

# Subdivided Module Catalogue

for the Subject

# Educational Science

with the degree "Erste Staatsprüfung für das Lehramt für  
Sonderpädagogik"

Examination regulations version: 2009

Responsible: Faculty of Catholic Theology

Responsible: Faculty of Arts, Historical, Philological, Cultural and Geographical  
Studies

Responsible: Faculty of Human Sciences

## Abbreviations used

Course types: **E** = field trip, **K** = colloquium, **O** = conversatorium, **P** = placement/lab course, **R** = project, **S** = seminar, **T** = tutorial, **Ü** = exercise, **V** = lecture

Term: **SS** = summer semester, **WS** = winter semester

Methods of grading: **NUM** = numerical grade, **B/NB** = (not) successfully completed

Regulations: **(L)ASPO** = general academic and examination regulations (for teaching-degree programmes), **FSB** = subject-specific provisions, **SFB** = list of modules

Other: **A** = thesis, **LV** = course(s), **PL** = assessment(s), **TN** = participants, **VL** = prerequisite(s)

## Conventions

Unless otherwise stated, courses and assessments will be held in German, assessments will be offered every semester and modules are not creditable for bonus.

## Notes

Should there be the option to choose between several methods of assessment, the lecturer will agree with the module coordinator on the method of assessment to be used in the current semester by two weeks after the start of the course at the latest and will communicate this in the customary manner.

Should the module comprise more than one graded assessment, all assessments will be equally weighted, unless otherwise stated below.

Should the assessment comprise several individual assessments, successful completion of the module will require successful completion of all individual assessments.

## In accordance with

the general regulations governing the degree subject described in this module catalogue:

**LASPO2009**

associated official publications (FSB (subject-specific provisions)/SFB (list of modules)):

**15-Mar-2012 (2012-11)**

**28-Sep-2015 (2015-174)**

This module handbook seeks to render, as accurately as possible, the data that is of statutory relevance according to the examination regulations of the degree subject. However, only the FSB (subject-specific provisions) and SFB (list of modules) in their officially published versions shall be legally binding. In the case of doubt, the provisions on, in particular, module assessments specified in the FSB/SFB shall prevail.

## The subject is divided into

#### Freier Bereich (general as well as subject-specific electives)

Teaching degree students must take modules worth a total of 15 ECTS credits in the area Freier Bereich (general as well as subject-specific electives) (Section 9 LASPO (general academic and examination regulations for teaching-degree programmes)). To achieve the required number of ECTS credits, students may take any modules from the areas below.

Freier Bereich (general as well as subject-specific electives) -- open for all teaching degree students irrespective of their subject combinations: For additional courses that are open to all teaching degree students irrespective of their subject combinations (fächerübergreifendes Zusatzangebot), please refer to the respective Annex of the "Ergänzende Bestimmungen für den "Freien Bereich" im Rahmen des Studiums für ein Lehramt" (Supplementary Provisions on the Area "Freier Bereich" in Teaching-Degree Programmes).

Freier Bereich (general as well as subject-specific electives) -- subject specific (teaching degree Grundschule (LA GS), teaching degree Mittelschule (LA MS), teaching degree Realschule (LA RS) or teaching degree special education (LA SoP)).

#### **Pedagogic-didactic teaching placement (6 ECTS credits)**

There will be separate modules Pädagogisch-didaktisches Schulpraktikum (Pedagogic-Didactic Teaching Placement) for each type of school; please select the module for the school type for which you are pursuing a teaching degree.

o6-Schul-PDPrakt-So-092-mo1	Pedagogic-didactic teaching placement	6	B/NB	73
-----------------------------	---------------------------------------	---	------	----

#### **Thesis (10 ECTS credits)**

Preparation of a written Hausarbeit (thesis) in accordance with the provisions of Section 29 LPO I (examination regulations for teaching-degree programmes) is a prerequisite for teaching degree students to be admitted to the Erste Staatsprüfung (First State Examination). The Hausarbeit module is worth 10 ECTS credits.

Students studying for a teaching degree Grundschule or Hauptschule may write their Hausarbeit (thesis) pursuant to Section 29 LPO I (examination regulations for teaching-degree programmes) in the subject Erziehungswissenschaften (Educational Science) (Erziehungswissenschaftliches Studium (Educational Science Courses) or Gesellschaftswissenschaftliches Studium (Social and Political Sciences Courses)), in the subject Didaktiken einer Fächergruppe der Hauptschule (Didactics of a Group of Subjects of Hauptschule) within the meaning of Section 38 Subsection 1 LPO I, Didaktik der Grundschule (Didactics for Grundschule) within the meaning of Section 36 Subsection 1 LPO I, or in the subject they selected as Unterrichtsfach (subject studied with a focus on the scientific discipline). Students may also choose to write an interdisciplinary thesis. Students studying for a teaching degree Realschule or Gymnasium may write their Hausarbeit (thesis) pursuant to Section 29 LPO I (examination regulations for teaching-degree programmes) in the subject Erziehungswissenschaften (Educational Science) (Erziehungswissenschaftliches Studium (Educational Science Courses)) or in one of the two subjects they selected as Unterrichtsfach or vertieft studiertes Fach (subject studied with a focus on the scientific discipline). Students may also choose to write an interdisciplinary thesis.

Students studying for a teaching degree in special education may write their Hausarbeit (thesis) in their specialisation in special education. In accordance with the provisions of Section 29 Subsection 1 Sentence 2 LPO I (examination regulations for teaching-degree programmes), students may also choose to write an interdisciplinary thesis. For the Hausarbeit modules of each specialisation in special education, see the corresponding SFB (list of modules).

<b>Module title</b>		<b>Abbreviation</b>
<b>Religion and theology in culture and society 1</b>		01-GWS1-092-m01

<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
3	(not) successfully completed	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	undergraduate	--
<b>Contents</b>		
The socio-anthropological impact of religion. Discussion of the relevance religious education has in today's secular society. The cultural relevance of religious phenomena and forms of expression of religion. An introduction to theological arguments in current debates in ethics.		
<b>Intended learning outcomes</b>		
At the end of the course, students will have become familiar with religion and religious phenomena in today's plural and multicultural society. They will have developed a knowledge of the fundamental principles of the theology of religions and will have approached problems in anthropology from a religious point of view. They will be able to critically reflect upon religious phenomena and forms of expression of religion.		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
V (no information on SWS (weekly contact hours) and course language available)		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)		
a) oral examination of one candidate each (approx. 15 minutes) or b) oral examination in groups (groups of 2: approx. 30 minutes, groups of 3: approx. 45 minutes) or c) presentation (approx. 30 minutes) or d) written examination (approx. 30 minutes) or e) essay (approx. 5 pages) or f) assessments during lecture period (approx. 20 hours total). Assessments during the lecture period comprise several small assessments such as completing case or application-oriented exercises, completing work sheets, conducting research or preparing a portfolio. These assessments accompany the course and serve purposes of preparation, consolidation of knowledge and skills, reflection, practical application and documentation of progress in the learning process.

<b>Contents</b>		
Interrelations between religion, politics, and faith in today's multicultural and secular society. Religious pluralism and the dialogue of religions. Analysis of the relevance and power of religious faith and theology to shape society with special attention to religious aspects of education. Discussion of different religious (biblico-theological) understandings of the human person and their political implications for contemporary issues. An introduction to patterns and forms of theological/religious argument relating to problems in ethics.		
<b>Intended learning outcomes</b>		
At the end of the course, students will have become familiar with religion as a socio-anthropological reality. They will be able to identify and critically reflect upon religious phenomena in a socio-cultural context. Students will have become familiar with religious understandings of the human person and will have developed an appreciation of their contribution to the anthropology debate. They will have been introduced to the dialogue of religions.

ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	By way of exception, additional prerequisites are listed in the section on assessments.
Contents		
<p>The module gives a basic insight into the research of everyday and popular cultures from the view of European Ethnology/ Cultural Anthropology (empirical cultural science, Cultural Anthropology). For a long time, it has only been the "nice things" of the former "cultures" that had to be saved, but for a modern Cultural Anthropology, the testimonies of everyday and popular mass culture are of great significance: The dramatic changes of the pre-industrial world changing into an industrial and post-industrial world are visible. This changed research concept of the cultural analysis, the most important technical terms, sources, methods as well as selected working areas and technical relevant basics of the scientific work covers an overall introduction to the research field culture. The acquired basics will be consolidated and differentiated on the basis of a generic topic area. Thus, the study of specific everyday and popular cultures in history and the present age takes place, taking into account the regional, particularly the dealing with Bavarian regions, but also cultural and intercultural environment issues. Hence, the module provides a detailed background knowledge of the field of experience of pupils and students that can be applied to the school practice at the same time.</p>		
Intended learning outcomes		
<p>Students acquire the following competences: - Fundamental knowledge of scientific working methods; -Basic knowledge of folkloric and ethnological cultural analysis; -Advanced knowledge of a generic working field from the area of cultural analysis or Ethnography based on generic everyday and popular cultures from the past and present age; Dealing autonomously with cultural phenomena and processes based on typical examples; - Students acquire general cultural practice and intercultural competences in a selected field of study, especially for the implementation of school lessons (e.g. Regional and Cultural studies, History, Ethics, Religious Education).</p>		
Courses (type, number of weekly contact hours, language — if other than German)

<b>Contents</b>		
Types, development and identification of intellectual giftedness and its typical manifestations in secondary education, including the resulting advantages and disadvantages in school life. Necessity and measures of special support for highly gifted pupils in secondary education.		
<b>Intended learning outcomes</b>		
The students have knowledge of intellectual giftedness in pupils in secondary education as well as the forms, development and possibilities of identification. They know the capabilities and limits of highly gifted pupils in secondary education as well as the possible developmental problems of these pupils. They know school and extracurricular measures for the promotion of highly gifted pupils as well as the possibilities of psychological counselling.

Psychology of individual differences and personality; Assessment and Evaluation in Educational Psychology			o6-Psy-DiffDia-o92-mo1
Module coordinator		Module offered by	
holder of the Professorship of Educational Psychology		Institute of Psychology	
ECTS	Method of grading	Only after succ. compl. of module(s)	
5	numerical grade	--	
Duration	Module level	Other prerequisites	
1 semester	undergraduate	Admission prerequisite to assessment: 8 exercises (approx. 1 page) as specified by vhb.	
Contents			
Cognitive (intelligence, talent, creativity), emotional (eagerness to learn, anxiety) and motivational (motivation through curiosity, learning and performance motivation, interest, self-concept) requirements of learning; professional development of teachers / psychological principles and quality criteria; measuring of school performance, grading and assessment of training success; questioning, assessment, observation and test methods; diagnostics of school readiness for different types of school; methods of school related evaluation			
Intended learning outcomes			
The students are able to identify, classify and explain the development of the performance and personality structure of pupils as well as the corresponding differences between pupils including the different manifestations of different talents. They acquire knowledge of the individual emotional-motivational and cognitive requirements for the development and improvement of the pupils' performance. They are able to theoretically analyse, if necessary alter and practically apply conventional and psychological scientific methods for the assessment of performance.

<b>Learning and Instruction; Social Psychology</b>		o6-Psy-LernSoz-092-mo1
Module coordinator		Module offered by
holder of the Professorship of Educational Psychology		Institute of Psychology
ECTS	Method of grading	Only after succ. compl. of module(s)
4	(not) successfully completed	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
<b>Contents</b>		
Basic learning processes (theories and principles of human learning including cognitive learning processes); memory, knowledge acquisition (models of memory and requirements of memorising and knowledge building); thinking, problem solving (thinking processes and their principles, also during problem solving); instruction, quality of classes (specific measures and requirements of improving classes) / social interaction and communication (teacher-student and student-student interaction, intercultural learning); social structures and processes in small groups (school class, work group, teaching staff, family); social attitudes, social cognition and subjective theories in teachers and students as well as their modification); social conflicts and their resolution.		
<b>Intended learning outcomes</b>		
Advanced methodological knowledge gives the students a better understanding of psychological literature. Knowledge of Psychology of Learning, Memory, Thinking and Knowledge facilitates better teaching on the one hand and efficient help for better learning on the other hand. Advanced knowledge of Social Psychology improves the students' sympathy for pupils and their dependency on group, family and society; therefore, the students have the knowledge necessary for controlling social phenomena in class and for promoting a supportive social atmosphere in class.

Contents		
Self-perception, self-reflection and resource analysis regarding one's suitability as a teacher and the decision to study a teaching degree programme (demands on teachers; individual stress management strategies; the significance of collegial counselling when dealing with difficult pupils, parents and colleagues). The teacher training courses analyse the teaching behaviour of the participating students and the structure of learning-psychological and socio-psychological alternatives: (usage of video feedback; elements of group dynamics and behaviour regulation in due consideration of different types of pupils.)		
Intended learning outcomes		
The students reflect on their journey leading to the teaching degree studies. They compare the role and tasks of teachers to their expectations and competencies and analyse stress factors and possible coping strategies. They understand the importance of personal attitude and behaviour when dealing with pupils, parents and colleagues and become acquainted with solution-oriented systemic perspectives. After completing the teaching training, the students know advantageous and disadvantageous forms and effects of possible interactions between teachers and children/juveniles as well as alternative behaviour patterns for dealing with pupils based on an appropriate basic attitude taking into account the pupils' individual peculiarities.

Psychological Grounded Application of Media in Specific School Subjects within Elementary School			o6-Psy-MedienP-092-m01
Module coordinator		Module offered by	
holder of the Professorship of Educational Psychology		Institute of Psychology	
ECTS	Method of grading	Only after succ. compl. of module(s)	
2	(not) successfully completed	--	
Duration	Module level	Other prerequisites	
1 semester	undergraduate	Admission prerequisite to assessment: regular attendance of courses (a maximum of 3 incidents of unexcused absence).	
Contents			
Principles, goals and methods of using media in school and class in view of Media Psychology, media technology, and Educational Psychology, e.g. psychological computer programmes for learning and practising individual teaching subjects and areas of primary education; utilising recording media for classroom support (ensuring learning achievements, visualisation, improvement of class solidarity).			
Intended learning outcomes			
The students know corresponding media and their possible pedagogical-psychological application. When it comes to learning programmes, they have gained an overview of relevant, evaluated programmes and are able to evaluate their efficiency on the basis of individual dimensions. They are able to handle recording media and to prepare the usage for improved teaching.

1 semester	undergraduate	--
Contents		
In this seminar, the students learn to efficiently handle multimedia formats and contents in combination with electronic board systems. Theoretical principles of working with boards are mentioned. Aside from learning how to acquire resources for the integration into board images, the students also learn how to produce such resources themselves. Afterwards, the students present self-created board images in the course, which are discussed in the group.		
Intended learning outcomes		
The students have basic knowledge of the handling of various electronic board systems. They have the requisite know-how needed to create pupil-centred learning environments and to integrate interactivity into teaching for example for future teaching jobs.		
Courses (type, number of weekly contact hours, language — if other than German)		
S (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module can be chosen to earn a bonus)		
presentation (approx. 25 minutes) with written elaboration (approx. 2 pages)		
Allocation of places		
Number of places: maximum 15. Should the number of applications exceed the number of available places, places will be allocated as follows: (1) Students applying after not having successfully completed assessment in the past two semesters will be given preferential consideration. (2) The remaining places will be allocated by lot. (3) A waiting list will be maintained and places re-allocated by lot as they become available.

<b>Contents</b>		
In the seminar, the students acquire knowledge of the characteristics, application possibilities and production techniques of multimedia components. They become acquainted with the principles of working with boards. This knowledge enables them to take advantage of the possibilities and opportunities of working with interactive board systems. As an example of multimedia use in modern learning environments, the students practise working with interactive whiteboards, which are a digital version of the conventional blackboard. They study functions such as video and audio recording as well as computerised and self-directed learning processes.		
<b>Intended learning outcomes</b>		
The students have advanced knowledge of the handling of various electronic board systems. They have the requisite know-how needed to create pupil-centred learning environments and to integrate interactivity into teaching, for example for future teaching jobs.

This seminar imparts know-how about the evaluation of open source solutions. Afterwards, it discusses the functionality of established products in this area. During their presentations, the students introduce evaluation criteria as well as functional aspects of a specific product and show how to productively work with it.		
Intended learning outcomes		
The students have basic knowledge of the evaluation of open source software. They know basic functions for productive working with open source applications. The students are able to compare open source solutions to their commercial counterparts.

Im Seminar wird ein Know-how zur Evaluation von Open-Source-Lösungen vermittelt. Anschließend wird die Funktionalität von etablierten Produkten aus diesem Bereich behandelt. In ihren Vorträgen stellen die Studierenden neben den Evaluationskriterien funktionale Aspekte eines spezifischen Produkts vor und veranschaulichen die produktive Arbeit mit diesem.		
Intended learning outcomes		
German intended learning outcomes available but not translated yet.		
Die Studierenden verfügen über vertiefte Kenntnisse zur Evaluation von Open-Source-Software. Sie kennen neben gängigen auch spezielle Funktionen um produktiv mit quelloffenen Applikationen zu arbeiten. Die Studierenden können einen Vergleich von Open-Source-Lösungen zu deren kommerziellen Pendanten ziehen und sind in der Lage Anwendungen aus beiden Rubriken miteinander einzusetzen.

<b>Contents</b>		
At the beginning of the seminar, the students acquire important knowledge of the technical development of websites. In the following, they become acquainted with tools for the sensible and effective organisation of websites. Afterwards, the students develop own projects and present them in the plenum.		
<b>Intended learning outcomes</b>		
The students have basic knowledge of the structure and function of web technologies such as HTML, CSS, PHP, databases and content management systems. They know tools for the efficient and sensible use of these technologies. They have acquired basic knowledge of much-discussed concepts such as "Web 2.0" and "Accessibility" through practical application examples.

Supervision of teaching degree students deals with current stress situations of supervisors. These situations might include conflicts resulting from relations with oneself, pupils, parents or the teaching staff. We will consider the problems presented from different angles and compile various solution approaches.		
<b>Intended learning outcomes</b>		
By working as supervisors, the teaching degree students advance their personal, subject-specific and social competencies. The students are able to re-evaluate conflictual relations in school, to evaluate interaction processes and problems in altered contexts, and to perceive themselves and others in a differentiated manner. They are more aware of their own and other person's feelings and are able to develop alternatives for action.

<b>Contents</b>		
Didactic concepts and theories of education, media-didactic concepts with a special focus on the deployment of digital media in classes, planning and creating learning environments whilst taking into account the subject and the target group as well as the requirements of inclusive education; theory of school as a institution and organisation that has been shaped and has to be shaped; results of empirical school and classroom research; concepts of diagnosing, evaluating and promoting performance, concepts of norm determination and quality management; education, schooling, promotion and counselling in school and classes.		
<b>Intended learning outcomes</b>		
After successfully completing this module, the students are able to characterise and evaluate theories of school and classes as well as concepts and theories of schooling and education in view of different aspects and criteria. They can analyse teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology and schooling/education situations. In addition, they are able to create their own offers based on theories. They are able to outline processes of norm determination, diagnosis, learning promotion, evaluation and quality management and can evaluate their meaning for the development of school. Furthermore, the students are able to evaluate their own role as a teacher in view of different tasks regarding professional aspects.

Contents		
Concepts and theories of planning and conducting classes; methods of classroom observation, discussion and reflection of own teaching plans and attempts in Förderschule; concepts and theories of analysing and evaluating classes; teaching as a profession		
Intended learning outcomes		
After successfully completing this module, the students are able to characterise and evaluate concepts and theories of planning and conducting classes in view of different aspects and criteria. They can analyse and evaluate teaching and learning offers and examples in view of different aspects. They are able to create own teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology. Furthermore, they can conduct and evaluate selected parts of their own teaching concepts in view of different aspects.

Knowledge and experience of the task fields of teachers at Grundschule, Hauptschule or Förderschule in view of pedagogics and didactics; planning classes and evaluating classroom observations as well as own teaching plans and attempts; theoretical classification and reflection		
<b>Intended learning outcomes</b>		
After successfully completing this module, the students know different possibilities to design classes for Grundschule, Hauptschule or Förderschule, to focus on the pupils whilst teaching and to identify promotion possibilities. They are experienced in planning, conducting and analysing classes and in promoting individual pupils as well as the whole class. They have an overview of the task fields of teachers at Grundschule, Hauptschule or Förderschule and of school as an organisation. They are able to evaluate and navigate their own suitability to work as a teacher.

<b>Contents</b>		
Close examination of exemplary areas of School Pedagogics in view of theories about school, classes or the curriculum.		
<b>Intended learning outcomes</b>		
After successfully completing this module, the students have advanced knowledge of an exemplary area that is essential to the scientific examination of School Pedagogics. They have methodological competencies and know the topic areas that are relevant to practice. The students are able to plan and analyse learning environments or to transfer functions of school to school life and can therefore explain its structures.

Contents		
An awareness of the correlation between the areas of aesthetics, culture, and religion with special attention to their individual nature and with an understanding of current questions and problems and, in particular, of how they appear in the media.		
Intended learning outcomes		
At the end of the course, students will have developed cultural-hermeneutic skills and techniques. They will be able to decipher everyday phenomena, societal processes of self-interpretation, ethical discourses, or works of art from various art disciplines in the context of theological or ethical theories. They will be able to develop balanced judgements and interrelate them with other phenomena.

<b>Contents</b>		
Introduction to theological ways of thinking in ethics or anthropology based on current or central theological and philosophical texts as well as their incorporation into religious education lessons that are tailored to the needs of the age group students are teaching.		
<b>Intended learning outcomes</b>		
In the area of ethics or anthropology, students will be able to recognise fundamental approaches of a theological argument, to situate the contents within the context of current social problems, and to discuss them in an appropriate manner. In addition, they will have developed the ability to teach sessions in the religious education classroom that familiarise pupils with ethical and anthropological approaches in an appropriate manner that is tailored to the needs of the age group they are teaching.

Module title			Abbreviation
Emotional and behavioral disorders: project in educational science and psychology - additive			o6-V-ProjPPA-112-m01
Module coordinator		Module offered by	
holder of the Chair of Special Education V		Chair of Special Education in the Context of Emotional and Behavioural Disorders	
ECTS	Method of grading	Only after succ. compl. of module(s)	
4	numerical grade	--	
Duration	Module level	Other prerequisites	
1 semester	graduate	--	
Contents			
The students collect information on the basic as well as issue-specific state of research and theory of a selected topic of pedagogy and/or psychology in the context of behavioural disorders. They examine this topic on the basis of specific goals and questions while acquiring the corresponding methods. This might result in an empirical study, the development of a theory-oriented concept, the development of a pedagogical or therapeutic-pedagogical concept, an exemplary, evaluation-based application in class, the writing of a reader or journal article etc. A cooperation with a practice institution is also possible. The contents of the module are related to the module o6-V-ProjPPH.			
Intended learning outcomes			
The students know and are able to apply approaches to scientific questions (professional and methodological competence); they have advanced problem-specific knowledge of pedagogical questions and psychological perspectives regarding behavioural disorders (professional competence); they know possibilities of theoretical and empirical data research (methodological competence); they are able to review complex problems in group work whilst sticking to a self-developed work plan in a target-oriented manner (social competence); they independently execute a complex task over a longer period of time with a high level of self-learning (self-competence).			
Courses (type, number of weekly contact hours, language — if other than German)
