Students will observe -- beyond the work placement that accompanies the studies -- lessons at cooperating educational institutions (secondary schools or grammar schools, maybe non-scholastic educational institution). The observation will be conducted via selected methods of empirical lesson research. Moreover, students test their own lesson concepts based on research of action.			
Intended learning outcomes			
Skills of empirical educational research, applied to issues of subject-specific didactics French/Italian/Spanish. Students have skills to implement little teaching-related research projects. Compared to the common teacher training course, the module covers consolidated teaching competence, particularly the competence to develop scientific profound and reflected teaching.
