and techniques of academic writing. The knowledge they gain in the first part of the course will enhance the academic writing skills as well as the teaching skills of students and will thus qualify them for their role as student mentors. This module includes voluntary work in schools, an experience the students will not only benefit from on a personal level but that will also enhance their social skills.

### Contents

In this course we use the examples of first aid and lifesaving to discuss and practice the basics of helping and rescuing. We study central aspects relevant to school with and without reference to school sports. These aspects include specific behaviour guidelines and rescue measures in the fields of supervision of pupils during swimming lessons and first aid.

### Intended learning outcomes

The students have basic skills in first aid and lifesaving. They are aware of measures to prevent and avoid accidents, especially in the field of planning and conducting physical education classes. Furthermore, the students are skilled in assessing safety and preventing hazards in the context of extracurricular physical activities. In the field of lifesaving, they know how to rescue themselves and others.

### Contents

Principles and theories of intercultural competence, acquisition of basic terms, intercultural communication and conflicts (in theory and practice), intercultural competence training, multifactorial backgrounds of "migration-induced behavioural abnormalities", prevention and intervention measures against racism and xenophobia.

### Intended learning outcomes

The students have basic knowledge of intercultural action and can independently apply theoretical principles of multicultural work in a reflected manner. In doing so, the students develop awareness of the effects of social changes and framework conditions on migrants and interpersonal relationships and professional work in heterogeneous, intercultural fields of action.

### Courses (type, number of weekly contact hours, language — if other than German)

S (2) + S (2)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

1) term paper (approx. 12 pages) or 2) presentation (approx. 20 minutes) with written elaboration (approx. 8 pages) or 3) written examination (approx. 60 minutes)

Assessment offered: Once a year creditable for bonus

### Allocation of places

max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available.

### Contents

Theoretical basics of integration and acculturation of people with a migrant background as well as biculturally socialised children and juveniles, introduction of multicultural fields of practice and action, especially those relevant to pedagogy, e.g. intercultural education in educational and extracurricular institutions as well as intercultural counselling.

### Intended learning outcomes

The students are aware of potential migration-induced behavioural abnormalities as well as psychosocial stress reactions in migrants and are able to critically think, reflect and independently apply their knowledge in practice. Furthermore, they are able to apply and refine existing concepts.

### Courses (type, number of weekly contact hours, language — if other than German)

S (2) + S (1)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

**Contents**

Phenomena, terminology, criteria and norms, classification, epidemiology, institutions, historical aspects, legal basics, education and education difficulties, principles of didactics and teaching, basic explanatory perspectives, central influencing factors of behavioural disorders (especially aspects of family, school or society).

**Intended learning outcomes**

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders (professional competence, self-competence). The students are able to conduct independent and extensive research on their own and in groups to advance their basic knowledge (professional competence, social competence, methodological competence). By acquiring differentiated basic knowledge, the students have gained first competencies in dealing with behavioural disorders (self-competence).

**Contents**

Basic perspectives for the explanation of behavioural disorders; key and selected psychological and sociological approaches to the explanation of behavioural disorders in view of medico-biological aspects; key and selected phenomena in the context of behavioural disorders; introduction to scientific work.

**Intended learning outcomes**

The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders, also in view of specific explanation concepts and specific selected problems (professional competence, self-competence). This knowledge enables them to classify and understand behavioural disorders in children and juveniles and to develop first ideas for dealing with behavioural disorders (professional competence, self-competence, methodological competence). The students have basic knowledge and skills in acquiring, selecting and processing information in the context of scientific work; they can apply their knowledge and skills to the utilization of study group resources (professional competence, methodological competence, social competence).

## Contents

In this module, students gain a skill-based and advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

### Intended learning outcomes

This module will equip students with an advanced basic general knowledge of the target language and will focus on developing reading and listening comprehension as well as written and oral communication skills. The targeted skills training builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages. Students will systematically enhance their spoken and written language skills to prepare for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe.

**Other prerequisites**

Required level of language proficiency: B2.1.

**Contents**

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

**Intended learning outcomes**

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

**Contents**
This module familiarises students with the culture and society of countries where the target language is spoken and thus enables them to act appropriately in the target language. It discusses the culture, geography, history, society, political system, and the economy of said countries.

**Intended learning outcomes**
Students develop highly advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. Students are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

---

**ECTS**

3

---

**Method of grading**

numerical grade

---

**Duration**

1 semester

---

**Module level**

undergraduate

---

**Other prerequisites**

Required level of language proficiency: B2.2.

---

**Contents**

This module equips students with knowledge and skills that will enable them to act and communicate in intercultural situations. It familiarises them with criteria and options for action and equips them with knowledge that will allow them to adequately interpret intercultural situations and act appropriately.

---

**Intended learning outcomes**

Students develop advanced intercultural and language skills that will allow them to communicate, both verbally and in writing, in a globalised world, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

---

**Courses**

(As per the module details, the course type, number of weekly contact hours, and language — if other than German)

- Ü (2)

---

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (5 to 7 pages, approx. 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Language of assessment: English

---

**Allocation of places**

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available.

---

### Contents

This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, at university and in business settings.

### Intended learning outcomes

Students gain sound business- and economics-specific communication skills (written and oral) in the target language. They develop advanced business- and economics-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in business and economics terminology and are able to communicate effectively within the discipline. At the end of the stage, they will have developed business- and economics-specific language skills that are equivalent to level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

### Courses (type, number of weekly contact hours, language — if other than German)

**Contents**

In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

**Intended learning outcomes**

Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**
This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, at university and in business settings.

**Intended learning outcomes**
Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 - Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, in situations involving humanistic topics.

**Intended learning outcomes**

Students gain sound humanities-specific communication skills (written and oral) in the target language. They develop advanced humanities-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in humanities terminology and are able to communicate effectively within the discipline. At the end of the stage, they will have developed humanities-specific language skills that are equivalent to level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses**

(type, number of weekly contact hours, language — if other than German)

Ü (2)

Once a year

**Method of assessment**

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (5 to 7 pages, approx. 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Assessment offered: In the semester in which the course is offered

Language of assessment: French

**Allocation of places**

Min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available.

Module title: French - Advanced Level (C1) Intercultural Competence

Abbreviation: 42-FRA-O-IK-152-m01

Module coordinator: head of Language Centre (ZFS)

Module offered by: Language Centre (ZFS)

ECTS: 3

Method of grading: numerical grade

Only after succ. compl. of module(s): --

Duration: 1 semester

Module level: undergraduate

Other prerequisites: Required level of language proficiency: B2.1.

Contents:
This module equips students with knowledge and skills that will enable them to act and communicate in intercultural situations. It familiarises them with criteria and options for action and equips them with knowledge that will allow them to adequately interpret intercultural situations and act appropriately.

Intended learning outcomes:
Students develop advanced intercultural and language skills that will allow them to communicate, both verbally and in writing, in a globalised world, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Courses:
(type, number of weekly contact hours, language — if other than German)

Contents
This module familiarises students with the culture and society of countries where the target language is spoken and thus enables them to act appropriately in the target language. It discusses the culture, geography, history, society, political system, and the economy of said countries.

Intended learning outcomes
Students develop highly advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. Students are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain an advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

**Intended learning outcomes**

Students will develop an advanced basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain a skill-based and advanced basic knowledge of the target language which will allow them to orient themselves in the target language in standard situations during study abroad periods or in the workplace.

**Intended learning outcomes**

This module will equip students with an advanced basic general knowledge of the target language and will focus on developing reading and listening comprehension as well as written and oral communication skills. The targeted skills training builds on level "B1 -- Threshold" and aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages. Students will systematically enhance their spoken and written language skills to prepare for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe.

Spanish - Intermediate Level (B2.2) Spanish for Academic Purposes

Abbreviation: 42-SPA-M4-152-m01

Module coordinator: head of Language Centre (ZFS)

Module offered by: Language Centre (ZFS)

ECTS: 3
Method of grading: numerical grade

Duration: 1 semester
Module level: undergraduate

Other prerequisites: Required level of language proficiency: B2.1.

Contents

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

Intended learning outcomes

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

Courses

(type, number of weekly contact hours, language — if other than German)

Ü (2)

Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (5 to 7 pages, approx. 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

### Contents
This module equips students with advanced communication skills in the target language. These will allow them to communicate appropriately, in both written and oral form, in situations involving humanistic topics.

### Intended learning outcomes
Students gain sound humanities-specific communication skills (written and oral) in the target language. They develop advanced humanities-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in humanities terminology and are able to communicate effectively within the discipline. At the end of the stage, they will have developed humanities-specific language skills that are equivalent to level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with knowledge and skills that will enable them to act and communicate in intercultural situations. It familiarises them with criteria and options for action and equips them with knowledge that will allow them to adequately interpret intercultural situations and act appropriately.

**Intended learning outcomes**

Students develop advanced intercultural and language skills that will allow them to communicate, both verbally and in writing, in a globalised world, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

This module familiarises students with the culture and society of countries where the target language is spoken and thus enables them to act appropriately in the target language. It discusses the culture, geography, history, society, political system, and the economy of said countries.

**Intended learning outcomes**

Students develop highly advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. Students are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module builds on level "B2 -- Vantage" and aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

This module equips students with academic skills in the target language in order to prepare them for study abroad. The module aims to maximise students' opportunities to succeed at university in their host countries.

Intended learning outcomes
Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. This module supports level "B2 -- Vantage" of the Common European Framework of Reference for Languages and aims to enable students to reach the independent user level. In addition to preparing students for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe, the module aims to maximise students' opportunities to succeed at university in their host countries.

Courses
(ordinary, language if other than German)
Ü (2)

Method of assessment
(a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or (b) 2 to 5 assessments (5 to 7 pages, approx. 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Assessment offered: In the semester in which the course is offered

Language of assessment: Swedish

Allocation of places
min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available.

**Contents**

Scientific teaching in Science and Social Studies of Grundschule; physical and chemical contexts suitable for the current curriculum of Grundschule; pupils experiments in physical and chemical contexts; characteristic student preconceptions

**Intended learning outcomes**

Understanding of physical and chemical contexts; knowledge of typical learning difficulties; knowledge of pupils experiments suitable for Grundschule with accessible and affordable materials; competencies in developing and conducting experiments

**Courses** (type, number of weekly contact hours, language — if other than German)

S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 45 minutes) or b) oral examination of one candidate each (approx. 10 minutes) or c) oral examination in groups (groups of 2, approx. 10 minutes per candidate) or d) term paper (approx. 8 pages)

**Allocation of places**

20 places. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available. Option 2: (1) Places will be allocated according to the number of subject semesters. (2) A waiting list will be maintained and places re-allocated as they become available.

### Contents

Basics of intercultural education; didactics of intercultural education, intercultural competencies.

### Intended learning outcomes

The students are provided with an overview of the theories and lines of argument of cultural and intercultural education. They are able to find cultural differences and similarities by studying theories of culture, interculturalism and foreignness. They become acquainted with structures of cultural knowledge as well as questions and methods of intercultural communication and learn how to convey this knowledge. Furthermore, they acquire competencies by trying and practising general and subject-specific intercultural didactic competencies.

### Courses (type, number of weekly contact hours, language — if other than German)

S (2)  
Once a year, summer semester

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 120 minutes) or b) oral examination of one candidate each (approx. 30 minutes) or c) presentation (approx. 15 to 30 minutes) with written elaboration (approx. 10 to 15 pages) or d) term paper (approx. 15 to 20 pages) or e) portfolio (approx. 20 pages) creditable for bonus

### Allocation of places

Only as part of pool of general transferable skills (ASQ): max. 30 places. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

Contents

Series of workshops on a variety of topics in the area of transferable skills: What does it take to succeed at university? What skills (both subject-specific and transferable) do you need to be successful in a STEM career once you have completed your BSc/MSc degree: ability to define and achieve goals (good self and time management); How do you develop a research question/hypothesis, how do you structure a coherent analysis? How do you integrate your own findings into a bigger picture? Concrete transferable skills that will help you launch a successful career: a team player with leadership skills needs assertiveness, negotiation and conflict management skills and the ability to structure workflows. The importance of writing/English writing skills in science: an English writing lab will provide you with an opportunity to enhance your writing skills. Most of the workshops will be taught by Ms Rapp-Galmiche and qualified student tutors, but we might also invite external experts to deliver talks.

Intended learning outcomes

Students have acquired skills that will help them succeed at university and decide what career to pursue: They are able to define goals, know what interdisciplinary skills they need for a successful career in the biosciences and are familiar with techniques that will help them develop these skills. Students are able to describe projects, research findings and scientific issues in English in a clear and convincing style.

Module title: Career planning and entering the job market
Abbreviation: 38-CS-Job-152-m01

Module coordinator: head of Service Centre for Innovation in Teaching and Learning (ZiLS)

Module offered by: head of Service Centre for Innovation in Teaching and Learning (ZiLS)

ECTS: 3
Method of grading: Only after succ. compl. of module(s)

Duration: 1 semester
Module level: undergraduate

Contents:
In this module, the students practice and apply the key steps of systemic planning of application procedures and entry into professional life. The core topics are: Potential analysis. Methods of searching for suitable jobs, analysis of job descriptions, application letter and curriculum vitae, personnel selection procedures, job fairs and career portals, job interview, rhetoric and presentation. The module especially focuses on planning the future after the Bachelor's degree programme (graduate studies, work placements, entry into professional life or alternatives).

Intended learning outcomes:
The students are able to gain, evaluate and use relevant information for the next steps of their career planning. They know different possibilities for improving their personal profile and for entering into professional life. They are familiar with job profiles and descriptions and are able to create comprehensive application documents for different recipients and to orally present their personal goals.

Courses:
(type, number of weekly contact hours, language — if other than German)
S (2)

Method of assessment:
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
portfolio: preparation of job application documents

Allocation of places:
max. 20 places. Places will be allocated according to the number of subject semesters; among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

Additional information:

Referred to in LPO I (examination regulations for teaching-degree programmes):
--
## Module title
Exploring career choices for students of the humanities

| Abbreviation | 38-CS-PBG-152-m01 |

## Module coordinator
head of Service Centre for Innovation in Teaching and Learning (ZiLS)

## Module offered by
head of Service Centre for Innovation in Teaching and Learning (ZiLS)

## ECTS
2 (not) successfully completed

## Duration
1 semester

## Module level
undergraduate

## Other prerequisites
--

### Contents
The module addresses the various opportunities of humanities students for entry into professional life. In this context, it provides the students with information on the whole range of possible occupational fields for humanities scholars. The students conduct an analysis of their strengths and weaknesses in order to identify their personal key competencies or lack thereof. Afterwards, they create a professional application portfolio to familiarise themselves with the guidelines of writing a curriculum vitae, an application letter and an unsolicited application. Furthermore, they practise their presentation skills in order to prepare for real job interviews.

### Intended learning outcomes
The students know possible occupational fields for humanities scholars. Apart from typical career opportunities, this also includes opportunities for lateral entry into the job market. The students know which personal key competencies qualify them for their desired occupation or for alternative occupational fields and are confident in using relevant sources of information. They are able to create a complete application portfolio as well as a personal portfolio containing relevant information for the desired occupational field. The students know how to write a personal curriculum vitae, application letters and unsolicited applications. Furthermore, they know the argumentative principles of job interviews. They are able to deal with the specific requirements on humanities scholars in the job market.

### Courses
(type, number of weekly contact hours, language — if other than German)

| Ü (1) |

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

| portfolio (approx. 7 pages) |

### Allocation of places
max. 15 places. Primarily for students from the humanities. Places will be allocated according to the number of subject semesters; among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

**Contents**

Learning in heterogeneous groups; realisation possibilities in fields of action in the context of school; conflict area subject didactics - special educational needs. Analysis and structuring of teaching materials; creating teaching materials; combining theoretical considerations and practical exercises; different forms of open learning for individual and differentiated learning.

**Intended learning outcomes**

Professional competence: The students know possibilities and materials for individualised and differentiated classes. They are able to analyse and organise school and preschool learning areas. They know organisation forms and pedagogical implications of learning in heterogeneous groups. Social competence: The students are able to work in teams, share responsibilities and discuss the presentation of results. Self-competence: The students are able to transfer results of scientific work to school processes, evaluate the use of means in school and evaluate or create learning materials. They are able to present and defend their own work results.

**Contents**

This module is designed to teach key skills in academic writing. Trained student mentors instruct their peers in how to prepare and plan the process of writing an academic text and how to go about academic research. They also offer advice on writing foreign-language texts and help students practise writing a diverse range of texts that are relevant in their fields of study. Regular completion of actual writing tasks is a core component of this course. Along with peer feedback, students receive feedback and support from their student mentors to enable them to master the specific requirements set by their fields of study.

**Intended learning outcomes**

Students achieve an overview of academic writing techniques and essentials as well as citation methods and best academic practice. Having been provided with expert training in academic writing methods, they will be capable of writing any text in their field of study appropriately, with stylistic confidence and using the correct format.

### Duration
1 semester

### Module level
undergraduate

### Contents
This module is designed to teach key skills when it comes to learning techniques and strategies as well as time management. Trained student mentors advise their peers on the use of specific organisational and memory aids in organising their time and exam preparation. Making practical use of the methods acquired is a core component of this course. Upon request, students receive support with their own learning tasks and feedback from their student mentors.

### Intended learning outcomes
Students gain an overview of learning techniques and essentials as well as time management. They will be able to fulfil tasks in their field of study quickly, pertinently and to a deadline. This will enable them to prepare for exams proficiently and in good time.

### Contents

This module is designed to teach key skills in presentation, group leadership and information literacy. Particular emphasis is on students learning to present academic content accurately and appropriately as well as getting to grips with the technical features of relevant software and hardware. In addition to providing students with support on current degree programme-related presentation projects, trained student mentors offer workshops and mentoring sessions on presentation techniques as well as on suitable behaviour when giving a presentation and dealing with feedback. The practical use of the methods acquired is an essential part of the course.

### Intended learning outcomes

By the end of the course, students will possess the following skills and key strengths to go about their studies successfully: essentials of group leadership and presentation, ability to apply established academic conduct methods, academic presentation practice and information literacy. They will also be able to effectively operate visual representation programs.

</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>(not) successfully completed</td>
<td>--</td>
</tr>
</tbody>
</table>

### Duration
1 semester

### Module level
undergraduate

### Contents
This module is designed to teach key skills in the principles of teaching. Students receive special training to become student mentors and broaden and consolidate their knowledge and skills through interactive workshops and relevant learning methods. Students carry out voluntary work, teaching Oberstufe students at cooperating Gymnasien (German high schools) the essentials of academic writing. They receive support and assistance at every stage of the project, mostly in the form of feedback sessions with their teachers.

### Intended learning outcomes
Students will gain subject-specific, methodical and personal skills they will later apply when teaching the fundamental principles and techniques of academic writing. The knowledge they gain in the first part of the course will enhance the academic writing skills as well as the teaching skills of students and will thus qualify them for their role as student mentors. This module includes voluntary work in schools, an experience the students will not only benefit from on a personal level but that will also enhance their social skills.

### Courses
(type, number of weekly contact hours, language — if other than German)

\[\text{Ü (1)}\]

### Method of assessment
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

written elaborations (approx. 10 pages total)

### Allocation of places
max. 10 places. Should the number of applications exceed the number of available places, places will be allocated as follows: Applicants from the Bachelor’s degree subjects of the Faculty of Arts will be given preferential consideration. The remaining places will be allocated to students of other subjects. Places will be allocated primarily according to the number of subject semesters; among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

--

### Contents

This module is designed to teach key skills in the principles of teaching as well as presentation skills. Participants develop an increased and intensified awareness of their own voice and of how their voice is perceived by others. They learn how to use body language that supports effective communication in an academic context. Comprising breathing and vocal exercises, the module teaches participants to keep a proper posture, use their voice effectively, and avoid voice strain. Practical exercises give participants the opportunity to receive constructive feedback on how they are perceived by others.

### Intended learning outcomes

Students have acquired methods and developed personal skills that allow them to influence how they are perceived by others. They are able to identify and analyse how their voice and body language is perceived by others and to develop their own strategies for improvement. Students are able to put into practice what they have learned and improve the quality of their own teaching. Having developed their self-awareness and their awareness of how they are perceived by others, students have enhanced their personal skills and are well prepared for taking on their role as active participants in the academic process.

**Contents**

This module deals with the challenges of the pedagogical work in schools and educational institutions for adolescents against the background of different cultures and cultural standards. Particular emphasis is placed on the diversity of values and life styles, different world views and orientation patterns as well as different ways of thinking and living of adolescents. At the same time, the thematic emphases are dealt with under an intercultural point of view.

**Intended learning outcomes**

Students have knowledge about different facets and subject areas of intercultural (adolescent) work. In dealing with the diversity of cultures and cultural interpretive patterns they command over basic intercultural key competencies. With the help of practical exercises students can transfer their knowledge to situations of their own pedagogical actions.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) presentation (approx. 30 minutes) with written elaboration (5 to 10 pages) or b) term paper (10 to 15 pages) or c) written examination (approx. 60 minutes) or d) portfolio (approx. 30 hours) or e) oral examination (approx. 30 minutes)

**Allocation of places**

30 places. Should the number of applications exceed the number of available places, places will be allocated as follows: Option 1: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available. Option 2: (1) Places will be allocated according to the number of subject semesters. (2) A waiting list will be maintained and places re-allocated as they become available.

**Contents**

This workshop gives participants the opportunity to enhance their academic reading skills. Participants expand and consolidate their skills in taking in and processing information presented in written form, skills that are essential to success in any degree subject. They are trained in efficient reading strategies and receive advice on how to read academic texts effectively. Practical exercises give participants the opportunity to put into practice the techniques they have learned and receive constructive feedback.

**Intended learning outcomes**

Students have acquired methods and developed personal skills that allow them to go about their studies successfully. They are able to analyse texts and manage their time efficiently. Students are able to identify relevant information and develop their own strategies for the improvement their reading skills. They are able to put into practice what they have learned and become more efficient readers. Having developed proficiency in relevant methods, students have enhanced their personal skills and are well prepared for taking on their role as active participants in the academic process.

**Contents**

Seminars and workshops covering essential lab techniques. Participants are arranged into small groups and instructed by peer tutors who have practical work experience as pharmaceutical, medical or biological lab technicians and share their expertise. Topics covered include: lab protocols, recording data and results in lab notebooks, dilution series: various buffers and solutions, calculation of molarity, preparation of small amounts of different solutions and buffers, pH values, titration, pipetting precisely, measuring, weighing, common mistakes, essential lab techniques, problem solving tools, material storage, lab safety and good practice.

**Intended learning outcomes**

Students are able to perform essential lab techniques independently, they have learned how to avoid common mistakes and have acquired problem solving skills. They can prepare standard solutions and buffers independently and can reliably calculate various dilution series as well as molarity. Students are able to record results and protocols in a lab notebook. They have been trained in safe laboratory practices.

Contents

Seminar and workshops covering common mistakes in scientific papers and common writing mistakes in English. Upon request, students will also be given the opportunity to enhance their presentation skills in English. Workshops and seminars will be taught by trained tutors. External lecturers may be invited to speak on specific topics.

Intended learning outcomes

Scientific writing skills in English. Students are able to communicate project descriptions as well as lab results and hypotheses effectively and convincingly in English. Students can create an outline and are aware of common ESL (English as a second language) mistakes. Students have learned how to handle general writing problems, such as writer's block.

### Contents
In this module, students (without any previous knowledge of the target language) gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

### Intended learning outcomes
Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. When they read or listen to texts, they will understand familiar, everyday expressions and very simple sentences. Students will be able to speak and write in the target language, using simple phrases. At the end of the module, students will have developed skills in the target language that are equivalent to level "A1 -- Breakthrough" of the Common European Framework of Reference for Languages.

### Courses (type, number of weekly contact hours, language — if other than German)
Ü (4)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (5 to 7 pages, 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Language of assessment: French

### Allocation of places
min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated by lot as they become available.

### Contents

In this module, students gain an intermediate knowledge of the target language. They develop language skills for both general and academic purposes.

### Intended learning outcomes

Students will develop an intermediate general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain an intermediate knowledge of the target language. The course focuses on developing students' listening comprehension and oral communication skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

This module will equip students with an intermediate general knowledge of the target language and will focus on developing listening comprehension as well as oral communication skills. The targeted skills training will enhance the spoken and written language skills of students to prepare them for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Contents

In this module, students gain an intermediate knowledge of the target language. The course focuses on training students in academic skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

Intended learning outcomes

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Courses

(2)

Once a year, winter semester

Method of assessment

(type, number of weekly contact hours, language — if other than German)

ü (2)

Assessment offered: In the semester in which the course is offered

Language of assessment: French

Allocation of places

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated by lot as they become available.

Other prerequisites

Required level of language proficiency: B2.1.

Contents

This online course equips students with an intermediate knowledge of the target language. It focuses on training students in academic skills while giving them an opportunity to systematically practise their listening comprehension and written communication skills. In addition, it gives students an opportunity to engage in guided information search to familiarise themselves with the French higher education system and French university culture.

Intended learning outcomes

Having been systematically trained in academic skills in the target language, students will be able to attend university in a country where the target language is spoken and to prepare for their stay abroad. Familiar with university terminology and appropriate linguistic structures and equipped with intercultural skills, students will be able to communicate effectively in a university setting. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)

Ü (2)

Course type: Ü offered by Virtuelle Hochschule Bayern (vhb)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) 2 to 5 assessments (5 to 10 pages, online exam)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on equipping students with subject-specific language skills for use in the workplace while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students develop sound (written and oral) communication skills in the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They develop advanced subject-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain an intermediate knowledge of the target language. The course focuses on familiarising students with grammatical structures while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students develop an intermediate general knowledge of the target language and become familiar with grammatical structures and phrases of intermediate complexity. They are able to communicate almost fluently and to talk and write about a broad range of topics. In addition, students are able to independently read and understand longer texts of high complexity as well as to write a range of formal and informal texts. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

### Contents

This online course equips students with a basic knowledge of the target language. It discusses cultural aspects and focuses on introducing students to the subjunctive mood (el subjuntivo).

### Intended learning outcomes

Students will develop a basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will be able to consolidate their language as well as sociolinguistic and pragmatic skills at this level. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Other prerequisites  
Required level of language proficiency: B1.

Contents
In this module, students gain an intermediate knowledge of the target language. They develop language skills for both general and academic purposes.

Intended learning outcomes
Students will develop an intermediate general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain an intermediate knowledge of the target language. The course focuses on familiarising students with grammatical structures while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students develop an intermediate general knowledge of the target language and become familiar with grammatical structures and phrases of intermediate complexity. They are able to communicate almost fluently and to talk and write about a broad range of topics. In addition, students are able to independently read and understand longer texts of high complexity as well as to write a range of formal and informal texts. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

### Contents

In this module, students gain an intermediate knowledge of the target language. They develop language skills for both general and academic purposes.

### Intended learning outcomes

Students will develop an intermediate general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

### Other prerequisites
Required level of language proficiency: B2.1.

### Contents
In this module, students gain an intermediate knowledge of the target language. The course focuses on training students in academic skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

### Intended learning outcomes
Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Only after succ. compl. of module(s)

Duration

1 semester

Module level

undergraduate

Other prerequisites

Course prerequisites: existing language skills; successful completion of module 42-ARA-A1.1 is therefore highly recommended.

Contents

In this module, students (with limited previous knowledge of the target language) gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

Intended learning outcomes

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. When they read or listen to texts, they will understand familiar, everyday expressions and very simple sentences. Students will be able to speak and write in the target language, using simple phrases. At the end of the module, students will have developed skills in the target language that are equivalent to level "A1 -- Breakthrough" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)

Building on the students' basic knowledge of written Arabic, this module teaches students how to independently read unvocalised Arabic texts of low to medium difficulty. Using selected texts, the course helps students expand their existing grammar skills, explains how to use dictionaries, and gives students an opportunity to practice using dictionaries.

Intended learning outcomes

Students have command of a basic vocabulary in Modern Standard Arabic (MSA). They are able to read and understand unvocalised Arabic texts as well as to use dictionaries to clarify meaning. This module aims to enable students to reach level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Contents
In this module, students gain a basic knowledge of Palestinian Arabic that will allow them to communicate in Palestinian dialect in standard situations during a stay abroad or in the workplace. They develop language skills for both general and academic purposes.

Intended learning outcomes
Students will develop a basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of the region in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. They will develop solid basic language skills that will allow them to actively participate in the Palestinian society. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

**Contents**

In this module, students (with some previous knowledge of the target language) gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop a basic ability to communicate in simple, routine situations, exchanging information about familiar matters in a simple and direct manner. At the end of the module, students will have developed skills in the target language that are equivalent to level "A2 -- Waystage" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

<table>
<thead>
<tr>
<th>Ü (4)</th>
</tr>
</thead>
</table>

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

- a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (5 to 7 pages, 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Language of assessment: Turkish

**Allocation of places**

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

In this module, students gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students will develop a basic general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about general topics, using fundamental grammatical structures and an appropriate yet limited vocabulary. At the end of the module, students will have developed skills in the target language that are equivalent to level "B1 -- Threshold" of the Common European Framework of Reference for Languages.

Module title: English B2.1  
Abbreviation: 42-ENG-B2.1-162-m01

Module coordinator: head of Language Centre (ZFS)  
Module offered by: Language Centre (ZfS)

ECTS: 5  
Method of grading: numerical grade  
Only after succ. compl. of module(s): --

Duration: 1 semester  
Module level: undergraduate  
Other prerequisites: Required level of language proficiency: B1.

Contents:
In this module, students gain an intermediate knowledge of the target language. They develop language skills for both general and academic purposes.

Intended learning outcomes:
Students will develop an intermediate general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They will understand longer speeches and presentations as well as longer texts of medium difficulty that use general and subject-specific vocabulary. They will be able to express themselves, both orally and in writing, in a structured and detailed manner about a number of topics of personal interest. This module aims to enable students to reach level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German):

## Contents

In this module, students gain an intermediate knowledge of the target language. They develop language skills for both general and academic purposes.

## Intended learning outcomes

Students will develop an intermediate general knowledge of the target language and become familiar with intercultural aspects as well as with the culture and society of countries in which the target language is spoken. They are able to communicate almost fluently and to talk and write about a broad range of topics. In addition, students are able to independently read and understand longer texts of high complexity as well as to write a range of formal and informal texts. At the end of the module, students will have developed skills in the target language that are equivalent to level “B2 -- Vantage” of the Common European Framework of Reference for Languages.

**Contents**

In this module, students gain an intermediate knowledge of the target language. The course focuses on training students in academic skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students are systematically trained in academic skills in the target language and will gain the ability to attend university in a country where the target language is spoken. They are able to understand and produce academic texts in in the target language. In addition, they can demonstrate the level of oral language proficiency that is required for study in their host countries. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

### Duration

1 semester

### Module level

undergraduate

### Other prerequisites

Required level of language proficiency: B2.1.

### Contents

This online course equips students with an intermediate knowledge of the target language that will allow them to apply for jobs, trainee positions, or work placements in countries where the target language is spoken. Students develop skills in the target language that will allow them to attend university and get by in everyday life in countries where the language is spoken.

### Intended learning outcomes

This module equips students with language skills that will allow them to attend university or prepare for working in countries where the target language is spoken. Having expanded their basic vocabulary, students possess the language skills required for living abroad and applying for jobs, trainee positions, or work placements abroad. In addition, they are able to continue learning on their own initiative and reach the level of language proficiency that is required for study in countries where the target language is spoken. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on equipping students with knowledge about the culture and society of countries where the target language is spoken while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students develop advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on developing students' academic presentation skills while equipping them with science-specific communication skills in the target language as well as country-specific intercultural skills.

**Intended learning outcomes**

Students gain sound oral, science-specific communication skills in the target language. They develop advanced science-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in scientific terminology and are able to present and discuss their theories and analyses in an appropriate manner. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses**

(Referred to in LPO I)

**Method of assessment**

a) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation); weighted 3:1 or b) 2 to 5 assessments (4 to 7 pages, 5 to 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students gain sound (written and oral) communication skills and become familiar with intercultural aspects as well as with the culture and society of countries where the target language is spoken. They are able to communicate about virtually any topic in a precise and nuanced manner, both orally and in writing, using language flexibly. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

The module offers opportunities for practical experience in the classroom and everyday school life and their theoretical reflection. This way, didactic concepts, teaching methods or methods for individual advancement and differentiation are conveyed. Through observations, individual advancement projects, internships or purposeful assignments inside or outside the classroom the students gain their own practical education and teaching experiences.

**Intended learning outcomes**

The students are able to put theoretical approaches into practice in an activity-oriented fashion and reflect upon it in a theory-driven way. They are experienced in the application of concepts and models in the classroom or in individual advancement. They can attribute the direct learning behavior of students to the use of concepts and models and therefore apply those purposefully. They are able to employ different approaches according when explaining teaching material to pupils according to this pupil's individual needs and capabilities.

Module coordinator
head of Language Centre (ZFS)

Module offered by
Institute of German Studies

ECTS
3

Method of grading
(only after successfully completed module(s))

Duration
1 semester

Module level
undergraduate

Other prerequisites
-

Contents
During the courses German as a Second Language or GFL, students will deal with key issues, ideas, approaches and methods of the course. They will become familiar with the acquisition and advanced structures of oral and written language acquisition for learners of German as a Second Language and acquire basic principles of migration and integration research, which is an essential part of the course. A concretisation of the methods will take place in terms of language and literature imparting in all school forms, taking account of the learning conditions of the students that learn German as a Second Language. Furthermore, the implementation of a course in all subjects, which will give students the chance to speak in this language in order to promote the feeling for the language, will be discussed.

Intended learning outcomes
Students acquire fundamental knowledge of mediation processes of German as a Second Language or of a specialised class in all disciplines, which will give students the chance to speak in this language in order to promote the feeling for the language, referring to current research and including practical school challenges. They will be familiar with current problem areas and tasks, which are necessary for the professional skills in order to plan, implement and reflect an own class, of a contemporary specialised class. In doing so and in terms of increasing self-competence, the students develop a basic understanding of a theory-driven, practice-oriented, subject related and in pedagogical contexts involved instructional dealing. Here, they can understand and integrate particular learning initial situations of non-native learners.

**Contents**

This module is designed to teach key skills in the principles of teaching as well as presentation skills. Participants develop an increased and intensified awareness of their own voice and of how their voice is perceived by others. They learn how to use body language that supports effective communication in an academic context. Comprising breathing and vocal exercises, the module teaches participants to keep a proper posture, use their voice effectively, and avoid voice strain. Practical exercises give participants the opportunity to receive constructive feedback on how they are perceived by others.

**Intended learning outcomes**

Students have acquired methods and developed personal skills that allow them to influence how they are perceived by others. They are able to identify and analyse how their voice and body language is perceived by others and to develop their own strategies for improvement. Students are able to put into practice what they have learned and improve the quality of their own teaching. Having developed their self-awareness and their awareness of how they are perceived by others, students have enhanced their personal skills and are well prepared for taking on their role as active participants in the academic process.

### Contents
In this course we use the examples of first aid and lifesaving to discuss and practise the basics of helping and rescuing. We study central aspects relevant to school with and without reference to school sports. These aspects include specific behaviour guidelines and rescue measures in the fields of supervision of pupils during swimming lessons and first aid.

### Intended learning outcomes
The students have basic skills in first aid and lifesaving. They are aware of measures to prevent and avoid accidents, especially in the field of planning and conducting physical education classes. Furthermore, the students are skilled in assessing safety and preventing hazards in the context of extracurricular physical activities. In the field of lifesaving, they know how to rescue themselves and others.

**Contents**

In this module, students gain an intermediate knowledge of the target language. The course focuses on developing students' reading comprehension and written communication skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

This module will equip students with an intermediate general knowledge of the target language and will focus on developing reading comprehension as well as written communication skills. The targeted skills training will enhance the spoken and written language skills of students to prepare them for the lowest level of mobility (unterste Mobilitätsstufe) as recommended by the Council of Europe. At the end of the module, students will have developed skills in the target language that are equivalent to level "B2 -- Vantage" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (2)

Once a year, summer semester

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) 2 to 5 assessments (5 to 10 pages)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

**Contents**

In this module, students gain a basic knowledge of Palestinian Arabic that will allow them to orient themselves in basic situations in the target language. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students will develop a basic general knowledge of Palestinian Arabic and become familiar with intercultural aspects as well as with the culture and society of the region in which the target language is spoken. When they read or listen to texts on topics they are familiar with, they will understand the main points. They will be able to talk and write about very general topics, using fundamental grammatical structures and a limited vocabulary. In addition, they recognise and understand differences between standard language and dialect. This module aims to enable students to reach level "B1 -- Vantage" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (4)
Once a year, summer semester

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation); weighted 3:1 or c) 2 to 5 assessments (5 to 7 pages, 10 minutes)

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Assessment offered: In the semester in which the course is offered
Language of assessment: Arabic

**Allocation of places**

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Places will be allocated by lot. (2) A waiting list will be maintained and places re-allocated as they become available.

**Other prerequisites**

Required level of language proficiency: B2.2.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on equipping students with intercultural skills while giving them an opportunity to systematically practise their communication skills.

**Intended learning outcomes**

Students develop advanced language and intercultural skills that will allow them to communicate, both verbally and in writing, in a broad range of situations, taking intercultural aspects into account. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses (type, number of weekly contact hours, language — if other than German)**

Ü (2)

Once a year, summer semester

**Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)**

**Contents**
This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on developing students’ natural sciences-specific communication skills in the target language (written skills in particular) and equips them with country-specific intercultural skills.

**Intended learning outcomes**
Students gain sound written, natural sciences-specific communication skills in the target language. They develop advanced natural sciences-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in scientific terminology. They are able to understand scientific texts as well as to critically evaluate and correct their own texts. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Contents

This module will teach students how to write academic texts in the target language. It will examine the structure of academic texts, analysing selected examples, and will discuss formal, grammatical, and lexical problems that are frequently encountered by students.

Intended learning outcomes

Students are able to understand academic texts and research problems. They are able to write on research problems, adhering to the principles of good academic practice (academic writing conventions, citation rules, style). This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

Courses (type, number of weekly contact hours, language — if other than German)

### Contents
Principles of different configurations of new media technologies and their applicability in school.

### Intended learning outcomes
After successfully completing this module, the students are able to use different configurations of new media technologies for planning and teaching school lessons. Furthermore, they are able to plan, conduct and present smaller projects in the field of new media technologies.

### Courses (type, number of weekly contact hours, language — if other than German)
S (2)

### Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
project including presentation (20 to 30 minutes)

### Allocation of places
max. 24 places. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

### Additional information

**Contents**

Seminar and workshops covering common mistakes in scientific papers and common writing mistakes in English. Upon request, students will also be given the opportunity to enhance their presentation skills in English. Workshops and seminars will be taught by trained tutors. External lecturers may be invited to speak on specific topics.

**Intended learning outcomes**

Scientific writing skills in English. Students are able to communicate project descriptions as well as lab results and hypotheses effectively and convincingly in English. Students can create an outline and are aware of common ESL (English as a second language) mistakes. Students have learned how to handle general writing problems, such as writer's block.

**Contents**

Practical introduction to creating a video project by using different working methods.

**Intended learning outcomes**

After successfully completing this module, the students have basic knowledge of working with cameras and video editing software. Therefore, they are able to implement basic projects in the field of film studies.

**Courses** (type, number of weekly contact hours, language — if other than German)

S (2)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

project including presentation (approx. 20 minutes)

**Allocation of places**

max. 12 places. Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. The remaining places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

## Contents

The aim of the module is to produce a professional video clip (broadcasts). Therefore, the principles of audio and video work, e.g. lighting engineering, camera settings, editing, montage, and professional recording of audio tracks, are conveyed during the course. Afterwards, the students apply their acquired skills to practical projects at the video / recording studio. Finally, the resulting audiovisual materials are converted into different target formats for the internet, live streams etc.

### Intended learning outcomes

Basic skills regarding the proper usage of professional audio and video technology, basic skills in lighting engineering, postproduction (e.g. for various platforms), planning and designing broadcasts.

**Contents**

In this module, students (with some previous knowledge of the target language) gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop a basic ability to communicate in simple, routine situations, exchanging information about familiar matters in a simple and direct manner. At the end of the module, students will have developed skills in the target language that are equivalent to level "A2 -- Waystage" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

| Ü (4) |

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) Written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e. g. contribution to the discussion, group presentation), weighted 3:1 or c) 2 to 5 assessments (7 to 10 pages, 5 to 10 minutes).

Assessments may take a written or an oral form or a combination of these two forms. The number and type of assessments will be specified by the lecturer at the beginning of the course. Examples of oral forms of assessment include but are not limited to short presentations, presentations and contributions to the discussion. Examples of written forms of assessment include but are not limited to text production as well as listening and reading exercises. The total scope/length of oral and/or written assessments will be announced in class.

Language of assessment: Arabic
creditable for bonus

**Allocation of places**

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: 1. Places will be allocated by lot. 2. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

Usage of specific statistical methods on practical examples

**Intended learning outcomes**

The participants know how to evaluate data statistically and how to use statistic methods in practical examples.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (3)

Module taught in: German and/or English

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

- a) written examination (approx. 45 to 60 minutes) or
- b) log (approx. 10 to 20 pages) or
- c) oral examination of one candidate each (approx. 30 minutes) or
- d) oral examination in groups of up to 3 candidates (approx. 20 minutes per candidate) or
- e) presentation (approx. 20 to 30 minutes) or
- f) practical examination (on average approx. 2 hours; time to complete will vary according to subject area but will not exceed a maximum of 4 hours).

Students will be informed about the method and length of the assessment prior to the course.

Language of assessment: German and/or English

**Allocation of places**

10 places. Should the number of applications exceed the number of available places, places will be allocated as follows:

Students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits will be given preferential consideration. Should the module be used in other subjects, there will be two quotas: 95% of places will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits and 5% of places (a minimum of one place in total) will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 60 ECTS credits and to students of the Bachelor’s degree subjects Computational Mathematics and Mathematik (Mathematics), each with 180 ECTS credits, as part of the application-oriented subject Biologie (Biology) (as well as potentially to students of other ‘importing’ subjects). Should the number of places available in one quota exceed the number of applications, the remaining places will be allocated to applicants from the other quota. Should there be, within one module component, several courses with a restricted number of places, there will be a uniform regulation for the courses of one module component. In this case, places on all courses of a module component that are concerned will be allocated in the same procedure. In this procedure, applicants who already have successfully completed at least one other module component of the respective module will be given preferential consideration.

A waiting list will be maintained and places re-allocated as they become available.

**Selection process group 1 (95%)**: Places will primarily be allocated according to the applicants’ previous academic achievements. For this purpose, applicants will be ranked according to the number of ECTS credits they have achieved and their average grade of all assessments taken during their studies or of all module components in the subject of Biologie (Biology) (excluding Chemie (Chemistry), Physik (Physics), Mathematik (Mathematics)) at the time of application. This will be done as follows: first, applicants will be ranked, firstly, according to their average grade weighted according to the number of ECTS credits (qualitative ranking) and, secondly, according to their total number of ECTS credits achieved (quantitative ranking). The applicants’ position in a third ranking will be calculated as the sum of these two rankings, and places will be allocated according to this third ranking. Among applicants with the same ranking, places will be allocated according to the qualitative ranking or otherwise by lot.
Selection process group 2 (5%): Places will be allocated according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in modules/module components of the Faculty of Biology; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): lottery.

Should the module be used only in the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits, places will be allocated according to the selection process of group 1.

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 45 to 60 minutes) or b) log (approx. 10 to 20 pages) or c) oral examination of one candidate each (approx. 30 minutes) or d) oral examination in groups of up to 3 candidates (approx. 20 minutes per candidate) or e) presentation (approx. 20 to 30 minutes) or f) practical examination (on average approx. 2 hours; time to complete will vary according to subject area but will not exceed a maximum of 4 hours).

Students will be informed about the method and length of the assessment prior to the course.

Language of assessment: German and/or English

**Allocation of places**

10 places. Should the number of applications exceed the number of available places, places will be allocated as follows:

Students of the Bachelor's degree subject Biologie (Biology) with 180 ECTS credits will be given preferential consideration. Should the module be used in other subjects, there will be two quotas: 95% of places will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits and 5% of places (a minimum of one place in total) will be allocated to students of the Bachelor’s degree subject Biologie (Biology) with 60 ECTS credits and to students of the Bachelor's degree subjects Computational Mathematics and Mathematik (Mathematics), each with 180 ECTS credits, as part of the application-oriented subject Biology (as well as potentially to students of other 'importing' subjects). Should the number of places available in one quota exceed the number of applications, the remaining places will be allocated to applicants from the other quota. Should there be, within one module component, several courses with a restricted number of places, there will be a uniform regulation for the courses of one module component. In this case, places on all courses of a module component that are concerned will be allocated in the same procedure. In this procedure, applicants who already have successfully completed at least one other module component of the respective module will be given preferential consideration.

A waiting list will be maintained and places re-allocated as they become available.

Selection process group 1 (95%): Places will primarily be allocated according to the applicants’ previous academic achievements. For this purpose, applicants will be ranked according to the number of ECTS credits they have achieved and their average grade of all assessments taken during their studies or of all module components in the subject of Biologie (Biology) (excluding Chemie (Chemistry), Physik (Physics), Mathematik (Mathematics)) at the time of application. This will be done as follows: first, applicants will be ranked, firstly, according to their average grade weighted according to the number of ECTS credits (qualitative ranking) and, secondly, according to their total number of ECTS credits achieved (quantitative ranking). The applicants' position in a third ranking will be calculated as the sum of these two rankings, and places will be allocated according to this third ranking. Among applicants with the same ranking, places will be allocated according to the qualitative ranking or otherwise by lot.
Selection process group 2 (5%): Places will be allocated according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in modules/module components of the Faculty of Biology; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): lottery.

Should the module be used only in the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits, places will be allocated according to the selection process of group 1.

### Contents

Computer languages and programming using one or more computer languages like Java, C, C++, C#, Python, PHP.

### Intended learning outcomes

The participants know the basics about computer languages and programming.

### Courses (type, number of weekly contact hours, language — if other than German)

| Ü (1) | Module taught in: German and/or English |

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

- a) written examination (approx. 45 to 60 minutes) or b) log (approx. 10 to 20 pages) or c) oral examination of one candidate each (approx. 30 minutes) or d) oral examination in groups of up to 3 candidates (approx. 20 minutes per candidate) or e) presentation (approx. 20 to 30 minutes) or f) practical examination (on average approx. 2 hours; time to complete will vary according to subject area but will not exceed a maximum of 4 hours).

Students will be informed about the method and length of the assessment prior to the course.

**Language of assessment:** German and/or English

**Creditable for bonus**

### Allocation of places

10 places. Should the number of applications exceed the number of available places, places will be allocated as follows:

Students of the Bachelor's degree subject Biologie (Biology) with 180 ECTS credits will be given preferential consideration. Should the module be used in other subjects, there will be two quotas: 95% of places will be allocated to students of the Bachelor's degree subject Biologie (Biology) with 180 ECTS credits and 5% of places (a minimum of one place in total) will be allocated to students of the Bachelor's degree subject Computational Mathematics and Mathematik (Mathematics), each with 180 ECTS credits, as part of the application-oriented subject Biologie (Biology) (as well as potentially to students of other 'importing' subjects). Should the number of places available in one quota exceed the number of applications, the remaining places will be allocated to applicants from the other quota. Should there be, within one module component, several courses with a restricted number of places, there will be a uniform regulation for the courses of one module component. In this case, places on all courses of a module component that are concerned will be allocated in the same procedure. In this procedure, applicants who already have successfully completed at least one other module component of the respective module will be given preferential consideration.

A waiting list will be maintained and places re-allocated as they become available.

### Selection process group 1 (95%):

Places will primarily be allocated according to the applicants' previous academic achievements. For this purpose, applicants will be ranked according to the number of ECTS credits they have achieved and their average grade of all assessments taken during their studies or of all module components in the subject of Biologie (Biology) (excluding Chemie (Chemistry), Physik (Physics), Mathematik (Mathematics)) at the time of application. This will be done as follows: first, applicants will be ranked, firstly, according to their average grade weighted according to the number of ECTS credits (qualitative ranking) and, secondly, according to their total number of ECTS credits achieved (quantitative ranking). The applicants' position in a third ranking will be calculated as the sum of these two rankings, and places will be allocated according to this third ranking. Among applicants with the same ranking, places will be allocated according to the qualitative ranking or otherwise by lot.
Selection process group 2 (5%): Places will be allocated according to the following quotas: Quota 1 (50% of places): total number of ECTS credits already achieved in modules/module components of the Faculty of Biology; among applicants with the same number of ECTS credits achieved, places will be allocated by lot. Quota 2 (25% of places): number of subject semesters of the respective applicant; among applicants with the same number of subject semesters, places will be allocated by lot. Quota 3 (25% of places): lottery.

Should the module be used only in the Bachelor’s degree subject Biologie (Biology) with 180 ECTS credits, places will be allocated according to the selection process of group 1.

Contents

We develop and implement marketing measures to draw attention to the range of services of the Career Service and to increase its popularity amongst students and teachers. In addition, we cooperate with the students to determine their current needs in order to optimise the work of the Career Service. The work placement includes weekly meetings, an analysis of the efficiency of the Career Service so far, the development of new and original target-group-specific measures and the independent implementation of a measure within the team of trainees, using different forms of organisation and (online) media.

Intended learning outcomes

The trainees become acquainted with a variety of marketing measures and their practical application. They learn what to keep in mind when organising events, developing ideas and implementing unusual marketing measures. They are able to develop and apply various methods of editorial work for online marketing (e.g. websites, blogs, Facebook campaigns, live posts). Furthermore, they improve their communication and presentation skills by making personal appearances on different occasions and in front of different groups. The trainees acquire broad competencies in team and project work which also include the evaluation of campaigns and measures on the basis of a documentation which serves as a foundation for the work of the next group of trainees.

Courses (type, number of weekly contact hours, language — if other than German)

P (4)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

report (approx. 10 pages)

Allocation of places

max. 5 places. Places will be allocated after review of written applications and interviews. Should there be more than 5 equally qualified applicants, places will be allocated according to the number of subject semesters.

Module title
B2B Journalism

Abbreviation
38-CS-FJ-182-m01

Module coordinator
head of Service Centre for Innovation in Teaching and Learning (ZiLS)

Module offered by

ECTS
2

Method of grading
Only after successfully completed

(not) successfully completed
--

Duration
1 semester

Module level
undergraduate

Other prerequisites
--

Contents
Differentiation between specialist publishers and other types of publishers. Entry-level career opportunities in the field of specialised journalism. Scope of work in editorial departments. Relevance of professional events. Sample tasks that the participants have to perform in the context of a (current) professional event: Forms of documentation in the context of crossmedia, editorial work, preparation, implementation and evaluation of interviews, presentation of results.

Intended learning outcomes
The students become acquainted with the occupational field of specialised journalism. They know which personal key competencies qualify them for working in this field and are confident in using relevant sources of information. They are able to create a portfolio containing relevant information for the above-mentioned occupational field, the self-developed presentations, press releases and interview documentations. The oral and written presentations serve as opportunities for exercising various communication and social competencies.

Courses (type, number of weekly contact hours, language — if other than German)
Ü (1)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)
portfolio (approx. 7 pages), in addition in digital form
Assessment offered: Once a year, winter semester

Allocation of places
max. 20 places. Primarily for students from the humanities. Places will be allocated according to the number of subject semesters; among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated as they become available.

**Contents**

In this module, students (without any previous knowledge of the target language) gain a basic knowledge of the target language. They develop language skills for both general and academic purposes.

**Intended learning outcomes**

Students will develop basic general language skills and become familiar with intercultural aspects. They will develop an elementary ability to communicate and exchange information in a very basic way. When they read or listen to texts, they will understand familiar, everyday expressions and very simple sentences. Students will be able to speak and write in the target language, using simple phrases. At the end of the module, students will have developed skills in the target language that are equivalent to level “A1 -- Breakthrough” of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)

Ü (4)

**Method of assessment** (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)

a) written examination (approx. 90 minutes) or b) Written examination (approx. 60 to 90 minutes) and oral assessment (5 to 10 minutes, e.g. contribution to the discussion, group presentation), weighted 3:1 or c) 2 to 5 assessments (4-7 pages, 15 to 20 minutes).

Die Teilleistungen können sowohl in schriftlicher oder mündlicher Form als auch in Kombination aus beiden Formen erbracht werden. Der Dozent bzw. die Dozentin gibt zu LV-Beginn Anzahl und Art der Teilleistungen bekannt. Mündliche Teilleistungen können e.g. in Form von Kurzpräsentation, Präsentation oder contribution to the discussion erbracht werden. Schriftliche Teilleistungen können e.g. in Form von Textproduktion oder Hör- und Leseübung erbracht werden. Der Gesamtumfang der mündlichen und/oder schriftlichen Teilleistungen wird im Modul angegeben.

Language of assessment: Portuguese

**Allocation of places**

min. 5, max. 25 places. Should the number of applications exceed the number of available places, places will be allocated as follows: 1. Places will be allocated by lot. 2. A waiting list will be maintained and places re-allocated by lot as they become available.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on equipping students with knowledge about the culture and society of countries where the target language is spoken while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students develop advanced language skills and a thorough familiarity with the culture and society of countries where the target language is spoken. They are thus able to communicate, both verbally and in writing, in a variety of situations, taking into account aspects related to the culture and society of said countries. They are able to effectively and flexibly use the target language, both during study abroad periods and in the workplace. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

### Contents
This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on developing students' academic presentation skills while equipping them with science-specific communication skills in the target language as well as country-specific intercultural skills.

### Intended learning outcomes
Students gain sound oral, science-specific communication skills in the target language. They develop advanced science-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in scientific terminology and are able to present and discuss their theories and analyses in an appropriate manner. This module aims to enable students to reach level "C1 -- Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Contents**

This module equips students with an advanced knowledge of the target language that will allow them to communicate appropriately, in both written and oral form, at university and in the workplace. The course focuses on equipping students with humanities-specific communication skills while giving them an opportunity to systematically practise their communication skills and equipping them with country-specific intercultural skills.

**Intended learning outcomes**

Students gain sound humanities-specific communication skills (written and oral) in the target language. They develop advanced humanities-specific language skills that will allow them to communicate about selected topics in corresponding situations, using language flexibly. Students are proficient in humanities terminology and are able to communicate effectively within the discipline. This module aims to enable students to reach level "C1 - Effective Operational Proficiency" of the Common European Framework of Reference for Languages.

**Courses** (type, number of weekly contact hours, language — if other than German)
